Understanding and Preventing Violence Leighton C. Whitaker,2000-06-22 More violence has been perpetrated in the 20th century than in the two previous centuries combined Understanding and Preventing Violence Unmasking the Mentality of Human Destructiveness elucidates the mentality of destructive behavior with the hopes that in the future the trend may be reversed through enlightenment But in order to choose to be Predicaments of Culture in South Africa Ashraf Jamal,2021-10-01 Symptomatic of an emergent shift away from prescriptive and deterministic accounts of change in South Africa Predicaments of culture in South Africa posits an open ended and speculative approach to the question and agency of culture The key question posed by Justice Albie Sachs of the Constitutional Court of South Africa what does it mean to be a South African is shifted from its familiar ontological and epistemological habitat what is identity the better to embrace its ethical and political rider what are identities for and its more pragmatic possibility what can identities do These qualifications Bhabha s form the building blocks that skew and enrich existing presumptions about South Africa s history its present moment and its future Jamal challenges and qualifies the conflicting and contiguous drives of fatalism positivism and relativism which are the dominant claimants upon the South African cultural imaginary It is this critical non positionality that forms the distinctive trait of an inquiry which in eschewing allegiance and closure opens up the debate about what it means to be South African and the role of culture therein In hindsight and with the hither side of the future before us Jamal s driving assumption is that world society is advancing towards yet another age of ignorance an age beyond suspicion and irony in which thought whether self critical or not is no longer the agent of reason Jamal calls for an urgent reappraisal of the absence of love of lovelessness which he sees as the infected root of South Africa s inability to create a positively affirmative cultural imaginary The Law of Freedom and Bondage in the United States John Codman Hurd,1862

The Glowing Consequences Pasquale De Marco,2025-07-07 The atomic bomb is a distant almost abstract event for most of us a relic of the Cold War consigned to history books and documentaries However for countless Americans the reality of the dangers posed by nuclear power and weapons has been a harsh one From the miners who extracted uranium in Colorado to the residents of downwind communities near nuclear test sites the human cost of atomic energy has been profound This book tells their stories revealing the often overlooked consequences of our reliance on nuclear technology It is a testament to their suffering and a reminder of the importance of learning from the mistakes of the past The book is divided into ten chapters each of which focuses on a different aspect of the atomic age The first chapter provides a brief history of nuclear energy from its early days of promise to its darker applications in warfare and weapons production

The second chapter examines the impact of nuclear testing on the environment and human health with a particular focus on the experiences of residents of downwind communities near test sites The third chapter discusses the challenges of nuclear waste disposal focusing on the dangers posed by spent nuclear fuel and the ongoing search for a permanent repository The fourth chapter examines the potential and pitfalls of nuclear power as a source of energy with a focus on the risks of accidents and the environmental impact of uranium mining and nuclear waste The fifth chapter examines the role of nuclear weapons in international relations from their proliferation to their use as a deterrent The sixth chapter discusses the use of nuclear technology in medicine and industry with a focus on the risks and benefits of radiation therapy and other nuclear applications The seventh chapter examines the ethical implications of nuclear technology with a focus on the moral case for disarmament and the responsibility of scientists and policymakers to protect future generations from the harms of nuclear weapons The eighth chapter examines the cultural impact of nuclear weapons and nuclear energy with a focus on how artists and writers have grappled with the complex issues surrounding nuclear technology The ninth chapter examines the role of nuclear power in the fight against climate change with a focus on the environmental benefits and risks of nuclear energy compared to other energy sources The tenth and final chapter examines the future of nuclear technology with a focus on the potential for new technologies to address the challenges posed by nuclear waste and nuclear weapons This book is an essential read for anyone who wants to understand the full impact of nuclear energy It is a powerful reminder of the human costs of our reliance on this dangerous technology and a call to action for a more sustainable future If you like this book write a review on google books

Preaching as a Theological Task David Buttrick, Thomas G. Long, Edward Farley, 1996-01-01

How do particular world situations impact preaching How does a preacher use the gospel and Scripture to speak to those situations This volume in honor of homiletician David Buttrick explores the complex and important relationships between world gospel and Scripture and their relevance for preaching theology This book is for those seeking thoughtful and challenging new ways to approach the preaching task now and into the twenty first century

The Voice of the Seven Thunders George Kevyn Weber, 2014-07-18

There is no time for the people of the world to waste to decide to change their ways and their ways of living The world is in a crisis that it has not been in before Actually the world has been in countless crises in the past before disaster calamity or catastrophe struck the people of the earth We are not talking of crises of natural disasters calamities or catastrophes that have hit the earth we are talking about man made man engineered and man designed disasters calamities and catastrophes that have hit the world from time to time History is full of them and apart from those natural disasters caused by God or the Devil themselves the rest were caused by man themselves Now this revelation is not about the natural but about the spiritual Power mad dictators rulers and potentates the world over are normally the cause of these disasters calamities and catastrophes and nature has little to do with them although they did affect nature in some way or another Small and great Wars were started by whosoever caused them without any due regard

of men's lives and the resultant horrors hardships and horrendous pain lived on in the hearts and lives of the people that survived No one can add these things up nor can they count the cost in human suffering misery and pain nor the cost of men's souls lost all for the sake of man's vanity The current synopsis is catchy and intriguing This synopsis is well written and it will entice readers into picking this book up and reading it Cynthia Sherman Writer's Literary Publishing Services Critique Division **The Calvinistic Magazine**, 1846 1 Corinthians Anthony C. Thiselton, 2011-05-03 Anthony Thiselton's lengthy New International Greek Testament Commentary volume The First Epistle to the Corinthians 2000 has become a standard work on 1 Corinthians In this shorter commentary Thiselton draws on his excellent exegesis from that volume but combines it afresh with keen practical and pastoral application for readers at all levels Thiselton delves deeply into the context and text of Paul's first Corinthian letter as he suggests section by section how the book applies to pastoral and practical issues He draws vivid parallels between the growing church in Corinth and the twenty first century church demonstrating that today's church also faces a seductive culture of competition and consumerism The church in Corinth preferred its self centered theology to the Christ centered gospel of the wider apostolic church Paul's response in 1 Corinthians amplified by Thiselton's commentary becomes a living practical transforming word from God for Christians today
