Education And Identity:

Education and Identity Arthur W. Chickering, 1969 Arthur Chickering and Linda Reisser have produced an intelligent and penetrating scholarly work that is a worthy sequel to its distinguished predecessor If the history of Education and Identity is any indication this second edition will take its place among the classics in higher education literature Ernest T Pascarella professor of educational psychology the University of Illinois Chicago This completely revised and updated edition of Chickering s classic work presents new findings from the last twenty five years and describes policies and practices in higher education that will foster the broad based development of human talent essential to our society in the 21st century

Education and Identity Arthur W. Chickering, 1974 *Identity and Lifelong Learning in Higher Education* Jo Ann Gammel, Sue L. Motulsky, Amy Rutstein-Riley, 2019-12-01 Learning and identity development are lifetime processes of becoming The construction of self of interest to scholars and practitioners in adult development and adult learning is an ongoing process with the self both forming and being formed by lived experience in privileged and oppressive contexts Intersecting identities and the power dynamics within them shape how learners define themselves and others and how they make meaning of their experiences in the world I Am What I Become Constructing Identities as Lifelong Learners is an insightful and diverse collection of empirical research and narrative essays in identity development adult development and adult learning The purpose of this series is to publish contributions that highlight the intimate connections between learning and identity Our aim is to promote reflection and research at the intersection of identity and adult learning at any point across the adult lifespan and in any space where learning occurs in school at work or in community The series aims to assist our readers to understand and nurture adults who are always in the process of becoming Adult educators adult development scholars counselors psychologists and sociologists along with education and training professionals in formal and informal learning settings will revel in the rich array of qualitative research designs methods and findings as well as autobiographies and narrative essays that transform and expand our understanding of the lived experience of people both like us and unlike us from the U S and beyond Volume One Identity and Lifelong Learning in Higher Education contains chapters by and about post secondary educators and students Together these chapters enhance our understanding of the inextricable link between learning and identity *Education and Identity* Arthur W. Chickering, 1969 *EDUCATION AND IDENTITY*. LINDA REISSER. ARTHUR W. CHICKERING, 2022 **Teaching Selves** Jane Danielewicz, 2001-07-19 Through the experiences of six students who wish to become high school teachers this book explores the process of what it means to be a teacher and proposes ten principles for identity development *Urban Educational Identity* Sara M. Childers, 2016-09-13 WINNER 2017 O L Davis Jr AATC Outstanding Book in Education Award WINNER 2017 American Educational Studies Association Critics Choice Award Through rich ethnographic detail *Urban Educational Identity* captures the complexities of urban education by documenting the everyday practices of teaching and learning at a high achieving high poverty school Drawing on over two

years of intensive fieldwork and analysis author Sara M Childers shows how students teachers and parents work both within and against traditional deficit discourses to demonstrate the challenges and paradoxes of urban schooling It offers an up close description of how macro government policies are interpreted applied and even subverted for better or worse by students as active agents in their own education The book moves on to develop and analyze the concept of urban cachet tracing how conceptions of race and class were deeply entwined with the very practices for success that propelled students towards graduation and college entrance A poignant insightful and practical analysis Urban Educational Identity is a timely exploration of how race and class continue to matter in schools

Learning Identity Stanton Wortham, 2005-12-05 This book describes how social identification and academic learning can deeply depend on each other through a theoretical account of the two processes and a detailed empirical analysis of how students identities emerged and how students learned curriculum in one classroom The book traces the identity development of two students across an academic year showing how they developed unexpected identities in substantial part because curricular themes provided categories that teachers and students used to identify them and showing how students learned about curricular themes in

part because the two students were socially identified in ways that illuminated those themes The book's distinctive contribution is to demonstrate in detail how social identification and academic learning can become deeply interdependent

Intersectionality and Higher Education W. Carson Byrd, Rachelle J. Brunn-Bevel, Sarah M. Ovink, 2019-05-03 Though colleges and universities are arguably paying more attention to diversity and inclusion than ever before to what extent do their efforts result in more socially just campuses Intersectionality and Higher Education examines how race ethnicity class gender sexuality sexual orientation age disability nationality and other identities connect to produce intersected campus experiences Contributors look at both the individual and institutional perspectives on issues like campus climate race class and gender disparities LGBTQ student experiences undergraduate versus graduate students faculty and staff from varying socioeconomic backgrounds students with disabilities undocumented students and the intersections of two or more of these topics Taken together this volume presents an evidence backed vision of how the twenty first century higher education landscape should evolve in order to meaningfully support all participants reduce marginalization and reach for equity and equality

Identity Construction and Science Education Research Maria Varelas, 2012-12-17 In this edited volume science education scholars engage with the constructs of identity and identity construction of learners teachers and practitioners of science Reports on empirical studies and commentaries serve to extend theoretical understandings related to identity and identity development vis vis science education link them to empirical evidence derived from a range of participants educational settings and analytic foci examine methodological issues in identity studies and project fruitful directions for research in this area Using anthropological sociological and socio cultural perspectives chapter authors depict and discuss the complexity messiness but also potential of identity work in science education and show how critical constructs such as power privilege and dominant views access and participation positionality agency structure dialectic and inequities are integrally intertwined with identity construction and trajectories Chapter authors examine issues of identity with participants ranging from first graders to pre service and in service teachers to physics doctoral students to show ways in which identity work is a vital albeit still underemphasized dimension of learning and participating in science in and out of academic institutions Moreover the research presented in this book mostly concerns students or teachers with racial ethno linguistic class academic status and gender affiliations that have been long excluded from or underrepresented in scientific practice science fields and science related professions and linked with science achievement gaps This book contributes to the growing scholarship that seeks to problematize various dominant views regarding for example what counts as science and scientific competence who does science and what resources can be fruitful for doing science

The Struggle for Identity in Today's Schools Patrick M. Jenlink (Ed), Faye Hicks Townes, 2009-05-16 The Struggle for Identity in Today s Schools examines cultural recognition and the struggle for identity in America s schools In particular the contributing authors focus on the recognition and misrecognition as antagonistic cultural forces that work to shape and at times distort identity What surfaces throughout the chapters are two lessons to be learned in relation to identity The first lesson is that identities and the acts attributed to them are always forming and re forming in relation to historically specific contexts and these contexts are political in nature i e defined by issues of diversity such as race ethnicity language sexual orientation gender and economics The second lesson presented by the authors is that identity forms in and across

intimate and social contexts over long periods of time The historical timing of identity formation cannot simply be dictated by discourse The identities posited by any particular discourse become important and a part of everyday life based on the intersection of social histories and social actors Importantly the social cultural use of identities leads to another way of conceptualizing histories personhoods cultures and their distributions over social and political groups

Identity in Education S. Sánchez-Casal, 2009-06-16 This volume explores the impact of social identity on teaching and learning The contributors argue from the perspective of diverse disciplinary and educational contexts that mobilizing identities in the classroom is a necessary part of progressive educators efforts to transform knowledge making and to create a more just and democratic society

Self and Social Identity in Educational Contexts Kenneth I. Mavor, Michael J. Platow, Boris Bizumic, 2017-02-24 This innovative volume integrates social identity theory with research on teaching and education to shed new and fruitful light on a variety of different pedagogical concerns and practices It brings together researchers at the cutting edge of new developments with a wealth of teaching and research experience The work in this volume will have a significant impact in two main ways First and foremost the social identity approach that is applied will provide the theoretical and empirical platform for the development of new and creative forms of practice in educational settings Just as the application of this theory has made significant contributions in organisational and health settings a similar benefit will accrue for conceptual and practical developments related to learners and educators from small learning groups to larger institutional settings and in the development of professional identities that reach beyond the classroom The chapters demonstrate the potential of applying social identity theory to education and will stimulate increased research activity and interest in this domain By focusing on self social identity and education this volume investigates with unprecedented clarity the social and psychological processes by which learners personal and social self concepts shape and enhance learning and teaching Self and Social Identity in Educational Contexts will appeal to advanced students and researchers in education psychology and social identity theory It will also be of immense value to educational leaders and practitioners particularly at tertiary level
