**Mathematical Questions and Solutions in Continuation of the Mathematical Columns of "the Educational Times"**, 1902 **Special Issue: Violent Youth Radicalisation: Perspectives and Solutions**, 2020-12-21 This timely special issue looks at a current pressing societal challenge that is truly global in its existence but very local in the way it plays out in various geographical social and political contexts Terrorism and extremism are undoubtedly among the biggest problems the world is facing today and is leaving in its wake a trail of death and destruction where the human and social costs are perhaps more significant than wars fought between countries on the world stage These realities breed suspicion hatred and feelings of revenge and invariably result in a spiral of violence that seemingly has no end Not only is there a need to explore the various factors leading to violent youth radicalisation it is clear that young people need to be considered not as victims at risk but rather as responsible agents of positive change This issue

focuses on violent youth radicalisation in the context of Professor Gavrielides The Youth Empowerment and Innovation Project YEIP which looked at the problem of violent youth radicalisation across seven European Countries The project sought to propose a uniquely different way of combatting violent youth radicalisation by proposing an alternative to punitive means so often favoured by governments That alternative proposed was to use Positive psychology and the Good Lives model to intervene with young people at risk of violent radicalisation focusing on positive identity and well being on the premise that young people who had a positive view of themselves would be less likely to be drawn into violent radicalisation DOI 10 13140 RG 2 2 22734 33606 ISBN 978 1 911634 22 5 Journal ISSN online 2056 2985 Practical Solutions for Stabilizing Students with Classic Autism to be Ready to Learn Judy Endow,2010 This title recognizes the importance of offering stabilization strategies that afford students a better regulated body often enabling students with classic autism to increase their time in school most of them working up to full day participation **Research in Education** ,1974 **Resources in Education** ,1996 The Go-To Guide for Engineering Curricula, Grades 6-8 Cary I.
