Gospels Of The New Nile:

Gospels of the New Nile John Kilian, 2001-12-30 Religious works are written and read through a prism of faith How much of the truth navigates this filtration is an open question This combination of fact and faith creates the beliefs of people The prevalent beliefs of society evolve with the ebb and flow of faith among its members The facts of the matter may be immutable but our understanding of the meaning of the known world yields to the less objective realm of belief Those who take the lead in governing the beliefs of others are soon exempt from review by rational standards In such times anything that is believed can be conceived This book takes us on a journey through time to a point in the future when all that exists today has suffered from the exacting toll time takes on the works of mere mortals Nothing humans create believe or otherwise conceive stands this test of time Only human nature continues unabated endlessly pitting the need of individuals for freedom against societys need for order *Mercer Dictionary of the Bible* Watson E. Mills, Roger Aubrey Bullard, 1990

Jesus Christ in History and Scripture highlights two related bases for the current revolution in Jesus studies 1 a critically chastened world view that is satisfied with provisional results and 2 a creative or poetic use of the sources of study of Jesus
