Everyday Objects Tara Hamling, Catherine Richardson, 2010 Material culture research has become an increasingly important aspect of the study of medieval and early modern societies yet its study often remains uncoordinated and confined to narrow subject specific boundaries As such scholars will welcome this volume which provides an overview of various methodological strands currently developing across a range of disciplines Taking a refreshingly broad approach the collection explores everyday objects as a way of questioning the relationship between material culture and historical themes In so doing it highlights the way in which the study of objects can provide unexpected access to the lived experience of individuals who may otherwise have left little impact in the written records *A Victim's Shoe, a Broken Watch, and Marbles* Lea David, 2024-12-31 Everyday items found at the sites of atrocities possess a striking emotional force Victims garments broken glasses wallets shoes and other such personal property that are recovered from places of death including concentration camps mass graves and prisons have become staples of memorial museums exhibited to the public as material testimony in order to evoke sympathy and promote human rights How do these objects take on such power and what are the benefits and pitfalls of deploying them for political purposes *A Victim's Shoe, a Broken Watch, and Marbles* examines how artifacts of atrocities circulate and in so doing sheds new light on the institutions and social processes that shape collective memory of human rights abuses Lea David traces the journeys of what she terms desire objects their rediscovery at the locations of mass atrocities their use in forensic and legal procedures their return to the homes of grieving families their appearance in public spaces such as museums and exhibitions and their role in political protests She critically investigates the logic that shapes why and how desire objects gain symbolic power and political significance showing when and under what circumstances they are used to promote particular worldviews and narratives Featuring both novel theoretical methods and keen empirical analysis this book offers important insights into the shortcomings of common assumptions about human rights *Footnotes* Kenneth Cole, 2003 In a witty fully illustrated retrospective the founder and CEO of Kenneth Cole Productions shares the inspiration behind his groundbreaking advertising campaign and his opinions on everything from fashion to today's pressing political issues from the shoes up **A Foot in the Past** Giorgio Riello, 2006 During the Enlightenment in a society that was increasingly urbanised and mobile footwear was an essential item of apparel This book considers not only the practical but also the symbolic meaning of footwear in France and England during the period from the end of the seventeenth to the mid nineteenth century *The New Latino Studies Reader* Ramon A. Gutierrez, Tomas Almaguer, 2016-08-23 The New Latino Studies Reader is designed as a contemporary updated multifaceted collection of

writings that bring to force the exciting necessary scholarship of the last decades Its aim is to introduce a new generation of students to a wide ranging set of essays that helps them gain a truer understanding of what it s like to be a Latino in the United States With the reader students explore the sociohistorical formation of Latinos as a distinct panethnic group in the United States delving into issues of class formation social stratification racial gender and sexual identities and politics and cultural production And while other readers now in print may discuss Mexican Americans Puerto Ricans Cubans and Central Americans as distinct groups with unique experiences this text explores both the commonalities and the differences that structure the experiences of Latino Americans Timely thorough and thought provoking The New Latino Studies Reader provides a genuine view of the Latino experience as a whole

Worn Ellen Sampson,2020-12-10 Shortlisted for the Association of Dress Historians Book of the Year Award 2021 In a culture preoccupied with newness and a fashion system largely predicated upon it what is the significance of worn clothes and why do they have the power to affect us so deeply How are relationships to clothing produced and maintained through the embodied practices of wearing maintenance and repair Through a focus upon a single garment the shoe this book calls on readers to reconsider the value of the marks of wear at a time when fast fashion reigns supreme and interest in damaged or worn garments quietly increases Originating in an experimental practice based methodology which placed wearing at its center this book presents the act of wearing as a tool for developing knowledge of being in or being with rather than observing from the outside Bringing together anthropological and psychoanalytic theory with practices of handmaking wearing and photography this book asks what is the embodied experience of wearing and the affect of the worn Beautifully illustrated in full color throughout Worn is the first book to focus exclusively on the significance of imperfect garments as important aspects of our material world and culture
