Sinclair,2017-01-10 Excerpt from The Goose Step A Study of American Education Six hundred thousand young people are attending colleges and universities in America They are the pick Of our coming generation they are the future of our country If they are Wisely and soundly taught America will be great and happy if they are misguided and mistaught no power can save us What is the so called higher education of these United States You have taken it for the most part on faith It is Something which has come to be it is big and impressive and you are impressed Every year you pay a hundred million dollars Of public funds to help maintain it and half that amount in tuition fees for your sons and daughters You take it for granted that this money is honestly and wisely used that the students are getting the best the highest education the money can buy Suppose I were to tell you that this educational machine has been stolen That a bandit crew have got hold Of it and have set it to work not for your benefit nor the benefit of your sons and daughters but for ends very far from these That our six hundred thousand young people are being taught deliberately and Of set purpose not wisdom but folly not justice but greed not freedom but slavery not love but hate About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Goose-Step a Study of American Education - Scholar's Choice Edition* Upton Sinclair,The Economy Book Shop,2015-02-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Closed Minds?* Bruce Smith,Jeremy D. Mayer,A. Lee Fritschler,2010-04-01 Contrary to popular belief the problem with U S higher education is not too much politics but too little Far from being bastions of liberal bias American universities have largely withdrawn from the world of politics So conclude Bruce L R Smith Jeremy Mayer and Lee Fritschler in this illuminating book *Closed Minds* draws on data from interviews focus groups and a new national survey by the authors as well as their decades of experience in higher education to paint the most comprehensive picture to

date of campus political attitudes It finds that while liberals outnumber conservatives within faculty ranks even most conservatives believe that ideology has little impact on hiring and promotion Today's students are somewhat more conservative than their professors but few complain of political bias in the classroom Similarly a Pennsylvania legislative inquiry which the authors explore as a case study of conservative activism in higher education found that political bias was rare in the state's public colleges and universities Yet this ideological peace on campus has been purchased at a high price American universities are rarely hospitable to lively discussions of issues of public importance They largely shun serious political debate all but ignore what used to be called civics and take little interest in educating students to be effective citizens Smith Mayer and Fritschler contrast the current climate of disengagement with the original civic mission of American colleges and universities In concluding they suggest how universities can reclaim and strengthen their place in the nation's political and civic life

Upton Sinclair and the Other American Century Kevin Mattson, 2008-05-02 Praise for UPTON SINCLAIR and the other American Century I look forward to all of Kevin Mattson's works of history and I've not been disappointed yet Upton Sinclair is a thoughtful well researched and extremely eloquently told excavation of the history of the American left and indeed the American nation as well as a testament to the power of one man to influence his times Well done Eric Alterman author of *When Presidents Lie* A History of Official Deception and Its Consequences A splendid read It reminds you that real heroes once dwelt among us Mattson not only captures Sinclair's character but the world he inhabited with deft strokes whose energy and passion easily

match his subject's Richard Parker author of John Kenneth Galbraith His Life His Politics His Economics From the meat packing houses of Chicago to the automobile factories of Detroit to the voting booths of California Upton Sinclair cut a wide swath as a muckraking writer who exposed the injustices rendered by American industrial capitalism Now Kevin Mattson presents a much needed exploration of this complex crusader This is a thoughtful provocative and gripping account of an important figure who appeared equal parts intellectual propagandist and political combatant as he struggled to illuminate the other American century inhabited by the poor and powerless Steven Watts author of The People's Tycoon Henry Ford and the American Century

To Laugh That We May Not Weep Glenn Bray, Frank Young, 2017-03-29 Art Young was one of the most renowned and incendiary political cartoonists in the first half of the 20th century And far more an illustrator for magazines such as The Saturday Evening Post and Colliers a magazine publisher a New York State Senatorial candidate on the Socialist ticket and perhaps the only cartoonist to be tried under the Espionage Act for sedition He made his reputation appearing in The Masses on a regular basis using lyrical vibrant graphics and a deep appreciation of mankind's inherent folly to create powerful political cartoons To Laugh That We May Not Weep is a sweeping career retrospective reprinting often for the first time in 60 or 70 years over 800 of Young's timeless charming and devastating cartoons and illustrations many reproduced from original artwork to create a fresh new portrait of this towering figure in the worlds of cartooning and politics With essays by Art Spiegelman Justin Green Art Young biographer Marc Moorash Anthony Mourek and Glenn Bray with a biographical overview of Young's life and work by Frank M Young To Laugh That We May Weep is a long awaited tribute to one of the great lost cartoonists whose work is as relevant in the 21st century as it was in its own time

Politics of Art Zhiguang Yin, 2015-02-04 In Politics of Art Zhiguang Yin investigates members of the Creation Society and their social network while in Japan The study contextualises the Chinese left wing intellectual movements and their political engagements in relation with the early 20th century international political events and trends in both East Asia and Europe The Creation Society was largely viewed as a subject of literary studies This research however evaluates these intellectuals in the context of Chinese revolution and elaborates their theoretical contribution to the Chinese Communist Party's practice of theoretical struggle as a main driving force of ideological construction As this study tries to demonstrate theoretical struggle drives the ideological politics forward while maintaining its political vigour

Scenes in the West; or, The Sunday-School and Temperance Anonymous, 2019-12-23 In Scenes in the West or The Sunday School and Temperance the anonymous author adeptly weaves a narrative that intertwines the realms of moral instruction and social reform Set against the backdrop of the burgeoning American West the book employs a didactic literary style that reflects the era's evangelical zeal Through vivid vignettes the author explores the importance of Sunday schools in nurturing moral character and the vital role of temperance movements in shaping community values Thematically it mirrors mid 19th century American literature's preoccupation with moral uplift and societal progress making it a pertinent reflection of its time The anonymity of the author

adds a layer of intrigue yet this conceals a passionate voice advocating for social change Likely influenced by the religious revival movements and the temperance advocacy of the period the author draws from personal convictions and observations of societal challenges faced in the West This context enriches the text allowing it to resonate with contemporary struggles over morality and public policy For readers interested in historical perspectives on American values *Scenes in the West* offers both a critical reflection and a call to action It appeals to those fascinated by the interplay of education religion and social reform during a transformative period in American history This book is a compelling addition to the libraries of scholars educators and general readers alike
