**Neotectonics of Bear Lake Valley, Utah and Idaho** James McCalpin, 2003-01-20 This report presents the results of a preliminary evaluation of the East Bear Lake EBF and West Bear Lake WBF fault zones which bound the east and west sides respectively of the Bear Lake Valley The Bear Lake Valley straddles the Utah Idaho border northeast of Logan Utah The results of this study show that both the EBF and the WBF have experienced surface faulting earthquakes in the recent geologic past and therefore represent an ongoing seismic hazard to northeastern Utah and southeastern Idaho South Bay Salt Pond Restoration Project ,2007 *California Statewide Wilderness Study Report: v. 1. Garcia Mountain* ,1991 Following a detailed inventory the Bureau of Land Management recommended that Congress designate 2 3 million acres of public land as wilderness and adding an additional 109 000 acres to Joshua Tree and Death Valley National Parks The California Statewide Wilderness Study Report summarizes those studies and documents the BLM s recommendations *Monitor* ,1984 *Report of the Special Committee of the United States Senate on the Irrigation and Reclamation of Arid Lands. ...* United States. weapons development and wildlife management It was applied to the Great Basin to bring the region once seen as worthless into the national economic fold Land managers ranchers mining interests wilderness and wildlife advocates outdoor recreationists and even the military adopted this ideology to accommodate promote and sanction a multitude of activities on public lands particularly those overseen by the Bureau of Land Management Some of these uses are locally driven and others are nationally mandated but all have exacted a cost from the region s human and natural environment In *The Size of the Risk* Leisl Carr Childers shows how different constituencies worked to fill the presumed empty space of the Great Basin with a variety of land use regimes that overlapped conflicted and ultimately harmed the environment and the people who depended on the region for their livelihoods She looks at the conflicts that arose from the intersection of an ever increasing number of activities such as nuclear testing and wild horse preservation and how Great Basin residents have navigated these conflicts Carr Childers s study of multiple use in the Great Basin highlights the complex interplay between the state society and the environment allowing us to better understand the ongoing reality of living in the American West
