Gorbachev And His Reforms 1985 199:

Gorbachev and His Reforms, 1985-1990 Richard Sakwa,1991 This study looks at the scope and significance of the reforms in the Soviet Union under the leadership of Mikhail Gorbachev since his election as General Secretary of the Communist Party in March 1985 Based on a range of readings from Soviet and Western sources the book deals with a number of aspects of reform in the USSR under Gorbachev s leadership spanning question of leadership politics and ideological changes the perestroika of the economy and the new thinking in foreign policy

The Warsaw Pact, 1985-1991- Disintegration and Dissolution Matej Bily,2022-12-30 This book analyzes the last phase of the Warsaw Pact based on unusually large scale archival research conducted in many countries Focusing on the changes in the organization s functioning after Mikhail Gorbachev came to power in the Soviet Union the author examines the role played by the Warsaw Pact in the final stages of the Cold War as well as exploring the deepening conflicts between individual member states which resulted from the changing international situation and Gorbachev s initiatives to reform the East European state socialist dictatorships The book argues that the causes of the rapid dissolution of the Warsaw Pact in the early 1990s were due to many complicated factors not simply the collapse of communist power in Eastern Europe factors such as the loss from early in the second half of the 1980s of important internal ties and the failure to create new ties disputes between individual member states and the questioning of the overall legitimacy of the organization which was indispensable for its effective functioning The book also highlights the impact of external pressures and developments on the international scene Overall the book reveals how an apparently robust and solid multilateral organization can so quickly and unexpectedly disappear

The Former Soviet Union in Transition ,1993 *Fast Forward* Torry D. Dickinson,Robert K. Schaeffer,2001 This innovative global feminist analysis of work and politics examines the diverse problems and related protests of women and men who labor to make ends meet in a rapidly changing world Using vivid examples from around the world it reveals how globalization is reshaping social institutions and lives *Fast Forward* explores how businesses and states reshaped and redistributed work around the world during the last 30 years of globalization often with adverse consequences Within this fast moving context laboring people today engage in work outside of formal employment try to obtain survival resources mount a diverse array of often women centered protests against firms and states and try on their own terms to reinvent work and democratic political practices Portraying the human face of global change *Fast Forward* shows how overlapping social movements wrestle with economic and political marginalization and initiate highly diverse but related attempts to change the way the world works

The Former Soviet Union in Transition John P. Hardt,Richard F. Kaufman,2016-09-16 This edition of the Joint Economic Committee s 1993 reports on the economies of the ex Soviet states tracks the Soviet and post Soviet economic reform efforts and looks at issues such as integration and developments

Crime and Punishment in Soviet Officialdom William A. Clark,1993 An analysis of political corruption and attempts to battle it in the Soviet elite without the

usual baggage of moral indignation and finger pointing Examines how corruption fit into the structure of the bureaucracy and the society attitudes toward it data on its prevalence the politics and methods of combating it and the future of reform in the successor states Paper edition unseen 16 50 Annotation copyright by Book News Inc Portland OR *The Soviet Union under Gorbachev (Routledge Revivals)* David A. Dyker,2013-09-13 Gorbachev s accession to General Secretary promised great changes to the Soviet Union and its relationship with the rest of the world This book first published in 1987 discusses the problems faced by Gorbachev when he entered office and how he planned to tackle them Gorbachev was a figure of genuine debate in the mid 1980s raising doubts from Western specialists regarding his radicalism and ability to reform the Soviet economic system in particular Here Dyker and his colleagues assess the changes Gorbachev had already made to consolidate his power base alongside those that he was proposing to make to agriculture industry and foreign relations at the time of publication The book speculates about how Gorbachev might implement his proposed political and economic reforms what opposition he might encounter and how successful he would be A fascinating insight into Soviet economic and political policy in the years leading up to the Union s collapse this work will be of particular importance to students and academics researching the personality of Gorbachev and the political and economic history of the Soviet Union **Foreign Political Engagement** D. Geldenhuys,2016-07-27 The 1990s have witnessed several major external initiatives to reshape the domestic political arrangements of countries Because these have been collective foreign ventures usually with the active collaboration of the target countries the term intervention is ill suited Instead Deon Geldenhuys introduces the notion of foreign political engagement to describe international attempts at remaking countries in the image of the West South Africa Kenya Somalia Russia Cambodia El Salvador and Haiti serve as case studies to demonstrate this important theoretical rethinking of international relations today *Elections and Democratization in Ukraine* Sarah Birch,2000-06-22 Elections and Democratization in Ukraine analyses the role of competitive elections in the Ukraine s crucial democratic transition period of 1989 to 1998 focusing on how Ukrainian voters make vote choices and which electoral cleavages are most important Contrary to those who claim that the Soviet Union left in its wake an atomized society with weak social divisions this study argues that the Ukrainian electorate has from the advent of competitive elections exhibited relatively stable voting behaviour **Sociological Worlds** Stephen K. Sanderson,2013-10-31 This reissue of the now classic Sociological Worlds originally published in 1995 attempts to present a comprehensive picture of human social life from the perspective of the comparative historical revolution in sociology and presents some of the best theoretical and empirical work that is now being done by comparative historical sociologists as well as work by their close cousins socio cultural anthropologists From this perspective readers gain a picture of the major ways in which human societies differ For this new library edition Professor Sanderson has provided both a new preface and three contributions that did not appear in the original edition *Making Russia and Turkey Great Again?* Norman A. Graham,Folke Lindahl,Timur Kocaoglu,2021-03-19 This study analyzes theoretically and empirically

the background of the rise to power of Vladimir Putin in Russia and Recep Tayyip Erdogan in Turkey. It situates this analysis in the contexts of the historical assessment of the fragility of liberal democracy and the persistence and growth of authoritarianism, populism and dictatorship in many parts of the world. The authors argue that the question whether Putin and Erdogan can make Russia and Turkey great again is hard to confirm; personal ambition for power and wealth is certainly key to an understanding of both rulers. They each squandered opportunities to build from free and fair democratic electoral legitimacy and economic progress. The prospect for restored national greatness depends on how they can handle the economic and political challenges they now face and will continue to face in the near future in a climate of global pandemic and economic recession. Both rulers so far have succeeded in maintaining and increasing their powers and influence in their respective regions but neither has made real contributions to regional stability and order. Chaos seems to be growing and the EU and the US thus far seem unable to provide coherent responses to mitigate the impact of their adventurism and disruption.

Cracks in the Monolith James R. Millar, 1992 **Vodka Politics** Mark Schrad, 2014-03 Alcohol and alcoholism have long been prominent features in Russian life and culture. But as Mark Schrad vividly shows in *Vodka Politics* it has also been central to Russian politics. Not simply a chronicle of drinking in Russia, this book shows how alcohol has been a key shaping force in Russian political history.

History for the IB Diploma: Nationalist and Independence Movements Stephen Nutt, Jean Bottaro, 2011-06-16 An exciting new series that covers the five Paper 2 topics of the IB 20th Century World History syllabus. This stimulating coursebook covers Paper 2 Topic 4 Nationalist and independence movements in the 20th Century World History syllabus for the IB History programme. The book is divided into thematic sections following the IB syllabus structure and is written in clear, accessible English. It covers the following areas for detailed study: Africa and Asia, Rhodesia, Zimbabwe, India and Pakistan, Indochina and post 1945 Central and Eastern Europe, Czechoslovakia, Poland. The content is tailored to the requirements and assessment objectives of the IB syllabus and provides opportunities for students to make comparisons between different regions and time periods.

America in the 21st Century Kul B. Rai, David F. Walsh, Paul Joseph Best, 1997 Designed to be challenging but truly accessible, this book offers a carefully integrated global approach to American foreign policy. It explores US vital interests in seven major regions of the world, explains how American foreign policy was formulated in the past and considers what the policy is likely to be in the changed international system of the 21st century. The major processes at work in the contemporary international system, the context in which American foreign policy is being made, is explored in the book. This book begins with a comprehensive systematic review of the major political, social and economic changes at the international level in the past 15-20 years and the impact of these changes in the major regions of the world. The global economy and post-Cold War political changes are emphasized. US involvement in the Cold War from a regional perspective is reviewed. A regional approach that emphasizes America's vital interests in Western Europe, Central East Europe and Eurasia, East and Northeast Asia, China and Japan, South Asia, Latin America, Middle East, Africa. All terms are

clearly defined

The Fall of Soviet Communism, 1986-1991 Jeremy Smith, 2017-03-16 The fall of communism and the break up of the Soviet Union into 15 independent states in December 1991 was one of the most significant events of the 20th century In the last years of Soviet rule images of mass protests on the streets of Moscow Tbilisi and Vilnius bloodshed in Baku striking miners Mikhail Gorbachev wooing the West and Boris Yeltsin defiantly mounting a tank in front of the White House building in Moscow shattered all of the old certainties about the seemingly unbreakable communist system Gorbachev and Yeltsin were the dominant figures in this process but non Russian national movements workers intellectuals and international developments all had roles to play Jeremy Smith presents the dramatic events of 1985 91 in a clear and succinct form setting out a variety of interpretations for the demise of communism in the Soviet Union and suggesting new approaches to answering the unresolved question of why it happened Smith discusses the long term and short term factors behind the extraordinary collapse assessing the impact of economic crisis nationalism personalities and democratization in the process

To Run the World Sergey Radchenko, 2024-05-30 What would it feel like To Run the World Soviet rulers spent the Cold War trying desperately to find out Perennial insecurities delusions of grandeur and desire for recognition propelled Moscow on a headlong quest for global power with dire consequences and painful legacies that continue to shape our world

Reinventing Russia Yitzhak M. BRUDNY, Yitzhak M Brudny, 2009-06-30 What caused the emergence of nationalist movements in many post communist states What role did communist regimes play in fostering these movements Why have some been more successful than others To address these questions Yitzhak Brudny traces the Russian nationalist movement from its origins within the Russian intellectual elite of the 1950s to its institutionalization in electoral alliances parliamentary factions and political movements of the early 1990s Brudny argues that the rise of the Russian nationalist movement was a combined result of the reinvention of Russian national identity by a group of intellectuals and the Communist Party's active support of this reinvention in order to gain greater political legitimacy The author meticulously reconstructs the development of the Russian nationalist thought from Khrushchev to Yeltsin as well as the nature of the Communist Party response to Russian nationalist ideas Through analysis of major Russian literary political and historical writings the recently published memoirs of the Russian nationalist intellectuals and Communist Party officials and documents discovered in the Communist Party archives Brudny sheds new light on social intellectual and political origins of Russian nationalism and emphasizes the importance of ideas in explaining the fate of the Russian nationalist movement during late communist and early post communist periods Table of Contents Acknowledgments 1 Russian Nationalists in Soviet Politics 2 The Emergence of Politics by Culture 1953 1964 3 The First Phase of Inclusionary Politics 1965 1970 4 The Rise and Fall of Inclusionary Politics 1971 1985 5 What Went Wrong with the Politics of Inclusion 6 What Is Russia and Where Should It Go Political Debates 1971 1985 7 The Zenith of Politics by Culture 1985 1989 8 The Demise of Politics by Culture 1989 1991 Epilogue Russian Nationalism in Postcommunist Russia Notes Index Reviews of this book Mr Brudny provides a salient

background to understanding one of the great phenomena of post 1945 history how Russians arrive at their view of the West Ron Laurenzo Washington Times Reviews of this book Brudny is a good guide to the origins of what probably lies ahead Geoffrey A Hosking Times Literary Supplement Reviews of this book If readers think that today's anti Western antimarket antisemitic variety of Russian nationalism is simply the fallout from the country's current misery they should think again With care and intelligence Brudny traces its lineage back to the Khrushchev years What began among the so called village prose writers as a lament for a rural past ravaged by Stalin's experimentation gradually accumulated further grievances the devastation of Russian culture and monuments the infiltration of corrupting Western values and ultimately under Gorbachev the criminal destruction of Russian power Much of the book concentrates on how Khrushchev and Brezhnev tried but ultimately failed to harness this discontent for their own purposes Robert Legvold Foreign Affairs Reviews of this book Brudny's survey of relations between Russian nationalism and the Soviet state provides an in depth insight into one of the most complicated aspects of the Soviet multi national state Taras Kuzio International Affairs Reviews of this book A thought provoking book Virginia Quarterly Reviews of this book Brudny shows that Russian cultural nationalism was a powerful force in the post Stalin years with ultimate political consequences In meticulous detail Brudny sets out the various strains of Russian nationalism and points to the regime's encouragement of a certain kind of nationalism as a means of bolstering legitimacy through the politics of inclusion This volume is a significant contribution to the literature R J Mitchell Choice Reviews of this book In Reinventing Russia situated at the intersection of culture specifically the literature of the village prose movement and politics Brudny has managed admirably to draw out the wider implications of his inquiry and provided an extremely useful set of orientation points in the current seemingly so chaotic political debate in Russia Hans J Rindisbacher European Legacy Reviews of this book Brudny's book paints a fascinating picture It delineates a rich Soviet culture and society one that is much more varied than has been previously depicted by most Western researchers The overriding importance of the book derives from its argument that the post Stalinist cultural debate in the Soviet Union is what created the infrastructure for the seemingly odd alliance between communist ideology and the nationalist intelligentsia today's red brown alliance It's a significant contribution to our understanding of the history of the nationalist idea Reinventing Russia provides an enthralling overview of a historic development that has been neglected by most Western researchers His book proves once more that anyone who seeks to understand developments in Eastern Europe cannot do so by merely analyzing the economic policy of the political maneuvers of the governing elite Shlomo Avineri Ha aretz Book Review Yitzhak Brudny offers us a most persuasive attempt to explain the intricate often puzzling relation between Soviet political and cultural bureaucracy and the rise of Russian nationalism in the post Stalin era His analysis of Russian nationalist ideology and its role in the corrosion of the official Soviet dogmas is uniquely insightful and provocative Students of Soviet and post Soviet affairs will find in Brudny's splendidly researched book an indispensable instrument to grasp the meaning of

the still perplexing developments that led to the breakdown of the Leninist state In the growing body of literature dealing with nationalism and national identity this one stands out as boldly innovative theoretically challenging and culturally sophisticated Vladimir Tismaneanu University of Maryland College Park author of *Fantasies of Salvation* Yitzhak Brudny has produced an impressive and scholarly account of the divisions within the Russian political and cultural elite during the last four decades of the Soviet Union's existence His book is important both for the fresh light it throws on that period and as essential context for interpreting the debates on nationhood and statehood which rage in Russia today Archie Brown University of Oxford *Reinventing Russia* provides us with a vivid portrayal of the politics behind the rise of Russian nationalism in post Stalinist Russia It is a finely detailed study of not only the relationship of political authority to the spread of nationalist ideas but also reciprocally of the role played by these ideas in shaping the political Mark Beissinger University of Wisconsin Madison *Rival nationalists literally shook the Soviet Union apart* The very structure of the Soviet state encouraged all major ethnic groups including the Russians to view battles over resources in terms of ethnic and national conflict Brudny in this important study explores precisely how rival nationalist claims emerged during the years following Stalin's death and why they proved to be simultaneously so robust and pernicious Blair Ruble Director Kennan Institute Woodrow Wilson Center

The Socialist System Janos Kornai, 1992-05-28 This book provides a comprehensive account of the structure conduct and performance of the centrally planned economies of Eastern Europe the USSR Communist China and the Marxist LDCs looking at 26 nations in all The author focuses on reform perhaps the most important issue facing countries such as the USSR Poland Hungary and China Bureaucracy soft budget constraints markets and the nature of the socialist state are the central issues that arise in the course of reforming a socialist economy The first half of the book deals with classical socialism and provides a theoretical summary of the main features of a now closed period of history The second half deals with the processes of reform and concludes that the reform of classical socialist systems is doomed to failure as they are unable to renew themselves internally

The Soviet Union Mark Edele, 2018-11-13 An acclaimed historian explores the dynamic history of the twentieth century Soviet Union In ten concise and compelling chapters The Soviet Union covers the entire Soviet Union experience from the years 1904 to 1991 by putting the focus on three major themes warfare welfare and empire Throughout the book Mark Edele a noted expert on the topic clearly demonstrates that the Soviet Union was more than simply Russia Instead it was a multi ethnic empire The author explains that there were many incarnations of Soviet society throughout its turbulent history each one a representative of Soviet socialism The text covers a wide range of topics The end Romanov empire The outbreak of World War I The Bolshevik Revolution of 1917 The breakdown of the old empire and its re constitution in the Civil War The New Economic Policy The rise of Stalin The Soviet's role in World War II Post war normalization and Gorbachev's attempt to end the Cold War The author also explores the challenges encountered by the successor states their struggles with and against democracy capitalism authoritarianism and war This vital resource

Provides a concise overview of the history of the Soviet Union Includes information on the latest research that takes the broad view of the history of the Soviet Union and its place in world history Treats scholarly disagreements as part of the history of the influence of the Soviet Union on the course of the twentieth century Offers suggestion for further readings and a link to online primary sources Written for students of twentieth century Russia the Russian Revolution the Soviet Union and the Cold War and twentieth century World History The Soviet Union A Short History is a volume in the popular Wiley Short Histories series
