was previously assumed Uniquely Canadian issues and participants helped shape Soviet policy sometimes in very strange ways Both story and reference text Canada in the Soviet Mirror will interest readers in Soviet and Canadian studies journalism and popular culture **The Soviet Union In The Third World** Carol R Saivetz,2019-07-09 This book examines the crucial role that Soviet policy toward the Third World played in Soviet efforts to influence the development of the international system in competition with the United States It traces the evolution of Soviet policy toward the Third World

Ideology and the Collapse of the Soviet System Neil Robinson,1995-01-01 this is an excellent book which sheds considerable light upon the role of ideology particularly in the last years of the Soviet Union Graeme Gill Europe Asia Studies this work is a serious attempt to bring ideology back into discussions about the end of the Soviet Union Bartholomew Goldyn Slovo This innovative book offers a critical history of the development of Soviet ideology discussing its centrality to Soviet politics and the destructive effect that it had on the Gorbachev reforms Neil Robinson analyses the nature and historical evolution of Soviet ideology between 1917 and 1985 to demonstrate the structural importance of Soviet ideological discourse and the uncertain place that it allocated to the communist party in the Soviet political system On the basis of this analysis Dr Robinson provides a fresh interpretation of Gorbachev s political reforms He describes the ideological dynamic that underwrote the development of perestroika how Gorbachev s ideas on democratization sent contradictory messages to the communist party and how this stimulated opposition to perestroika from party cadres and Soviet society Gorbachev Mikhail Gorbachev,1999-10-20 The last president of the Soviet Union discusses Communism the Cold War and bringing democracy to Russia in this sweeping political memoir Drawing on his own experience and rich archival material Mikhail Gorbachev shares his illuminating perspective on Russia s past present and future place in the world Beginning with the October Revolution of 1917 he notes how much Vladimir Lenin and the Bolshevik Party did to modernize Russia While he argues that the Soviet Union had a positive influence on social policy in the West Gorbachev maintains that this positive development was cut short by Stalinist totalitarianism Discussing the fall of the USSR in depth Gorbachev examines the goals of perestroika awakening ethnic tensions the inability of democrats to unite and his own attempts to preserve the union through reform In retracing those fateful days he explains the origins of Russia s present crisis He then lays out a blueprint for Russia s future charting a path toward meaningful economic and political reforms He also presents possible resolutions to a number of international dilemmas including NATO expansion the role of the UN the fate of nuclear weapons and environmental problems **Perestroika and the Party** Francesco Di Palma,2019-08-01 Countless studies have assessed the dramatic reforms of Mikhail Gorbachev but their analysis of the impact on European communism has focused overwhelmingly on the Soviet Union and Eastern bloc nations This ambitious collection takes a much broader view reconstructing and evaluating the historical trajectories of glasnost and perestroika on both sides of the Iron Curtain Moving beyond domestic politics and foreign relations narrowly defined the research gathered here constitutes a transnational

survey of these reforms collective impact showing how they were variably received and implemented and how they shaped the prospects for proletarian internationalism in diverse political contexts 1978-1989 Heinz-Dietrich Fischer,2020-01-20 No detailed description available for 1978 1989 **Gorbachev's U.S.S.R., is Stalinism Dead?** Esteban Volkov,1989

The Creation of Kazakh National Identity Dmitry V. Shlapentokh,2023-10-31 This monograph utilizes three theoretical models to explain Kazakhstan's emergence as an independent state and its changing relationships with the broader world particularly Russia since the beginning of the twentieth century The book first explores the construction of Kazakh national identity and the ways in which intellectuals appealed to history to substantiate their claims about Kazakhstan's future Secondly the narrative demonstrates that not all segments of totalitarian machinery work in unison While terror reached its peak in the 1930s cultural and ideological control was not as rigid as it would become in the late 1940s and early 1950s Most importantly the work is grounded in the study of the social universe The book introduces the notion of cosmos the peculiar connections between social economic and political forces While not necessarily directly dependent on each other they nevertheless created a unique interplay among the segments of societal structures and the state's relationship with the wider universe Taking this framework as the point of departure this research analyzes Kazakhstan's multi vectorism as uniquely fit to contemporary global arrangements when no global power dominates and the lines between friend and foe are blurred This compelling approach to Kazakhstan's history will appeal to postgraduate students and scholars in Russian history and world history *Gorbachev and Glasnost* Isaac J. Tarasulo,1989 Thirty three articles translated from Russian newspapers and magazines published in 1987 and 1988 twenty articles translated by the editor What Happened to the Soviet Union? Christopher I. Xenakis,2002-09-30 Xenakis examines the responses of Soviet experts in American academia primarily political scientists but also economists and defense scholars who specialized in the USSR to the unfolding evidence of Soviet reform during the 1970s and 1980s and to its ultimate collapse He concludes that American Sovietologists and other political scientists were more responsive to the Cold War consensus to the needs of the State Department Defense and CIA policy makers and to the official Washington line of the moment than to the changing face of the Soviet Union As Xenakis makes clear many of the Cold War ideas and attitudes shared by Sovietologists the notion that the USSR was an evil empire the idea that Soviet society was irredeemably xenophobic and indolent that the Soviet political and economic system could not be fixed or reformed and the view that the best way for Washington to deal with Moscow's influence was to contain the USSR through arms races global and proxy wars were reminiscent of the policies and arguments of the Truman and Eisenhower administrations not to the facts on the ground in the 1970s and 1980s An important work for scholars students and researchers involved with Soviet and Russian studies international political and military affairs intellectual history and the relationship between academia and the government Business America ,1990 Survey of Jewish Affairs, 1988 William Frankel,Antony Lerman,1989-03 This volume of the annual Survey addresses major issues of
