Educational Malpractices Don Stewart,1971-02 *Educational Malpractices* Don K. Stewart,1971 For the use of students and parents in their effort to bring about an improvement in the instructional process National Commission on Teacher Education Act United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Education, Arts, and Humanities,1984 **Theory and Practice of Early Reading** L. B. Resnick,P. A. Weaver,2013-12-16 First Published in 1979 These volumes explore the range and depth of our theoretical and practical knowledge about early reading instruction Contributors psychologists linguists instructional designers reading and special education experts were asked to address three questions 1 What is the nature of skilled reading 2 How is reading skill acquired 3 What do the nature of skilled reading and the process of acquiring reading skill jointly suggest for reading instruction This is Volume I of a collection of essays looking at topics such as reading stages coding and comprehension skills word recognition language skills instruction and teaching theories and an analysis of reading two beginning reading programs The Wrong Direction Richard S. Hancock,2005 Is our public education system headed in the wrong direction Richard Hancock asks us not only to scrutinize education but to consider crucial pragmatic revisions He looks hard at some of the negative trends which have become entrenched including grade inflation and social promotion and a variety of biases which undermine the integrity of the system He suggests workable solutions The book addresses a wide audience students parents educators and administrators in the public system and realms of higher learning government members professionals service and business people Hancock also refers to others who are striving to bring the plight of the system to the attention of the public and the educational policy makers We cannot continue to stifle the brilliant condescend to special interest groups and ignore the average students cheating them all of pride in honest achievement Perhaps it is time to encourage and honour excellence This is at once a warning and a voice encouraging us to act on behalf of our children and our nation *Catalog of Copyright Entries. Stewart,1975 *Instruction as a Humanizing Science: A behavioral learning systems approach to instruction* Don K. Stewart,1975 *Charter Schools in Action* Chester E. Finn, Jr.,Bruno V. Manno,Gregg Vanourek,2001-07-30 Can charter schools save public education This radical question has unleashed a flood of opinions from Americans struggling with the contentious challenges of education reform There has been plenty of heat over charter schools and their implications but until now not much light This important new book supplies plenty of illumination Charter schools independently operated public schools of choice have existed in the United States only since 1992 yet there are already over 1 500 of them How are they doing Here prominent education analysts Chester Finn Bruno Manno and Gregg Vanourek offer the richest data available on the successes and failures of this exciting but controversial approach to education reform After studying one hundred schools interviewing hundreds of participants surveying thousands more and analyzing the most current data they

have compiled today's most authoritative comprehensive explanation and appraisal of the charter phenomenon. Fact-filled, clear-eyed and hard-hitting, this is the book for anyone concerned about public education and interested in the role of charter schools in its renewal. Can charter schools boost student achievement, drive educational innovation and develop a new model of accountability for public schools? Where did the idea of charter schools come from? What would the future hold if this phenomenon spreads? These are some of the questions that this book answers. It addresses pupil performance, enrollment patterns, school start-up problems, charges of inequity and smoldering political battles. It features close-up looks at five real and very different charter schools and two school districts that have been deeply affected by the charter movement, including their setbacks and triumphs. After outlining a new model of education, accountability and describing how charter schools often lead to community renewal, the authors take the reader on an imaginary tour of a charter-based school system. Charter schools are the most vibrant force in education today. This book suggests that their legacy will consist not only of helping millions of families obtain a better education for their children but also in renewing American public education itself.
