

- Scholars who are interested in intersectionality frequently focus on oppressed or under-represented individuals or groups, those who have been excluded, ignored, or discriminated against by mainstream groups—in other words, those who have been “pushed to the margins.”
- Intersectionality provides a way to theorize about kinds of complex interactions among the social dynamics of the performer, performance, audience and observers.
- Intersectionality offers folklorists a way to deepen the study of the interplay between specific performance contexts and the forces within larger social contexts that influence performances and texts.
