philanthropic groups among other matters Initially ex slaves attempted to create an educational system that would support and extend their emancipation but their children were pushed into a system of industrial education that presupposed black political and economic subordination This conception of education and social order supported by northern industrial philanthropists some black educators and most southern school officials conflicted with the aspirations of ex slaves and their descendants resulting at the turn of the century in a bitter national debate over the purposes of black education Because blacks lacked economic and political power white elites were able to control the structure and content of black elementary secondary normal and college education during the first third of the twentieth century Nonetheless blacks persisted in their struggle to develop an educational system in accordance with their own needs and desires **Examination of the War on Poverty** United States.
