Every Good Path Andrew Errington, 2019-12-26 Andrew Errington brings the book of Proverbs into discussion with two significant accounts of the nature and foundation of practical reason in Christian ethics those of Thomas Aquinas and Oliver O Donovan Aiming to move towards a framework for understanding Christian moral reasoning this book develops a significant critique of aspects of Aquinas s thought and provides a major engagement with O Donovan s moral theology Errington argues that the way the Book of Proverbs conceives of wisdom presents an important challenge to the Western theological and philosophical tradition Instead of a perfection of theoretical knowledge wisdom in Proverbs is a practical knowledge of how to act well grounded in the reality of the world God has made Discussing the complexities of practical reason moral reasoning in Aquinas world order and deliberation in the work of O Donovan and the place of created order in Christian Ethics this volume is invaluable for scholars and general readers in reconfiguring moral theology

Divine Teaching and the Way of the World Samuel Fleischacker, 2011-04-21 Samuel Fleischacker defends what the Enlightenment called revealed religion religions that regard a certain text or oral teaching as sacred as wholly authoritative over one's life At the same time he maintains that revealed religions stand in danger of corruption or fanaticism unless they are combined with secular scientific practices and a secular morality The first two parts of *Divine Teaching and the Way of the World* argue that the cognitive and moral practices of a society should prescind from religious commitments they constitute a secular way of the world to adapt a phrase from the Jewish tradition allowing human beings to work together regardless of their religious differences But the way of the world breaks down when it comes to the question of what we live for and it is this that revealed religions can illumine Fleischacker first suggests that secular conceptions of why life is worth living are often poorly grounded before going on to explore what revelation is how it can answer the question of worth better than secular worldviews do and how the revealed and way of the world elements of a religious tradition can be brought together
