Curriculum in the Postmodern Condition Alicia de Alba, 2000 Annotation This book examines the ways that postmodernism has impacted curriculum formulation, changing the ways that people think about knowledge, how they participate in work and civic life, and how humans interact with technology. Postmodernism and Education Richard Edwards, Robin Usher, 2002-11 This book shows the impact of postmodernism upon the theory and practice of education and how it challenges the existing concepts, structures and hierarchies.
Adult Education and the Postmodern Challenge Ian Bryant, Rennie Johnston, Robin Usher, 2004-08-02 This book offers some suggestions as to ways forward from this dilemma. Drawing on the new intellectual frameworks of critical pedagogy, feminism and postmodernism, and their impact upon educational theory, practice and research, the book focuses on the changing contexts of adult education. By building on the notion of going beyond the limits of certain current adult education orthodoxies, the authors try to provide alternatives for practice. The final three chapters deal with research focusing on a critical macro analysis of mainstream paradigms, a review of alternative approaches, and a more micro analysis centering on the role of the socially located self in the research process.

What Comes After Postmodernism in Educational Theory? Michael A. Peters, Marek Tesar, Liz Jackson, Tina Besley, 2020-06-09 Marking the fiftieth anniversary of the *Educational Philosophy and Theory* journal, this book brings together the work of over 200 international scholars who seek to address the question: What happened to postmodernism in educational theory after its alleged demise? Declarations of the death knell of postmodernism are now quite commonplace. Scholars in various disciplines have suggested that if anything, postmodernism is at an end and has been dead and buried for some time. An age dominated by playfulness, hybridity, relativism, and the fragmentary self has given way to something else as yet undefined. The lifecycle of postmodernism started with Derrida's 1966 seminal paper *Structure of Sign and Play in the Discourse of the Human Sciences*; its peak years were 1973-1989, followed by uncertainty and reorientation in the 1990s, and the aftermath and beyond. McHale, 2015. What happened after 2001? This collection provides responses by over 200 scholars to this question, who also focus on what comes after.

Poststructuralism, Philosophy, Pedagogy J.D. Marshall,2006-01-18 This book has been quite long in the making In its original format but with some different chapters and with the then publisher it foundered as did other volumes in the planned series At the in press stage when we obviously thought it was going ahead it was suddenly canned Quite distraught I closed it away in a desk drawer for a year or so But then Joy Carp of Kluwer Academic Publishers expressed an interest in it and we were in business again Most of the contributors to the original volume have stayed with it only to be delayed by myself for a variety of reasons but see the dedication I had been writing on Michel Foucault for a number of years but had become concerned about mis appropriations of his ideas and works in educational literature I was also concerned about the increasingly intemperate babble in that literature of the notion of postmodernism Indeed at one major educational conference in North America I listened to a person expounding postmodernism in terms of Destroy Destroy Destroy Like Michel Foucault I am not quite sure what postmodernism is but following Mark Poster s account of poststructuralism as merely a collective term to catch a number of French thinkers I thought that what we had to do in education was to look at what particular thinkers had said and not become involved in vapid discussion at an abstract level on isms Thus the book was conceived
