## **Good Life As A Public Good:**

The Good Life and the Good State Katharina Nieswandt, 2025-01-14 There is no good human life outside of a state and the good state enables us to live well together so says Constitutivism the theory developed in this book Reinvigorating Aristotelian ideas the author asks in what sense citizens of modern populous and pluralistic societies share a common good While we can easily find examples of cooperation that benefit each member such as insurances the idea that persons could share a common good became puzzling with modernity a puzzlement epitomised in Margaret Thatcher's What is society There is no such thing This puzzlement the author argues results from our profoundly modern understanding of rational actions which we see as means toward outcomes If we allow that not only outcomes but also histories and identities can be good reasons for actions then it makes sense to see a person's good and the common good of their political community as constitutive of one another as Aristotle thought Building on this idea the author argues that in designing our institutions we also give ourselves an identity in other words we constitute ourselves as persons

*Why Democracy Needs Public Goods* Angela Kallhoff, 2011-08-16 Why Democracy Needs Public Goods presents a new theoretical perspective on public goods based on a framework of political philosophy Angela Kallhoff responds to negative narratives on public goods that point out their role in causing market failures their cost on public finance and in regulation and their irregular and sometimes negative effects on social interaction She instead provides a normative approach arguing for their role in supporting democracies at critical points by providing the basis for a public forum through public space and infrastructure improving social inclusion through public healthcare and education and fostering a sense of national identity This book also features a comprehensive description of other arguments and theoretical approaches to public goods as well as assessing the classical economic approach of collective action theory and counter arguments from the so called libertarian camp Kallhoff also analyzes the problems of regulatory frameworks and the normative issues resulting from the need to support by means of public finance These perspectives will be most significant to political philosophers and policymakers though the language used and the examples given will make Kallhoff's arguments comprehensible to non experts as well

**Consumption: Theory and issues in the study of consumption** Daniel Miller,2001     The Four Leading Doctrines of the New Church Emanuel Swedenborg,1867     *The Four Leading Doctrines of the New Church, Etc* Emanuel Swedenborg,1846     *Government for the Public Good* Max Rashbrooke,2018-09-26 In a time of global political ferment established ideas are coming under renewed scrutiny Chief among them is one of the dominant notions of our era that we should entrust markets with many of the tasks previously carried out by government In this wide ranging book Max Rashbrooke goes beyond anecdote and partisanship delving deep into the latest research about the sweeping changes made to the public services that shape our collective lives What he unearths is startling it challenges established thinking on the effectiveness of market based reforms and charts a new form of deep democracy for the twenty first century Refreshing and far sighted this stimulating book offers New Zealanders a new way of thinking about government and how it can navigate the turbulent world ahead The market is often not the solution to our problems Markets have often been the problem Max Rashbrooke makes the convincing case for models of government that work better as well as those to be more wary of Greater democracy can bring with it greater equality but Rashbrooke warns democracy itself is imperilled by our current levels of inequality Fast paced globally informed and wittily written Professor Danny Dorling Oxford University This book provides a wide range of excellent evidence based arguments that help counter the oft dominant small government ideology of our times Its defence of democracy government and voter competence is a story that needs to be told more Laura O Connell Rapira Director of ActionStation     **Solidarity and Public Goods** Avigail Ferdman,Margaret Kohn,2021-05-15 In the wake of health and economic crises across the world solidarity is emerging as both a moral imperative and urgent social goal This book approaches solidarity as a political good both a framework of power structures

and grounds for moral motivation The distinct approaches to public goods and social value demonstrate how social connectedness is intricately tied to the distribution of public goods and the moral commitments that grow out of them The essays in this book explore different features of the political moral and civic approaches to solidarity They offer moral justification for solidarity grounded in the intrinsic value of social connectedness and epistemic deference propose structural accounts of solidarity as action against racial oppression or as an effective non moral framework propose to redefine property relations so as to capture and redistribute property s social value and envision public goods as both an instrument of civic relations and as a condition to well rounded meaningful human lives By providing a series of thought provoking debates about social obligations and justice the book reestablishes solidarity and public goods as an urgent and timely topic The chapters in this book were originally published as a special issue of the journal *Critical Review of International Social and Political Philosophy* Thomas Aquinas John Inglis, 2017-05-15 This volume contains the seminal articles that define the influence of Aquinas within legal philosophical thought A comprehensive reference for those new to the field it covers such topics as the relation of virtue to law the common good natural law natural rights and property rights together with social and political issues like abortion feminism homosexuality environment civil disobedience and just war Attention is devoted to the new natural law theory and its limitations as well as the place of historical context in the recovery of social thought

*The Promise of Legality* Geneviève Cartier, Mark D Walters, 2025-05-15 This book assembles critical contributions on the work of TRS Allan the Professor Emeritus of Jurisprudence and Public Law at the University of Cambridge whose leading work in legal and constitutional theory spans almost 45 years Allan has charted a distinctive path for legal political and moral theory and practice and has become a highly significant figure in the UK and in common law parliamentary systems around the world His ideas challenge established opinions about constitutional law within these systems as well as established views about the rule of law from more abstract or philosophical perspectives Allan claims that law and morality find an inherent connection through the rule of law He argues that there is a connection that flourishes in common law jurisdictions because although Parliament has sovereign legislative powers its laws gain their full legal meaning only through an interpretive lens This lens seeks to reconcile sovereign will with legality s basic moral ideals especially the idea that law must be general and capable of guiding behaviour and thus respectful of the equality and dignity of its subjects Allan s scholarship is powerful yet controversial and it has inspired 20 leading scholars from the UK Canada Australia and New Zealand to engage with the central themes of his work By doing so the contributors help to make that work accessible to a new generation of scholars and students They also provide a timely framework for engaging in the most important challenges facing our democracies today how our legal systems do or do not honour and respect democracy and therefore legislative sovereignty while at the same time honouring and respecting the rule of law or the Promise of Legality The Four Leading Doctrines of the New Church, Signified in the Revelation, Chap.
