

An illustration of a man in a rugged, outdoor setting. He is standing on a rocky, grassy outcrop, looking off to the right. He is wearing a dark, patterned tunic and trousers. He holds a longbow in his right hand and an arrow in his left. The background is a stylized landscape with blue and white areas representing sky and water or distant land. The overall style is reminiscent of early 20th-century pulp magazine illustrations.

Manhood in Hollywood from Bush to Bush David Greven, 2010-01-01 A struggle between narcissistic and masochistic modes of manhood defined Hollywood masculinity in the period between the presidencies of George H W Bush and George W Bush David Greven's contention is that a profound shift in representation occurred during the early 1990s when Hollywood was transformed by an explosion of films that foregrounded non normative gendered identity and sexualities In the years that have followed popular cinema has either emulated or evaded the representational strategies of this era especially in terms of gender and sexuality One major focus of this study is that in a great deal of the criticism in both the fields of film theory and queer theory masochism has been positively cast as a form of male sexuality that resists the structures of normative power while narcissism has been negatively cast as either a regressive sexuality or the bastion of white male privilege Greven argues that narcissism is a potentially radical mode of male sexuality that can defy normative codes and categories of gender whereas masochism far from being radical has emerged as the default mode of a traditional normative masculinity This study combines approaches from a variety of disciplines psychoanalysis queer theory American studies men's studies and film theory as it offers fresh readings of several important films of the past twenty years including *Casualties of War* *The Silence of the Lambs* *Fight Club* *The Passion of the Christ* *Auto Focus* and *Brokeback Mountain*

Women's History at the Cutting Edge Karen Offen, Chen Yan, 2020-06-04 This book considers the promise of women's and gender history for revolutionizing our understanding of the past while also acknowledging the current national political financial and other contextual realities that can and do constrain or promote the possibilities for researching and writing women's history The editors assert that the promise of women's and gender history is a cutting edge field of research a revolutionary development in the politics of historical scholarship essential for understanding the human past Further they argue for the inseparability of women's history and gendered analytical approaches The contributors to the volume address questions including what have been the achievements of women's and gender history over the past two decades To what

extent has it succeeded in making women's history an integral part of historical study rather than an optional specialist area
What impact has the study of manhood masculinities and men's gendered power had on our understanding of women's lives
What is the relationship between gender studies and new critical histories of colonialism and empire contact zones cross
cultural encounters and racialization How is new work on cultural geography and spatial categories impacting on our
historical understandings of bodily difference This book was originally published as a special issue of the Women's History
Review Pop Cultures and Ecstatic States of the Body Since World War II Kristoff Kerl, Detlef Siegfried, Robert P.

Stephens, Olaf Stieglitz, 2025-07-15 This book examines the many varied historical entanglements between pop cultures and
ecstatic euphoric and intoxicated bodies focusing on the period between the 1950s and the 1980s Charting a new course by
bringing together pop culture studies the history of bodies and the history of emotions the volume unites new historical
perspectives on different forms of corporeal pleasure and offers novel methods for studying the social and cultural politics of
ecstasy David Mamet and American Macho Arthur Holmberg, 2012-02-02 What does it mean to be an American man

Holmberg demonstrates how David Mamet's plays explore complex issues of masculinity **Masculinity and the Hunt**
Catherine Bates, 2013-03-21 As an age old metaphor for the sexual chase the hunt provides a uniquely conflicted site for the
representation of masculinity On the one hand hunting had from ancient times served to define a particular and culturally
approved mode of masculinity as heroic pursuant and goal oriented where success was measured by the achievement of the
objectives set the capture and killing of prey When applied to love on the other hand hunting was inflected quite differently
At first glance the basic scenario of a male subject pursuing elusive quarry over which he ultimately comes to assert control
might seem to epitomise the dynamic of the sexual chase yet when poets invoke the hunt in an amorous context this most
obvious manifestation of the metaphor is not the one they put to use On the contrary in lyric poetry and romance the hunt
metaphor serves to demote or destabilise the masculine subject in some way The huntsman is routinely a figure of failure for
all his efforts he either fails to catch what he pursues catches the wrong thing ends up being caught by others or runs round
in circles chasing himself His failure is measured precisely as a shortfall from the cultural ideal The metaphor of the hunt
thus opens up possibilities for exploring definitions of masculinity that deviate from culturally approved models of mastery
and power It shows how limited those models are and offers examples of alternative and counter cultural versions of a
masculine subjectivity that radically query patriarchal stereotypes of gender and class The hunt has been the subject of
increased critical interest over last few years partly as a result of its politicisation as an issue as reflected in recent changes
to hunting legislation within the UK Shifting attitudes to the hunt indicate that as a cultural phenomenon it continues to
mobilise strong opinion and to activate notions of class and gender identity to this day **Masculinity and the Hunt** is a unique
study considering the link between hunting and masculinity in the literature of the sixteenth century **Masculinity and
