T. Kelly,1999 If one culprit is suspected above all others for encouraging society to become more violent and unfeeling it is television This medium which has become so pervasive in the last 50 years seems to play an enormous role in the lives of the vast majority of people But who controls the content which exerts such an enormous influence and to an extent controls the people What are they doing now and what will they be doing tomorrow Is violence essential to sell toothpaste and hamburgers What are our children becoming and what will their children be like Will every child carry a gun or other weapon just waiting for someone to trigger their violent nature and ignite their preprogrammed anger *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Adolescent Health* ,1991 **Adolescent Health: Background and the effectiveness of selected prevention and treatment services** ,1991 This three volume work presents the Office of Technology s assessment of the physical emotional and behavioral health status of contemporary American adolescents including those living in poverty racial and ethnic minority groups Native Americans and rural adolescents Specific topics covered are identifying risk and protective factors for adolescent health problems evaluating options in the organization of health services and technologies available to adolescents assessing options in the conduct of national health surveys to improve collection of adolescent health statistics and identifying gaps in research on the health and behavior of adolescents *Playing the Field* Charles C. Euchner,1994-09 Can a sports franchise blackmail a city into getting what it wants a new stadium say or favorable leasing terms by threatening to relocate In 1982 the owners of the Chicago White Sox pledged to keep the team in Chicago if the city approved a 5 million tax exempt bond to finance construction of luxury suites at Comiskey Park The city council approved it A few years later when Comiskey Park was in need of renovation the owners

threatened to move the team to Florida unless a new stadium was built A site was chosen near the old stadium property condemned residents evicted and a new stadium built We had to make threats the owners said If we didn t have the threat of moving we wouldn t have gotten the deal Sports is not a dominant industry in any city writes Charles Euchner yet it receives the kind of attention one might expect to be lavished on major producers and employers In *Playing the Field* Euchner looks at why sports attracts this kind of attention and what that says about the urban political process Examining the relationships between Los Angeles and the Raiders Baltimore and the Colts and the Orioles and Chicago and the White Sox Euchner argues that in the absence of public standards for equitable arbitration between cities and teams the sports industry has the ability to steer negotiations in a way that leaves cities vulnerable According to Euchner this greater leverage of sports franchises is due at least in part to their overall economic insignificance Since the demands of a franchise do not directly affect many interest groups opponents of stadium projects have difficulty developing coalitions to oppose them The result is that civic leaders tend to succumb to the blackmail tactics of professional sports rather than developing and supporting sound economic policies
