**American Women During World War II** Doris Weatherford, 2009-10-16

American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more. It also illuminates how the war changed the lives of women in more traditional home front roles. All women had to cope with rationing of basic household goods and most women volunteered in war related programs. Other entries discuss institutional change as the war affected every aspect of life including schools, hospitals, and even religion. *American Women during World War II* provides a handy one volume collection of information and images suitable for any public or professional library.

*American Women in a World at War* Judy Barrett Litoff, David Clayton Smith, 1997. This title brings together twenty five writings by women who share their rich and varied World War II experiences from serving in the military to working on the home front to preparing for the postwar world. By providing evidence of their active and resourceful roles in the war effort as workers, wives, and mothers, these women offer eloquent testimony that World War II was indeed everybody's war. Litoff and Smith combine pieces by well known writers such as Margaret Culkin Banning and Nancy Wilson Ross with important but largely forgotten personal accounts by ordinary women living in extraordinary times. This volume is divided into the six sections listed below: Preparing for War, In the Military, At Far Flung Fronts, On the Home Front, War Jobs, Preparing for the Postwar World. *The Oxford Handbook of World War II* G. Kurt Piehler, Jonathan A. Grant, 2023. World War II dramatically transformed human life and society, resulting in the deaths of 100 million people and shaping the worldview and psyches of generations. The Oxford Handbook of World War II broadens traditional narratives of the war and in the process changes our understanding of this epic conflict. Spanning the rise and fall of the Versailles system to the postwar reintegration of veterans and the eventual commemoration of the conflict and its victims, The Oxford Handbook of World War II marks a landmark contribution to the historical literature of war.

**Texas and Texans in World War II** Christopher B. Bean, 2022-08-24

*Texas in World War II* offers an informative look at the challenges and changes faced by Texans on the home front during the Second World War. This collection of essays by leading scholars of Texas history covers topics from the African American and Tejano experience to organized labor, from the expanding opportunities for women to the importance of oil and agriculture. *Texas in World War II* makes local the frequently studied social history of wartime, bringing it home to Texas. An eye opening read for Texans eager to learn more about this defining era in their state's history, this book will also prove deeply informative for scholars, students, and general readers seeking detailed, definitive information about World War II and its implications for daily life, economic growth, and social and political change in the Lone Star State. *Women and the Military* Ruth Margolies Beitler, Sarah M. Gerstein, 2021-04-07. This addition to the Women and Society around the World series explores the roles

challenges and accomplishments of women in the military in countries across the globe Around the world millions of men serve in their countries militaries be it on land on the seas or in the air But while many militaries have opened all positions to women even those on the front lines others remain closed Countries have cited a number of reasons for their policies including changing views of women and the military conscription and economic and demographic trends Written by a professor of comparative politics at the United States Military Academy at West Point and an active duty army major this book seeks to provide an understanding of women s roles in militaries around the world The book is organized by region exploring societal and cultural views of masculinity and war as well as factors influencing changing views of women and the military including conscription and economic and demographic trends Topics also include sexual harassment recruitment and views on women s physicality and strength High school students undergraduates and general readers will find this cross cultural study a fascinating and important resource

**A Companion to Women's Military History** Barton

Hacker,Margaret Vining,2012-08-17 This volume addresses the changing relationships between women and armed forces from antiquity to the present eight chapters review the existing literature an extended picture essay visually documents women s military work and eight chapters illustrate more restricted topics

**The Routledge History of Women in**

**Good**

**Military Wives Stay** Monica Henry,2007-10-15 Women and men are socialized to accept and perform certain gendered roles generally man as warrior protector and woman as caretaker protected The United States Military depends on the wives of

servicemen to embrace these gendered roles in order to carry out military operations such as Operation Iraqi Freedom OIF. The conservative nature of the military its demand for obedience and loyalty the dependency of military wives on the military community for financial and social support to cope with the hardships of military life contribute to the reluctance of those opposed to OIF to publicly express this opposition and or contribute to their negative perceptions of the antiwar movement. Although large scale opposition to OIF among military wives is unlikely to avoid further alienating military wives and potential allies members of the anti war movement should consider the impact that specific methods of protest have on military families and engage in anti war activities accordingly.

### **The Oxford Encyclopedia of Women in World History**

Bonnie G. Smith, 2008. The Oxford Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work. Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies, geography and history, comparative culture and society, including adoption, abortion, performing arts, organizations and movements such as the Egyptian Uprising and the Paris Commune, women's and gender studies, and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a valued go-to resource for scholars, college and high school students, and general readers alike.

### **The Oxford Companion to American Military History**, *Write like a Man* Ronnie A.

Grinberg, 2024-03-26. How virility and Jewishness became hallmarks of postwar New York's combative intellectual scene. In the years following World War II the New York intellectuals became some of the most renowned critics and writers in the country. Although mostly male and Jewish, this prominent group also included women and non-Jews. Yet all of its members embraced a secular Jewish machismo that became a defining characteristic of the contemporary experience. *Write like a Man* examines how the New York intellectuals shared a uniquely American conception of Jewish masculinity that prized verbal confrontation, polemical aggression, and an unflinching style of argumentation. Ronnie Grinberg paints illuminating portraits of figures such as Norman Mailer, Hannah Arendt, Lionel and Diana Trilling, Mary McCarthy, Norman Podhoretz, Midge Decter, and Irving Howe. She describes how their construction of Jewish masculinity helped to propel the American Jew from outsider

to insider even as they clashed over its meaning in a deeply anxious project of self definition Along the way Grinberg sheds light on their fraught encounters with the most contentious issues and ideas of the day from student radicalism and the civil rights movement to feminism Freudianism and neoconservatism A spellbinding chronicle of mid century America Write like a Man shows how a combative and intellectually grounded vision of Jewish manhood contributed to the masculinization of intellectual life and shaped some of the most important political and cultural debates of the postwar era **Daily Life of**

**Women** Colleen Boyett,H. Micheal Tarver,Mildred Diane Gleason,2020-12-07 Indispensable for the student or researcher studying women s history this book draws upon a wide array of cultural settings and time periods in which women displayed agency by carrying out their daily economic familial artistic and religious obligations Since record keeping began history has been written by a relatively few elite men Insights into women s history are left to be gleaned by scholars who undertake careful readings of ancient literature examine archaeological artifacts and study popular culture such as folktales musical traditions and art For some historical periods and geographic regions this is the only way to develop some sense of what daily life might have been like for women in a particular time and place This reference explores the daily life of women across civilizations The work is organized in sections on different civilizations from around the world arranged chronologically Within each society the encyclopedia highlights the roles of women within five broad thematic categories the arts economics and work family and community life recreation and social customs and religious life Included are numerous sidebars containing additional information document excerpts images and suggestions for further reading **The Routledge**

**History of Gender, War, and the U.S. Military** Kara Vuic,2017-08-15 The Routledge History of Gender War and the U S Military is the first examination of the interdisciplinary intersecting fields of gender studies and the history of the United States military In twenty one original essays the contributors tackle themes including gendering the other gender and war disability gender and sexual violence gender and American foreign relations and veterans and soldiers in the public imagination and lay out a chronological examination of gender and America s wars from the American Revolution to Iraq This important collection is essential reading for all those interested in how the military has influenced America s views and experiences of gender **American Religious History** Gary Scott Smith,2020-12-07 A mix of thematic essays reference

entries and primary source documents covering the role of religion in American history and life from the colonial era to the present Often controversial religion has been an important force in shaping American culture Religious convictions strongly influenced colonial and state governments as well as the United States as a new republic Religious teachings values and practices deeply affected political structures and policies economic ideology and practice educational institutions and instruction social norms and customs marriage and family life By analyzing religion s interaction with American culture and prominent religious leaders and ideologies this reference helps readers to better understand many fascinating often controversial religious leaders ideas events and topics The work is organized in three volumes devoted to particular periods

Volume one includes a chronology highlighting key events related to religion in American history and an introduction that overviews religion in America during the period covered by the volume and roughly 10 essays that explore significant themes. These essays are followed by approximately 120 alphabetically arranged reference entries providing objective fundamental information about topics related to religion in America. Each volume presents nearly 50 primary source documents each introduced by a contextualizing headnote. A selected general bibliography closes volume three.

**Debating Contemporary Approaches to the History of Science** Lukas M. Verburgt, 2024-01-11 *Debating Contemporary Approaches to the History of Science* explores the main themes, problems, and challenges currently at the top of the discipline's methodological agenda. In its chapters, established and emerging scholars introduce and discuss new approaches to the history of science and revisit older perspectives which remain crucial. Each chapter is followed by a critical commentary from another scholar in the field and the author's response. The volume looks at such topics as the importance of the global digital environmental and posthumanist turns for the history of science and the possibilities for the field of moving beyond a focus on ideas and texts towards active engagement with materials and practices. It also addresses important issues about the relationship between history of science on the one hand and philosophy of science, history of knowledge and ignorance studies on the other. With its innovative format, this volume provides an up-to-date authoritative overview of the field and also explores how and why the history of science is practiced. It is essential reading for students and scholars eager to keep a finger on the pulse of what is happening in the history of science today and to contribute to where it might go next.

**The Oxford Encyclopedia of Women in World History: 4 Volume Set** Bonnie G. Smith, 2008-01-23 *The Encyclopedia of Women in World History* captures the experiences of women throughout world history in a comprehensive 4-volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected. *The Oxford Encyclopedia of Women in World History* benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes.
