behaviour between the EU and Japan and the imprint of shared past experiences in areas from trade to security In so doing this book also raises important questions about the future of multilateral cooperation exploring the potential for bilateral agreements to undermine the possibility of finding international solutions to increasingly international problems EU Japan Relations and the Crisis of Multilateralism will appeal to students and scholars of European and Japanese politics and international relations as well as policymakers internationally with an interest in these significant agreements *Handbook of Higher Education in Japan* Paul Snowden, 2025-10-01 Just as higher education HE in Europe had its beginnings in religious training for the priesthood HE in feudal Japan too provided instruction for a religious life But while the evolution to secular instruction was gradual in Europe in Japan it came with a big bang the opening of the country and consequent Westernization and all that that involved in the mid 19th century This first volume in the new Japan Documents Handbook series tells the story in 25 chapters of how Japan's HE system has become what it is now ending with a very tentative glimpse into the rest of the 21st century A variety of themes are covered by scholars chapters that concentrate on governance look at the distinction between national public and private institutions others consider important topics such as internationalization student recruitment and faculty mobility More innovative topics include Women of Color Leading in Japanese Higher Education All provide copious references to other authorities but rather than just toe the conventional line they include opinions and proposals that may be contentious or even revolutionary The editor provides an overview of the subject and its treatment in an Introduction **The Clash** Walter LaFeber, 1998 One of America's leading historians tells the entire story behind the disagreements tensions and skirmishes between Japan a compact homogeneous closely knit society terrified of disorder and America a sprawling open ended society that fears economic depression and continually seeks an international marketplace Photos Pattaya Undercover Ewe Paik Leong, 2019-11-01 Promising sun sea sand and more Pattaya beach resort in Thailand lures eight million foreign tourists annually However behind the glitter lurks broken dreams ethereal ecstasy and often tragedy And behind every bargirl's smile and every foreigner's beer glass lurks a story happy touching heart wrenching The author interviews bargirls mamasans and customers who reveal true stories of sex scams doomed relationships and tragic suicides The author's investigation takes him to the capital Bangkok as well as to an Isaan village in northeastern Thailand and further afield to Saigon in Vietnam and Kuala Lumpur in Malaysia He returns to Pattaya with a warning You enter the manipulative world of the Pattaya bargirls at your own risk **Roppongi Crossing** Roman Adrian Cybriwsky, 2011-03-15 For most of the latter half of the twentieth century Roppongi was an enormously popular nightclub district that stood out from the other pleasure quarters of Tokyo for its mix of international entertainment and people It was where Japanese and foreigners went to meet and play With the crash of Japan's bubble economy in the 1990s however the neighborhood declined and it now has a reputation as perhaps Tokyo's most dangerous district a hotbed of illegal narcotics prostitution and other crimes Its concentration of bad foreigners many from China Russia and Eastern Europe West Africa

and Southeast Asia is thought to be the source of the trouble Roman Adrian Cybriwsky examines how Roppongi's nighttime economy is now under siege by both heavy handed police action and the conservative Japanese construction state an alliance of large private builders and political interests with broad discretion to redevelop Tokyo The construction state sees an opportunity to turn prime real estate into high end residential and retail projects that will clean up the area and make Tokyo more competitive with Shanghai and other rising business centers in Asia Roppongi Crossing is a revealing ethnography of what is arguably the most dynamic district in one of the world's most dynamic cities Based on extensive fieldwork it looks at the interplay between the neighborhood's nighttime rhythms its emerging daytime economy of office towers and shopping malls Japan's ongoing internationalization and changing ethnic mix and Roppongi Hills and Tokyo Midtown the massive new construction projects now looming over the old playground

**Language Change** Anna Mauranen, Svetlana Vetchinnikova, 2020-12-03 English as a lingua franca ELF has become ubiquitous in today's globalised mobile and fast changing world It is clear that it will have an unprecedented impact not only on how we communicate but also on our understanding of language use and change What exactly ELF brings to our life and to language theory is a question which requires an interdisciplinary take This book gathers together leading scholars from world Englishes typology language history cognitive linguistics translation studies multilingualism sociolinguistics and ELF research itself to seek state of the art answers Chapters present original insights on language change based on theoretical approaches and empirical studies and provide clear examples of social interactional and cognitive changes that ELF instigates The picture which unfolds on the pages of this book is complex dynamic and makes a convincing case for the importance of English as a lingua franca on language change at a global scale

**Boundless Worlds** Peter Wynn Kirby, 2008-12-01 Where lived experience of surroundings is shifting visceral and immersive interpretation of social spaces tends to be static and remote Space and place are also often analyzed without grappling much if at all with the social political and historical roots of spatial practice This volume embarks upon the novel strategy of focusing on movement as a way of understanding social spaces which offers a means to get beyond biases inherent in the social science of space Ethnographic studies of social life in settings as varied as nomadic Mongolia and island Melanesia as distinct as contemporary Tokyo and war torn Palestine challenge Western assumptions about the universality of space and allow concrete understanding of how life plays out over different socio cultural topographies In a world that is becoming increasingly bounded in many ways despite enormous changes wrought by technological ideological and other social developments Boundless Worlds urges a scholarly turn away from the purely global toward the human dimension of social lives lived in conditions of conflict upheaval remapping and improvisation through movement
