Education Gina Giuliano, Information Plus, 2004 New Serial Titles, 1992 A union list of serials commencing publication after Dec 31 1949 **Education** Jacquelyn F. Quiram, Mei Ling Rein, Nancy R. Jacobs, 1998 A look at American education emphasizing national goals for improvement students at risk teachers colleges and universities and public opinion about education **Library Journal**, 2000 *Scientific Literacy Under the Microscope* John Loughran, Kathy Smith, Amanda Berry, 2011-11-19 Scientific literacy is generally valued and acknowledged among educators as a desirable student learning outcome However what scientific literacy really means in terms of classroom practice and student learning is debatable due to the inherent complexity of the term and varying expectations of what it means for learning outcomes To date the teacher voice has been noticeably absent from this debate even though the very nature of teacher expertise lies at the heart of the processes which shape students scientific literacy The chapters that comprise this book tap into the expertise of a group of primary teachers from Our Lady of Good Counsel OLGC a primary school that chose to actively engage in teaching for scientific literacy By analyzing the insights and thinking that emerged as they attempted to unravel some of the pedagogical complexities associated with constructing an understanding of scientific literacy in their own classrooms these teachers demonstrate the professional knowledge and skill inherent in the expertise of teaching and learning science in a primary classroom The chapters in this book illustrate the processes and structures that were created at OGLC to provide the conditions that allowed these teachers to explore and build on the range of ideas that informed their approach to teaching for scientific literacy This book is a compelling example of how a whole school approach to scientific literacy can make a difference for students learning of science and offer a concrete example of the development of professional knowledge and practice of teachers *Resources in Education*, 1997-10 **Contemporary Sport Management** Paul M. breaking point where when no more curricular pedagogic violence can be survived and it is in that moment that those researchers and teachers actively remove themselves from those systems and assert new courses with new possibilities This edited volume is a collection of works chronicling acts of refusal that manifest as walking away In some cases what is walked away from is the erasure of experience in curriculum while in others it is a fundamentalist religious experience In still other cases what is walked away from is the carceral nature of school discipline policies In each case walking away is resistance refusal and re co producing new possibilities and agencies What is walked toward is a new curriculum pedagogy of resistance sometimes within and sometimes without that place ENDORSEMENTS Walking Away provides a window into what it is for educators to form a new world Enter Walking Away and walk into Leonard Harris Purdue University Walking away is sure to inspire pre service educators practicing teachers and others to participate in the construction of more just and equitable worlds Tristan Gleason Cal Poly Humbolt Ultimately Walking Away represents the capacious thinking that emerges from the various connections conversations and profound contributions of each author Boni Wozolek Pennsylvania State University Abington Campus This important book insists that we as curriculum scholars seriously ask ourselves what our roles and responsibilities are as academics researchers and educators in these dire times Jennifer A Sandlin Arizona State University Foundations of Education Leslie S.
