Gospel Of Lucas Gavilan:

The Gospel of Lucas Gavilán Vicente Leñero, 1991 The Gospel of Lucas Gavilan is a contemporary paraphrase of the familiar biblical narrative of the life of Christ as told by St Luke The author was moved by various Latin American spokesmen of the theology of liberation to attempt a novelistic dramatization of their basic tenets Thus the locale for the work is the slums surrounding Mexico City and several rural communities and other urban areas scattered throughout central Mexico The central figure of the novel reenacts in a Third World context the episodes in Luke s biography of Jesus beginning with an ignominious birth in a tenement laundry room and ending with a violent death in a police van the aftermath of brutal treatment by representatives of the political Establishment Taken as a whole these varied intriguing parodies of the Gospel manage to encompass virtually every exploitative situation imaginable within the Latin American societies of our day

Postcolonial Biblical Criticism

Fernando F. Segovia, Stephen D. Moore,2006-12-14 Postcolonial studies has recently made significant inroads into biblical studies, giving rise to numerous conference papers, articles, essays, and books. Postcolonial Biblical Criticism is the most in-depth and multifaceted introduction to this emerging field to date. It probes postcolonial biblical criticism from a number of different but interrelated angles in order to bring it into as sharp a focus as possible, so that its promise and potential pitfalls can be better appreciated. This volume carefully positions postcolonial biblical criticism in relation to other important political and theoretical currents in contemporary biblical studies: feminism, racial/ethnic studies, poststructuralism, and Marxism. Alternating between hermeneutical and exegetical reflection, the essays cumulatively isolate and evaluate the definitive

features of postcolonial biblical criticism Such a mapping of postcolonial biblical criticism as a whole has never before been undertaken in such explicit and detailed terms The contributors include Roland Boer Laura E Donaldson David Jobling Tat siong Benny Liew Stephen D Moore and Fernando F Segovia *The Oxford Handbook of Postcolonial Biblical Criticism* R. S. Sugirtharajah,2023 The Oxford Handbook of Postcolonial Biblical Criticism is a comprehensive treatment of a relatively new form of scholarship Generally speaking postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought This approach has inevitably engaged with the text and reception of the Bible a scripture that Western colonizers introduced to and often imposed upon their colonial subjects With a globally diverse list of contributors the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism resistance decolonization and nationalism

Opting for the Margins Jeorg Rieger,2003-09-11 Ideas like the preferential option for the poor arguing that people marginalized by the economy have a claim to special consideration have been among the most significant insights in twentieth century Christian theology Arising out of various theologies of liberation options for the poor and for people at the margins of society have provided major new impulses for biblical studies systematic theology church history ecclesial practice and the academic study of religion Opting for the margins continues to be an important issue at a time when the gap between rich and poor is growing at an alarming rate both in the United States and in many other parts of the world and when other gaps based for example on differences in gender or race continue to linger Recently however options for the margins have been challenged by postmodern shifts in intellectual social political and economic realities that often replace preferential options with other emphases such as general concerns for pluralism otherness and difference Options for the margins are therefore at best reduced to the special interests of certain minority groups or at worst rejected as antiquated and irrelevant for the twenty first century The essays in this volume show how some forms of postmodern thought and theology can mask patterns of oppression and provide an excuse for deafness to voices from the margins The authors writing from a wide variety of national ethnic and theological perspectives seek to revive the preferential option for the poor for the postmodern world showing how options for the margins can engage postmodernity in new ways and break new ground in religious theological and ethical as well as social political and economic thinking The essays connect philosophical and theological arguments to the concrete realities of the postmodern world and to uncover new sources of energy in the life and death struggles of people across the globe Latinx Perspectives on the New Testament Osvaldo D. Vena,Leticia A. Guardiola-Sáenz,2022-03-17 Going against the false perception that all Latinx views on the Bible are homogeneous the contributors in this book use different hermeneutic perspectives to interpret the New Testament Each chapter examines one of the twenty seven documents thematically instead of following the traditional verse by verse commentary format

Fighting Words Hector Avalos, Is religion inherently violent If not what provokes violence in the name of religion Do we

mischaracterize religion by focusing too much on its violent side In this intriguing original study of religious violence Prof Hector Avalos offers a new theory for the role of religion in violent conflicts Starting with the premise that most violence is the result of real or perceived scarce resources Avalos persuasively argues that religion creates new scarcities on the basis of unverifiable or illusory criteria Through a careful analysis of the fundamental texts of Judaism Christianity Islam and Hinduism Dr Avalos explains how four scarce resources have figured repeatedly in creating religious violence sacred space e g the perception by three world religions that Jerusalem is sacred the creation of holy scriptures believed to be privileged revelations of God s will group privilege stemming from such beliefs as a chosen people or predestination which also creates a group of outsiders and salvation by which concept some are accepted and others rejected Thus Avalos shows religious violence is often the most unnecessary violence of all since the scarce resources over which religious conflicts ensue are not actually scarce or need not be scarce Comparing violence in religious and nonreligious contexts Avalos makes the compelling argument that if we condemn violence caused by scarce resources as morally objectionable then we must consider even more objectionable violence provoked by alleged scarcities that cannot be proven to exist He also examines the Nazi Holocaust and the Stalinist Terror which have been attributed to the pernicious effects of atheism or secular humanism By contrast Avalos pinpoints underlying religious factors as the cause of these horrific instances of genocidal violence This serious philosophical examination of the roots of religious violence adds much to our understanding of a perennial source of widespread human suffering Hector Avalos Ames IA is associate professor of Religious Studies at Iowa State University the author of five books on biblical studies and religion the former editor of the Journal for the Critical Study of Religion and executive director of the Committee for the Scientific Examination of Religion

Unholy Trinity Rebecca Janzen, 2021-09-01 Rebecca Janzen brings a unique applied understanding of religion to bear on analysis of Mexican cinema from the Golden Age of the 1930s onward Unholy Trinity first examines canonical films like Emilio Fern ndez s *Mar a Candelaria* and *R o Escondido* that mythologize Mexico s past suggesting that religious imagery and symbols are used to negotiate the place of religion in a modernizing society It next studies films of the 1970s which use motifs of corruption and illicit sexuality to critique both church and state Finally an examination of films from the 1990s and 2000s including Guitta Schyfter s *Novia que te vea* a film that portrays Mexico City s Ashkenazi and Sephardic Jewish communities in the twentieth century and Carlos Carrera s controversial 2002 film *El crimen del padre Amaro* argues that religious imagery related to the Catholic Church people s interpretations of Catholicism and representations of Jewish communities in Mexico allows the films to critically engage with Mexican politics identity and social issues

Love and Despair Jaime M. Pensado, 2023-06-06 Love and Despair explores the multiple and mostly unknown ways progressive and conservative Catholic actors such as priests lay activists journalists intellectuals and filmmakers responded to the significant social and cultural shifts that formed competing notions of modernity in Cold War Mexico Jaime M Pensado demonstrates how the Catholic Church as a heterogeneous institution with key transnational

networks in Latin America and Western Europe was invested in youth activism state repression and the counterculture from the postwar period to the more radical Sixties Similar to their secular counterparts progressive Catholics often saw themselves as revolutionary actors and nearly always framed their activism as an act of love When their movements were repressed and their ideas were co opted marginalized and commercialized at the end of the Sixties the liberating hope of love often turned into a sense of despair
