Education Of Minorities And Peace Education In Pluralistic Societies:

Education of Minorities and Peace Education in Pluralistic Societies Yaacov Iram, 2003-05-30 The existence of minorities will grow in most countries of the world because of sociopolitical upheaval and economic crisis both of which result in waves of migration Contributors to this volume discuss the task of education to alleviate the problems arising from the mix of peoples of various ethnic cultural linguistic and religious backgrounds No education system alone can create a just and equal society and education by itself is not enough to achieve peace Nevertheless educational efforts assisted by other institutional commitments and actions are essential in order to create an atmosphere of justice mutual recognition and acceptance as preconditions for peaceful coexistence within groups and between people As a result of worldwide migration in reaction to wars and other geopolitical conflicts as well as economic crisis many modern nation states consist of a mix of people of various ethnic cultural linguistic and religious backgrounds Indeed there are very few countries that are monocultural Here contributors discuss how it is imperative that multicultural education be promoted to achieve awareness then tolerance and finally acceptance of ethnic and other diversity within societies Building a Peaceful Society Laura L. Finley, 2011-07-01 To truly move toward a more peaceful society it is imperative that peace education better address structural and institutional violence This requires that it be integrated into institutions outside of schools and universities Doing so will be challenging as many of these institutions are structured on domination and control not on partnership and shared power In particular U S criminal justice social services and prevention programs and sport have tended to be dominator modeled This book offers analysis and suggestions for overcoming these challenges and for integrating peace education into important social institutions Creativity will be one of the most useful assets in moving peace education from schools to other institutions This book argues that with creative visioning collaboration and implementation peace education can be integrated into the most challenging situations and provide hope for holistic changes in our society Encyclopedia of Peace Education Monisha Bajaj, 2008-05-01 The rise of peace education both in scholarship and in practice has yielded numerous documents websites and publications with often divergent perspectives on what the field is does and means The Encyclopedia of Peace Education provides a comprehensive overview of the scholarly developments in the field to date so as to provide a common denominator for the various actors involved in advancing peace education internationally Thus this edited volume serves as an essential reference guide that traces the history and emergence of the field highlights foundational concepts contextualizes peace education practice across international and disciplinary borders and suggests new directions for peace educators From core conceptual perspectives to the moral and spiritual foundations of the field to the role of the United Nations the Encyclopedia grounds peace education in a solid theoretical and practical framework through the writings of the field s most renowned scholars This volume will target undergraduate and graduate students as well as scholars and practitioners working in international and non governmental organizations in the field of peace

education **International Handbook of Migration, Minorities and Education** Zvi Bekerman,Thomas

Geisen,2011-10-06 Migrants and minorities are always at risk of being caught in essentialized cultural definitions and being denied the right to express their cultural preferences because they are perceived as threats to social cohesion Migrants and minorities respond to these difficulties in multiple ways as active agents in the pedagogical political social and scientific processes that position them in this or that cultural sphere On the one hand they reject ascribed cultural attributes while striving towards integration in a variety of social spheres e g school and workplace in order to achieve social mobility On the other hand they articulate demands for cultural self determination This discursive duality is met with suspicion by the majority culture For societies with high levels of migration or with substantial minority cultures questions related to the meaning of cultural heterogeneity and the social and cultural limits of learning and communication e g migration education or critical multiculturalism are very important It is precisely here where the chances for new beginnings and new trials become of great importance for educational theorizing which urgently needs to find answers to current questions about individual freedom community cultural affiliations and social and democratic cohesion Answers to these questions must account for both political and learning perspectives at the macro mezzo and micro contextual levels The contributions of this edited volume enhance the knowledge in the field of migrant minority education with a special emphasis on the meaning of culture and social learning for educational processes **SAGE Handbook of Education for Citizenship and Democracy**

H. (Ina) ter Avest, 2019-11-22 There are two constants in academic and theological discourse throughout history they are the debate around secularization and the dialogue concerning the intersection of religion and education Each age has had its debate about modernizing forces that drive concerns of impending secularization In this publication this theme is approached from

perspectives of teachers of students of policy makers and situated in a politico historical context Aware of the fact that in today s plural societies one sacred canopy is non existent anymore cracks of the sacred canopy canopies are described as well as the light that gets in the possible and challenging ways out are roughly sketched *Education as Humanisation* Scherto Gill,Ulrike Niens,2017-10-02 Over the past decades there has been a consistent and poignant ambiguity with regard to the role of education in the context of post conflict and divided societies working towards building peace Most recently global developments including the after effects of the Arab Spring the devastating wars in Syria and the refugee crisis in Europe have directed our attention once more to the part that education can play in building peace at many levels In this context it is timely to create a space for a focused inquiry and scholarly debate about peace oriented pedagogies and how they might affect the post conflict reconstruction in divergent settings Thus both the subject and the content of this book are important in the light of the current needs in many societies emerging from conflicted community relations In particular they propose a refreshing and transformative view of peace based on a humanising conception of education and dialogic pedagogy as a key avenue for peacebuilding Through both conceptual inquiries and empirical case studies the book will appeal to educational thinkers researchers practitioners policy makers NGO workers and the public in re examining some of the key concepts identifying pivotal underlying issues in the field Furthermore by offering a principled persuasive conceptual framework and by problematising implementations and interventions in practice this book can serve to provoke more appraisals evaluations and constructive critiques of humanisation and dialogic pedagogy in peacebuilding education This book was originally published as a special issue of Compare A Journal of Comparative and International Education

Second International Research Handbook on Values Education and Student Wellbeing Terence Lovat,Ron Toomey,Neville Clement,Kerry Dally,2023-11-14 This collection applies the principles underlying values education to addressing the many social and learning challenges that impinge on education today Insights in the fields of social and emotional learning student wellbeing and increasingly educational neuroscience have demonstrated that values education represents an efficacious pedagogy with holistic effects on students across a range of measures including social emotional and intellectual outcomes With schools in the 21st century confronting issues such as gender identity stemming radicalism mental health equity for disadvantaged groups bullying respect and the meaning of consent values education offers a way of teaching and learning that integrates and enhances student s affective and cognitive functioning The earlier edition of this book has become a standard reference for scholars and practitioners in the fields of values education moral education and character education Its citation rates reads and downloads have been consistently and enduringly high as have those of its companion text Values Pedagogy and Student Achievement A decade on the main purpose of the revised edition is to update and incorporate new research and practice relevant to values education Recent insights in the fields of neuroscience and social and emotional learning and their implications for education and student wellbeing are more overt than they were when the first edition was

being compiled Additionally advanced thinking in the field of epistemology how humans come to know and therefore learn has also sharpened especially through the later writings of prominent scholars like Jurgen Habermas The revised edition has preserved the essential spirit and thrust of the original edition while making space for some of these new insights about the potential of values education to establish optimal and harmonious learning and social environments for both students and teachers
