Hedderman, 2011-02-15 Preparing Your Children For Goodbye is a supportive guidebook for parents who are terminally ill This book is divided into three parts End of life issues to consider How children cope with death A Life Review workbook The book will help you plan for your own end of life care prepare your children for your death and record memories of your life The book includes a Bibliography and a list of Places to Turn To for Help Your most important role as a parent is raising your child All along you are attempting to impart into them your values as well as teach them the skills that they will need to be successful as they grow into adulthood No parent expects to leave a child to journey through life without his or her direct guidance As that day approaches and you begin to accept that you will not have the time that you thought you would the pressure mounts to prepare your child for the future The process of looking back over your life and thinking about what has mattered most to you is a natural part of facing death There is a formal discipline called Life Review in which people are encouraged to discuss and write down aspects of their past This Life Review workbook is specifically designed for use by parents of children and teenagers It includes questions to help you consider issues relating to your children as well as more general questions that will trigger memories about other parts of your life This Life Review process can be used by anyone who is interested in thinking about their own past even if they do not have children You can use the workbook on your own or with someone else It s a nice activity for two people to do together using a conversational approach An adult child could use the conversational method with an elderly parent It can be an enjoyable way to reminisce about the past and capture memories This type of conversational approach can be helpful as a tool to use with older people who are having memory problems The workbook can be used in hospice settings by hospice volunteers to use with patients who want to reflect on their lives If someone is too sick to take on a major writing project the volunteer can ask questions from the workbook to help the person recall anything that they want to have remembered A volunteer could also work with

family members to explain life review ideas and introduce the workbook as something they can use on their own Any parent who wants to record family history can also use this book Perhaps you have a high risk profession in an area such as law enforcement firefighting or serve in the military and are concerned about the future Who hasn't thought What if

Goodbye, Mary Janes Adleyne Scott, 2010-10 Enjoy your childhood Have fun while you can That's what parents tell their children Jane Adleyne Geiger did enjoy her childhood immensely Her blessings in life include a Christian upbringing two wonderful most of the time sisters loving parents and a middle class economic privilege Her story begins with a recreation of her grandparents and parents courtship and marriage Her parents were married just a few days before the Stock Market crashed in 1929 and they suffered many hardships of life over the next few years Adleyne grew up during the 1950s and has written this stimulating account of her childhood her school years and her musical journey A teen pregnancy and her subsequent marriage changed the focus of her life from high school friends And The possibility of a music conservatory experience to that of family survival She has included stories of her family friends and teachers who helped her succeed along the way Often hilarious this nostalgic retelling of her childhood is a universal project of many adults though many do not have the nerve to put it in writing Included in the book is a personal letter to each of her children telling about the special memories that make each one so unique Adleyne's fascination with shoes the way they look The way they feel And The way the smell when they're new has given her a theme For The entire story During many of the pivotal junctions in her life her shoes of the times were an integral part of the major events New shoes became a Rite of Passage to new places in life's journey Imagine wearing a comfortable pair of Mary Janes while you read this story of courage perseverance and determination

The Long Goodbye Meghan O'Rourke,2011-04-14 Anguished beautifully written The Long Goodbye is an elegiac depiction of drama as old as life The New York Times Book Review From one of America s foremost young literary voices a transcendent portrait of the unbearable anguish of grief and the enduring power of familial love What does it mean to mourn today in a culture that has largely set aside rituals that acknowledge grief After her mother died of cancer at the age of fifty five Meghan O Rourke found that nothing had prepared her for the intensity of her sorrow In the first anguished days she began to create a record of her interior life as a mourner trying to capture the paradox of grief its monumental agony and microscopic intimacies an endeavor that ultimately bloomed into a profound look at how caring for her mother during her illness changed and strengthened their bond O Rourke s story is one of a life gone off the rails of how watching her mother s illness and separating from her husband left her fundamentally altered But it is also one of resilience as she observes her family persevere even in the face of immeasurable loss With lyricism and unswerving candor The Long Goodbye conveys the fleeting moments of joy that make up a life and the way memory can lead us out of the jagged darkness of loss Effortlessly blending research and reflection the personal and the universal it is not only an exceptional memoir but a necessary one
