David A. Sweet, 1992 **Designing Performance Assessments for School Leader Readiness** Margaret Terry Orr, Liz Hollingworth, 2020-06-08

In face of increased scrutiny on the preparation of educational leaders, this book provides a much-needed resource exploring the role and use of authentic performance assessment for evaluating leader readiness and performance. Framed by theory and research on school leader performance assessment, *Designing Performance Assessments for School Leader Readiness* provides an in-depth description of one fully tested performance assessment called the Performance Assessment for School Leaders (PAL). The authors explore how to assess four components of leadership proficiency: developing a plan for an area of school improvement, creating a professional learning culture among school staff, supporting individual teacher development, and engaging families and community in improving student learning. This book provides real examples and practical guidance on designing and managing performance assessment for aspiring educational leaders and how the PAL can be used in regional, state, and local contexts. *Re-Engaging Students for Success* Kathleen Velsor, 2015

As of spring 2015, in the states of New York, Tennessee, Washington, and Wisconsin, all pre-service teacher candidates are required to pass the Education Teaching Performance Assessment to earn initial teaching certification. California, Georgia, Ohio, and Massachusetts are planning to adopt the edTPA, while eighteen other states are considering adopting this policy in the near future. *Re-Engaging Students for Success: Planning for the Education Teaching Performance Assessment* is designed to assist elementary candidates with an educational methodology to pass the Education Teaching Performance Assessment. The methodology can be used to plan, implement, and assess student learning during instruction. Additionally, this method will assist elementary teacher candidates in using the Common Core Standards to design lessons to assess student learning while managing classroom instruction. Candidates who have used this method have successfully beat the tests.
