Religious Education as Encounter. A Tribute to John M. Hull Siebren Miedema, 2009 This volume is a tribute to our esteemed colleague Professor John Martin Hull for his exceptional academic achievements in the field of religious education Especially worth mentioning are his worldwide continuous efforts in trying to realize interreligious education and interreligious learning in public schools In his approach there is a strong emphasis on openness dialogue and encounter When we are looking for an adequate vignette to characterize the contribution of this famous religious educator a good one might be religious education as encounter That is why this volume is systematically focusing on this topic It brings together contributions from leading researchers in the international field of religious education adhering to a great variety of religious or worldview traditions and it addresses a wide range of perspectives regarding the concept of encounter in religious education

Saint Paul and the Education Encounter Michael Victory, 2022-11-11 This book connects the Biblical Paul s work as an educator with the revival of interest in Paul s impact on contemporary social and cultural experience sometimes referred to as Paul s new moment It

presents Paul's letters as being the testament of an educator who brought a radical emancipatory approach to the communities with whom he lived and worked. The book draws on history, philosophy, New Testament studies and social theory to present the case for Paul as the initiator of a pedagogy of the event. This book explores the concept of a pedagogy of the event and provides a case study of success in its implementation. Theological Education and Christian Scholarship for Human Flourishing Celucien L. Joseph, 2022-09-14. This book explores the interconnection of theological education and Christian scholarship, cultural and theological hermeneutics, pedagogy and community knowledge, democracy and citizenship. Yet the three major disciplines or discourses covered in this work include multicultural education, theology and hermeneutics through the lens of human flourishing and the concept of the good life. From this angle, this project is written from three different methods and approaches that intersect with each other: a theology of contextualization, a hermeneutics of interculturality and a pedagogy of cultural literacy and transformative community knowledge. The book advances the idea that theological education should be the starting point to foster candid conversations about the importance of democracy and human rights, civic engagement and the political life, inclusion and diversity and pluralism and difference in our multicultural society. The book uses the tools of multicultural education and cultural knowledge to enhance democracy and promote fundamental human virtues that would sustain the good life and human flourishing in the world in the Aristotelian sense and in the Socratic idea of local and world citizenship. Finally, this text offers an alternative vision to contemporary theological education to deconstruct the white male and Eurocentric narratives of theological education and Christian scholarship.

Latin Literature Roy Gibson, Christopher Whitton, 2024-01-18. The Cambridge Critical Guide to Latin Literature offers a critical overview of work on Latin literature. Where are we? How did we get here? Where to next? Fifteen commissioned chapters along with an extensive introduction and Mary Beard's postscript approach these questions from a range of angles. They aim not to codify the field but to give snapshots of the discipline from different perspectives and to offer provocations for future development. The Critical Guide aims to stimulate reflection on how we engage with Latin literature. Texts, tools and territories are the three areas of focus. The Guide situates the study of classical Latin literature within its global context from late antiquity to Neo-Latin, moving away from an exclusive focus on the pre-200 CE corpus. It recalibrates links with adjoining disciplines: history, philosophy, material culture, linguistics, political thought, Greek and takes a fresh look at key tools: editing, reception, intertextuality, theory. **Encountering the Book of Romans** Douglas J. American Book Publishing Record, 2000. *Ecumenical Encounters with Desmond Mpilo Tutu* Sarojini Nadar, Tinyiko Maluleke, Dietrich Werner, Vicentia Kgabe, Rudolf Hinz, 2021-10-07. This inspiring

collection of 72 critical and creative contributions honouring the life and work of Desmond Mpilo Tutu comprises a rich and diverse array of reflections on the ecumenical global struggle against Apartheid and Archbishop Tutu's role therein as a political priest prophet and intellectual. The encounters with the Arch and his work has shaped ongoing faith based activist and academic pursuits for justice peace and dignity. Anyone familiar with his outstanding contributions to the promotion of justice dignity and peace will know that a hallmark of Desmond Tutu's celebrated style is his use of narrative and real life stories. In honour of his unique and remarkable example the contributions in this book combine oral history and written history paradigms as well as sociological philosophical and theological approaches. While the book is meant to be a memorial recollection of encounters with the Arch the hope is that these recollections will continue to inspire collective struggles and hopes for justice peace and dignity.

An Old Testament Theology Bruce K. Waltke, 2011-04-19 The Old Testament is more than a religious history of the nation of Israel. It is more than a portrait gallery of heroes of the faith. It is even more than a theological and prophetic backdrop to the New Testament. Beyond these the Old Testament is inspired revelation of the very nature character and works of God. As renowned Old Testament scholar Bruce Waltke writes in the preface of this book the Old Testament's every sentence is fraught with theology worthy of reflection. This book is the result of decades of reflection informed by an extensive knowledge of the Hebrew language the best of critical scholarship a deep understanding of both the content and spirit of the Old Testament and a thoroughly evangelical conviction. Taking a narrative chronological approach to the text Waltke employs rhetorical criticism to illuminate the theologies of the biblical narrators. Through careful study he shows that the unifying theme of the Old Testament is the breaking in of the kingdom of God. This theme helps the reader better understand not only the Old Testament but also the New Testament the continuity of the entire Bible and ultimately God himself.
