From Kashmir to Kabul Omar Khan, 2002 The Baker And Burke Story Tells Of The Rise Of Photography And Himalayan Hillstations Like Murree Where They Had Their Most Raj Photographers Shot Their Best Photographs For Hotly Contested Competitions Across India Nineteenth-Century Photographs and Architecture Micheline Nilsen, 2017-07-05 Eschewing the limiting idea that nineteenth century architecture photography merely reflects functionality the objective of this collection is to reflect the aesthetic intellectual and cultural concerns of the time The essays hold appeal for social and cultural historians as well as those with an interest in the fields of art history urban geography history of travel and tourism Nineteenth century photographers captured what could be seen and what they wanted to be seen Their images informed of exploration progress heritage and destruction Architecture was a staple subject for the first generation of photographers as it patiently tolerated the long exposures of the early processes During its formative decades photography responded to evolutionary cultural forces of market and artistic production Photographs of architecture reflected a specific political or social context modulated through individual points of view For this reason the examination of each photographic image as a primary visual document and an aesthetic object rather than a technical milestone on a chronological trajectory affords a richer multi faceted approach to the extensive and complex corpus of photographs taken by photographers all over the world This project acknowledges the importance of technique in the early decades of photography but focuses on the thematic content of the material It places the photography of architecture in an international context under the contemporary critical lens sharpened by theoretical and cultural examinations of the topic An Afghan Prince in Victorian England Robert D. McChesney, 2024-07-25 In 1894 Great Britain invited Abd al Rahman Khan the amir of Afghanistan to England for a state visit Then at the height of its imperial might Britain sought to strengthen ties with the strategically important Afghanistan which shared a long frontier not yet a border with British India The amir s aim for the visit was to secure permission for an Afghan legation embassy in London while the British unaware of this goal hoped to overawe the amir with displays of military and industrial might as well as performances to show the strength and unity of British civil society The amir citing illness ultimately declined the invitation but in a calculated snub sent his second son Prince Nasr Allah Khan in his place This book narrates the events of the prince s mission in a number of revealing ways Using both British and Afghan sources including the journal of a senior member of the Afghan contingent McChesney places the visit in its international and historical context and analyzes the internal dynamics of the prince s delegation the seventy members of whom represented Afghanistan but included two Englishmen and two English women A further twenty members representing the Government of British India were as multi ethnic and multilingual as the members of the Afghan delegation This bilateral and complex mission left India in April 1895 and remained together for the next six months From the beginning it was riven by incidents of misogyny racism and class conflict that affected its ability to perform its diplomatic functions The reader gains insights into the goals and

tactics of two asymmetrical yet competing powers as well as a rare look at the human element in this cross cultural diplomatic encounter      **Connecting Histories in Afghanistan** Shah Hanifi,2011-02-11 Originally published online in 2008 by Columbia University Press      **Plague Image and Imagination from Medieval to Modern Times** Christos Lynteris,2021-07-29 This edited collection brings together new research by world leading historians and anthropologists to examine the interaction between images of plague in different temporal and spatial contexts and the imagination of the disease from the Middle Ages to today The chapters in this book illuminate to what extent the image of plague has not simply reflected but also impacted the way in which the disease is experienced in different historical periods The book asks what is the contribution of the entanglement between epidemic image and imagination to the persistence of plague as a category of human suffering across so many centuries in spite of profound shifts in our medical understanding of the disease What is it that makes plague such a visually charismatic subject And why is the medical religious and lay imagination of plague so consistently determined by the visual register In answering these questions this volume takes the study of plague images beyond its usual art historical framework so as to examine them and their relation to the imagination of plague from medical historical visual anthropological and postcolonial perspectives      Afghanistan C. Heather Bleaney,María Ángeles Gallego,2006 Presents a thematically indexed bibliography devoted to Afghanistan Following the pattern established by one of its major data sources viz the acclaimed Index Islamicus both journal articles and book publications are included and indexed      History of Central Asia, The: 4-volume set Christoph Baumer,2018-04-18 This set includes all four volumes of the critically acclaimed History of Central Asia series The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations as well as many of the most transformative developments in the history of civilization Christoph Baumer s ambitious four volume treatment of the region charts the 3000 year drama of Scythians and Sarmatians Soviets and transcontinental Silk Roads trade routes and the transmission of ideas across the steppes and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan Masterfully interweaving the stories of individuals and peoples the author s engaging prose is richly augmented throughout by colour photographs taken on his own travels This set includes The Age of the Steppe Warriors Volume 1 The Age of the Silk Roads Volume 2 The Age of Islam and the Mongols Volume 3 and The Age of Decline and Revival Volume 4      *The Frontier in British India* Thomas Simpson,2021-01-07 Thomas Simpson provides an innovative account of how distinctive forms of colonial power and knowledge developed at the territorial fringes of colonial India during the nineteenth century Through critical interventions in a wide range of theoretical and historiographical fields he speaks to historians of empire and science anthropologists and geographers alike The Frontier in British India provides the first connected and comparative analysis of frontiers in northwest and northeast India and draws on visual and written materials from an array of archives across the subcontinent and the UK Colonial interventions in frontier spaces and populations were it shows enormously destructive but also prone to confusion and failure on their own

terms British frontier administrators did not merely suffer turbulent frontiers but actively worked to generate and uphold these regions as spaces of governmental and scientific exception Accordingly India s frontiers became crucial spaces of imperial practice and imagination throughout the nineteenth century      *The March to Kandahar* Rodney Atwood,2012-03-19 The story of the British commander who led a three hundred mile march from Kabul to Kandahar and became the toast of Victorian England This book examines the role of Frederick Roberts in the Second Anglo Afghan War culminating in his famous march in 1880 with ten thousand British and Indian soldiers covering three hundred miles in twenty three days from Kabul to Kandahar to defeat the Afghan army of Ayub Khan pretender to the Amirship of Kabul The march made Roberts one of late Victorian England s great military heroes partly because of the achievement itself partly because the victory restored British prestige after defeat and finally because of Roberts astute use of the press to puff his victory This overcame the earlier damage done to his reputation by the political storm that followed his hanging of over eighty Afghans in revenge for the massacre of a British envoy and his escort It enabled the liberal Viceroy of India Lord Ripon to extract his forces from an Afghan imbroglio with prestige restored and an emir on the Afghan throne who for thirty nine years maintained friendship with British India Roberts or Bobs as he was known subsequently advanced to command the Indian Army working closely with future viceroys to influence Indian defense policy on the North West Frontier and being hymned by Rudyard Kipling poet of empire His bestselling autobiography *Forty One Years in India* established his image before the British public and he remains one of Britain s best known if least understood military figures      **A Cultural History of the British Empire** John MacDonald MacKenzie,2022-01-01 A compelling history of British imperial culture showing how it was adopted and subverted by colonial subjects around the world As the British Empire expanded across the globe it exported more than troops and goods In every colony imperial delegates dispersed British cultural forms Facilitated by the rapid growth of print photography film and radio imperialists imagined this new global culture would cement the unity of the empire But this remarkably wide ranging spread of ideas had unintended and surprising results In this groundbreaking history John M MacKenzie examines the importance of culture in British imperialism MacKenzie describes how colonized peoples were quick to observe British culture and adapted elements to their own ends subverting British expectations and eventually beating them at their own game As indigenous communities integrated their own cultures with the British imports the empire itself was increasingly undermined From the extraordinary spread of cricket and horse racing to statues and ceremonies MacKenzie presents an engaging imperial history one with profound implications for global culture in the present day

**Visualizing Space in Banaras** Martin Gaenszle,Jörg Gengnagel,2006 The city of Banaras is widely known as a unique impressive and particularly ancient historical place But for many it is above all a universal cosmic and in a sense timeless sacred space Both of these seemingly contrasting depictions contribute to how the city is experienced by its inhabitants or visitors and there is a great variety of sometimes competing views Kasi the Luminous the ancient Crossing the city of Death

the place of Hindu Muslim encounter and syncretism the cosmopolitan centre of learning etc The present volume deals with the multiple ways this urban site is visualized imagined and culturally represented by different actors and groups The forms of visualizations are manifold and include buildings paintings drawings panoramas photographs traditional and modern maps as well as verbal and mental images The major focus will thus be on visual media which are of special significance for the representation of space But this cannot be divorced from other forms of expressions which are part of the local life world Lebenswelt The contributions look at local as well as exogenous constructions of the rich topography of Kasi and show that these imaginations and constructions are not static but always embedded in social and cultural practices of representation often contested and never complete
