Footprints In The Parks:

Footprints in the Parks George Hjelte, 1977 **Official Guide to Texas State Parks and Historic Sites** Laurence Parent, 2009-02-17 Since it was first published in 1996 Official Guide to Texas State Parks and Historic Sites has become Texans one stop source for information on great places to view scenic landscapes tour historical sites camp fish hike backpack swim ride horseback go rock climbing and enjoy almost any other outdoor recreation This revised edition includes five new state parks and historical sites completely updated information for every park and many beautiful new photographs The book is organized by geographical regions to help you plan your trips around the state For every park Laurence Parent provides all of the essential information The natural or historical attractions of the park Types of recreation offered Camping and lodging facilities Addresses and phone numbers A locator map Magnificent color photographs So if you want to watch the sun set over Enchanted Rock fish in the surf on the beach at Galveston or listen for a ghostly bugle among the ruins of Fort Lancaster let this book be your complete guide Don t take a trip in Texas without it Leave Only Footprints Conor Knighton, 2021-04-06 NEW YORK TIMES BESTSELLER A delightful sampler plate of our national parks written with charisma and erudition Nick Offerman author of Paddle Your Own Canoe From CBS Sunday Morning correspondent Conor Knighton a behind the scenery look at his year traveling to each of America s National Parks discovering the most beautiful places and most interesting people our country has to offer NAMED ONE OF THE BEST BOOKS OF THE YEAR BY OUTSIDE When Conor Knighton set off to explore America s best idea he worried the whole thing could end up being his worst idea A broken engagement and a broken heart had left him longing for a change of scenery but the plan he d cooked up in response had gone a bit overboard in that department Over the course of a single year Knighton would visit every national park in the country from Acadia to Zion In Leave Only Footprints Knighton shares informative and entertaining dispatches from what turned out to be the road trip of a lifetime Whether he s waking up early for a naked scrub in a historic bathhouse in Arkansas or staying up late to stargaze along our loneliest highway in Nevada Knighton weaves together the type of stories you re not likely to find in any guidebook Through his unique lens America the Beautiful becomes America the Captivating the Hilarious and the Inspiring Along the way he identifies the threads that tie these wildly different places together and that tie us to nature and reveals how his trip ended up changing his views on everything from God and love to politics and technology Filled with fascinating tidbits about our parks past and reflections on their fragile future this book is both a celebration of and a passionate case for the natural wonders that all Americans share *The Parks Belong to the People* Joe Weber, Selima Sultana, 2024-04 In examining the 424 units of the U S national park system geographers Joe Weber and Selima Sultana focus attention on the historical geography of the system as well as its present distribution covering the diversity of places under the control of the National Park Service NPS This includes the famous national parks such as the Grand Canyon Yellowstone and Yosemite and the lesser known national monuments memorials lakeshores seashores rivers

recreation areas preserves reserves parkways historic sites historic parks and a range of battlefields as well as more than twenty additional sites not fitting into any of these categories such as the White House The geographic view of The Parks Belong to the People sets it apart from others that have taken a solely historical approach Where parks are located what they are near where their visitors come from and how land use and activities are organized within parks are some of the fundamental issues discussed The majority of units in the NPS are devoted to recreation areas or historic sites such as battlefields archaeological sites or sites devoted to a specific person and this is reflected in the authors approach What we think of as a national park has changed over the years and will continue to change Weber and Sultana emphasize changing social and political environments in which NPS units were created and the roles they serve such as protecting scenery providing wildlife habitats preserving history and serving as scientific laboratories and places for outdoor recreation The authors also focus on parks as public facilities and sites of economic activities National parks were created by people for people to enjoy at great cost and with great benefit They cannot be understood without taking this human context into account Johnson, Koonin, Triay, Tompkins, and Harris Nominations United States.
