Here renowned bioethicist Albert R Jonsen equips readers with the tools and background to navigate the fascinating and complex landscape of bioethics Bioethics Beyond the Headlines is a primer You will not find convoluted philosophical arguments in this volume Rather you will find an engaging sampling of the key questions in bioethics including euthanasia assisted reproduction cloning and stem cells neuroscience access to healthcare and even research on animals and questions of environmental ethics areas typically overlooked in general introductions to bioethics But a primer is not merely a first book it should also prime the interest of the reader to prepare the mind for a more expansive venture into these issues Bioethics Beyond the Headlines intends to do just Beyond Safety Emily Johansen, 2021-09-09 Beyond Safety argues that concerns about the ethical impossibility of that individual safety in the face of risks with increasingly obvious global consequences alters representations of neoliberal contemporary life As the climate crises in the Caribbean and Australia ongoing European refugee and American border crises and most recently anxieties about Coronavirus illustrate contemporary life is characterized by global connections that produce and reflect precarious outcomes and dangers. The ability to ignore risk or shift it to others underscores the fact that it is mitigable for particular segments of society while inescapable for others Emily Johansen investigates depictions of global danger and safety in contemporary transnational fictional and popular texts those characterized by a narrative or representational emphasis on border crossing and global interdependences She demonstrates how these texts use risk to question and re imagine the norms and practices of contemporary global citizenship Beyond Safety thus brings together three of the central keywords of contemporary literary criticism of the last ten years cosmopolitanism precarity neoliberalism and shows how their intersection allows for a fuller conception of contemporary life and imagines a new global future
