From Monobank To Commercial Banking

John Wong

From Monobank To Commercial Banking:

From Monobank to Commercial Banking Jens Kovsted, John Rand, Finn Tarp, Institute of Southeast Asian Studies, 2005 This study analyzes the difficulties and problems encountered in transforming the Vietnamese financial sector from one subordinate to government objectives and goals to an autonomous sector guided by market forces and competitive pressures Here the history of financial sector liberalization is traced and close attention paid to the activities and autonomy of the State Bank of Vietnam the institution responsible for the supervision and regulation of the financial sector in Vietnam

China's Banking Transformation James Stent, 2017 China's Banking Transformation describes the strengths and weaknesses of the Chinese banking system based on the author's 12 years serving on two Chinese bank boards Acknowledging the challenges banks face the book challenges conventional views maintaining that China's banks now function well within China's market socialist political economy and within China's traditional collectivist cultural world

Financial and Enterprise Restructuring in Emerging Market Economies Mr. Timothy D. Lane, Mr. Steven M. Fries, 1994-03-01 This paper examines alternative approaches to building sound financial structures in emerging market economies The foremost task is to resolve the bad loan problem and to recapitalize insolvent state banks By restoring an incentive for banks to price accurately the risks of new lending this effort would be an important first step in strengthening financial control However we argue that this endeavor is only part of the task at hand the remainder is to provide financing that facilitates the economic restructuring of SOEs A comprehensive strategy may involve combining discipline derived from enforcing existing loans to SOEs with adequate funding for new forms of ownership including financing for enterprise sell offs and leasing

Banking Reforms and Monetary Policy in the People's Republic of China Yong Guo, 2002-09-06 From 1993 1995 the People's Republic of China undertook a series of reforms designed to modernise their banking and financial systems the process of financial intermediation and to implement a sound and credible monetary policy in China They based these reforms on the Federal Reserve System in the USA This book analyses these reforms and assesses the effectiveness of the monetary policy that was put in place and shows whether it can withstand China's accession to the WTO

Bank Insolvency and Stabilization in Eastern Europe International Monetary Fund, 1992-01-01 The profound structural reform underway in Eastern Europe has revealed the weakness of the banking sector there macroeconomic stability and other reforms are thereby threatened After an overview of recent developments in the banking sectors of these countries a model is developed that clarifies the role of banking in an emerging market economy and the danger that the disturbances inherent to it may be magnified and prolonged by a banking collapse The implication is that priority must be given to mobilizing fiscal resources to cover the costs of restructuring the banking sector

Vietnam, 2024-09-09 In the late 1980s most of the world still associated Vietnam with resistance and war hardship refugees and a mismanaged planned economy During the 1990s by contrast major countries began to see Vietnam as both a potential partner and a strategically significant actor particularly in the competition between

the United States and an emerging China and international investors began to see Vietnam as a land of opportunity

Institutional Design in Post-Communist Societies Jon Elster, Claus Offe, Ulrich K. Preuss, 1998-03-28 The authors of this book have developed a new and stimulating approach to the analysis of the transitions of Bulgaria the Czech Republic Hungary and Slovakia to democracy and a market economy They integrate interdisciplinary theoretical work with elaborate empirical data on some of the most challenging events of the twentieth century Three groups of phenomena and their causal interconnection are explored the material legacies constraints habits and cognitive frameworks inherited from the past the erratic configuration of new actors and new spaces for action and a new institutional order under which agency is institutionalized and the sustainability of institutions is achieved The book studies the interrelations of national identities economic interests and political institutions with the transformation process concentrating on issues of constitution making democratic infrastructure the market economy and social policy

Central Banking and Monetary Policy Implementation Sylvio Antonio Kappes, Louis-Philippe Rochon, Guillaume Vallet, 2025-06-09 This informative book discusses the evolution of monetary policy particularly since the subprime crisis The contributors analyse diverse examples of the implementation of monetary policies across a range of countries from those with major central banks such as Canada and Switzerland to developing economies such as Brazil and Nigeria exploring how the practical workings of these measures can vary

Underdevelopment and the Transition to Socialism James H. Mittelman, 2013-09-24 Underdevelopment and the Transition to Socialism Mozambique and Tanzania evaluates the promise and problems of socialism in the Third World by considering the political economies of Mozambique and Tanzania The aim is to provide a basic account for Marxists and non Marxists alike interested in alternative strategies of development in the Third World It offers a materialist political economy approach that should be useful to an interdisciplinary group of scholars and practitioners The book is organized into four parts Part I maps out purposes and procedures Part II on Mozambique is a factually grounded analysis of an initial conjuncture in the transition to socialism the capture of state power by workers and peasants Part III on Tanzania focuses on another vital step on the way to socialism the nationalization of leading financial institutions and the attempt to place them under the aegis of the immediate producers Part IV knits together the main strands of the foregoing analysis and ties them to the broad themes discussed at the beginning of this book

Latin American and East European Economies in

Transition Claude Auroi, 1998 Within the global framework of the major transformation of development models the various contributors to this collection seek to compare the Latin American experiences of macroeconomic changes or adjustments with those of East European countries

Systemic Requirements for Monetary Stability in Eastern Europe and the

Former Soviet Union Jacek Rostowski, 1994-02-01 The primary function of banks during economic transformation is seen to be provision of an efficient payments mechanism The lack of banking skills particularly in credit allocation is seen as the major problem in stable monetary systems This is a problem which can be expected to last many years The solution is to limit

banks to very safe assets initially central bank liabilities Combining such safe banks with a monetary rule would provide stable monetary systems during transition China's Economic Challenge: Smashing the Iron Rice Bowl Neil C.

Hughes,2016-09-16 This book lays bare the reality behind China's efforts at economic modernization by showing 1 what is happening to the industrial forces that help shape the economy 2 how economic agents have behaved 3 what government intentions really are and 4 how the transition from a centralized to a market oriented economy has been filled with contradictions and difficult choices The author examines issues such as China's WTO membership the Three Gorges Project the widening differences between the urban and rural areas the government's efforts to protect its own interests and maintain stability the impact of reform and the situation facing state enterprises the banking system the agricultural sector and the environment Incentives for Innovation in China Xuedong Ding,Jun Li,2015-02-11 In the past three decades China

has successfully transformed itself from an extremely poor economy to the world's second largest economy The country's phenomenal economic growth has been sustained primarily by its rapid and continuous industrialization Currently industry accounts for nearly two fifths of China's gross domestic product and since 2009 China has been the world's largest exporter of manufactured products This book explores the question of how far this industrial growth has been the product of government policies It discusses how government policies and their priorities have developed and evolved examines how industrial policies are linked to policies in other areas such as trade technology and regional development and assesses how new policy initiatives are encouraging China's increasing success in new technology intensive industries It also demonstrates how China's industrial policies are linked to development of industrial clusters and regions **Systemic Financial Crises:**

Resolving Large Bank Insolvencies Douglas D Evanoff,George G Kaufman,2005-06-27 Bank failures like illness and taxes are almost a certainty at some time in the future What is less certain is their cost to and adverse implications for macroeconomies Past failures have frequently been resolved at very high cost to society However the cost could be reduced through having a well developed credible and widely publicized plan ready to put into action by policymakers If no such plan is ready when a large bank approaches insolvency political pressures are likely to influence the response of regulators Minimizing immediate short run costs are likely to outweigh minimizing further out longer run and longer lasting costs even if these delayed costs promise to be substantially greater Stated differently today will win out over tomorrow and politics will trump economics How best to prevent such unfavorable outcomes is the major theme of this volume The articles presented review past insolvency resolutions draw lessons from these resolutions discuss impediments to efficient resolutions including cross country cross regulator and institutional challenges and recommend how to move forward *On the Road to EU Accession* Michael S. Borish,Wei Ding,Michel No©±1,1996-01-01 Analyzes the causes of the inflation debt and growth crises that have occurred over the past 25 years the paths to recovery and the role of foreign aid in resolving the problems

Banking and Financial Stability in Central Europe David Green,Karl Petrick,2002-04-26 this book would be suited to

lawyers and non lawyers alike In addition it provides an interesting look at the EU banking system and the systems of Central and Eastern European countries Ellie Palmer *Journal of International Banking Law and Regulation* The eastwards expansion of the European Union is one of the most explosive economic and political issues of the early 21st century Economic and financial stability combined with rising prosperity in the applicant countries are increasingly seen as necessary preconditions for European Union membership This authoritative volume written by scholars and practitioners from Central and Western Europe and the United States confronts the issues involved in three of the countries most likely to be successful applicants to the EU the Czech Republic Hungary and Slovenia A spotlight is turned on the banking and financial industries as they are crucial to the achievement of economic stability The blend of expertise deployed which draws on in depth knowledge and extensive experience in central banking financial and commercial law business practical policy making and economic analysis ensures that this book is timely relevant and insightful The authors suggest that the role of the state in both creating and maintaining an effective financial sector is central Furthermore they argue that well regulated commercial banks and strategic foreign investors are a must as in practice the attempt to skip straight to modern capital markets has been ruinous This accessibly written volume will be of interest to students and scholars of economics finance law political science the sociology of economic life and European studies

China's Political System Sebastian Heilmann, 2016-12-08 The Chinese government is one of the most important actors in international affairs today To thoroughly understand how the People's Republic of China has grown in power requires a careful analysis of its political system To what extent can China's economic achievements be attributed to the country's political system and its policies What are the effects of economic modernization and global economic integration on the Chinese polity Is the Chinese political system capable of adapting to changing economic technological social and international conditions Exploring these central questions this definitive book provides readers with a comprehensive assessment of the preconditions prospects and risks associated with China's political development
