examination of Pope Pius II's development of the concept of Europe and what it meant to be European. From Christians to Europeans charts his life and work from his early years as a secretary in Northern Europe to his papacy. This volume introduces students and scholars to the concept of Europe by an important and influential early thinker. It also provides Renaissance specialists who already know him with the fullest consideration to date of how and why Pius 1405-1464 constructed the idea of a unified European culture, society and identity. Author Nancy Bisaha shows how Pius's years of travel, his emotional response to the fall of Constantinople in 1453 and the impact of classical ethnography and other works shaped this compelling vision with close readings of his letters, orations, histories, autobiography and other works. Europeans as Pius boldly defined them shared a distinct character that made them superior to the inhabitants of other continents. The reverberations of his views can still be felt today in debates about identity, ethnicity, race and belonging in Europe and more generally. This study explores the formation of this problematic notion of privilege and separation centuries before the modern era where most scholars have erroneously placed its origins. From Christians to Europeans adds substantially to our understanding of the Renaissance as a critical time of European self-fashioning and the creation of a modern Western identity. This book is essential reading for students and scholars interested in the formation of modern Europe, intellectual history, cultural studies and the history of Renaissance Europe, late medieval Italy and the Ottoman Empire. *Early Sources of Scottish History, A.D. 500 to 1286* Alan Orr Anderson, 1922 **American Legal News**, 1915 [Index to Fairy Tales, Myths, and Legends](#) Mary Huse Eastman, 1926 *The Confession of a Fool* August Strindberg, 2022-09-04 In *The Confession of a Fool* August Strindberg presents a searingly introspective narrative weaving a tale of love, disillusionment and psychological complexity. The novel employs an evocative confessional style giving readers intimate access to the inner workings of the protagonist's mind, reflective of Strindberg's own tumultuous experiences. The narrative unfolds against the backdrop of late 19th century Scandinavian thought, delving into the disintegration of a marriage and the conflict between the sexes. Strindberg's prose carries the hallmarks of naturalism and a precursor to expressionism with its focus on character, subjectivity and its challenges to traditional morality and social conventions. This edition by DigiCat Publishing revitalizes the text, inviting contemporary readers to immerse themselves in a classic of world literature, echoing the themes of human consciousness that resonate to this day. August Strindberg, a Swedish playwright, novelist and essayist, was renowned for his contributions to drama and literary realism. Strindberg's works often reflect his personal life and ideologies, particularly the tumult and strife of his own marital relations. *The Confession of a Fool* is in many ways a literary echo of these personal struggles, offering readers a window into the author's soul. Strindberg's writing is noted for its psychological depth and has influenced a broad spectrum of literature and theatrical movements, providing context to this novel which captures the essence of his philosophical preoccupations and the literary spirit of his era. *The Confession of a Fool* is a compelling portrait for readers who wish to venture into the darker quarters of romantic relationships and the human psyche. It is an essential

read for those who appreciate classic literature that does not shy away from exploring the nuanced interplay of gender roles power dynamics and the emotional battleground of love and betrayal Perfect for students of literature psychology enthusiasts and admirers of Scandinavian classics this book endures as a powerful testament to Strindberg s formidable talent and the timeless fascination with the complexities of human nature      **The Confession of a Fool** August Strindberg,1925
