Cunningham, 2012 This book is a collection of essays that examine the integrated relationship that the 1958 Alfred Hitchcock film Vertigo has with the history and culture of California and the San Francisco Bay area **Shadow of a Doubt** Diane Negra, 2021-04-15 Shadow of a Doubt 1943 was British born Alfred Hitchcock s sixth American film and the one that he at various times identified as his favourite and his best It seems likely that one of the reasons he liked Shadow so much is that is an extraordinarily well ordered narrative system a meticulous cause and effect chain that melds its various scenes and sequences together to form a unified narrative that is highly effective in building suspense and cultivating identification with characters This scrupulously organized film operates as a masterclass on principles of narrative design while generating resonant commentary on the nature of family life This book redresses the deficit of sustained critical attention paid to Shadow even in the large corpus of Hitchcock scholarship Analysing the film's narrative system issues of genre authorship social history homesickness and family values Diane Negra shows how the film's impeccable narrative structure is wedded to radical ideological content linking the film's terrors to the punishing effects of looking beyond conventional family and gender roles This book understands Shadow as an unconventionally female centred Hitchcock text and a milestone film that marks the director's emergent engagement with the pathologies of violence in American life and opens a window into the placement of femininity in World War II consensus

Classical Vertigo Mark William Padilla, 2024-03-18 Alfred Hitchcock's Vertigo has dazzled and challenged audiences with its unique aesthetic design and startling plot devices since its release in 1958 In Classical Vertigo Mythic Shapes and Contemporary Influences in Hitchcock s Film Mark William Padilla analyzes antecedents including 1 the film s source novel D entre les morts Among the Dead 2 the earlier symbolist novel Rodenbach s Bruges la morte and 3 the first draft screenplay of Maxwell Anderson a prominent Broadway dramatist and Hollywood scenarist from the 1920s to the 1950s The presence of Vertigo amid these texts reveals and clarifies how themes from Greco Roman antiquity emerge in Hitchcock's project Padilla analyzes narrative figures such as Prometheus and Pandora Persephone and Hades and Pygmalion and Galatea as well as themes like the dark plots of Greek tragedy to reveal how Hitchcock used allusive form to construct an emotionally powerful experience with an often minimalist script This analysis demonstrates that Vertigo is a multifaceted work of intertextuality with artistic and cultural roots extending into antiquity itself Golden Gate Bridge Donald MacDonald, Ira Nadel, 2013-03-26 An award winning architect explores the history and engineering of a modern marvel with easygoing prose and dozens of delightfully accessible sketches SFGate com Nine million people visit the Golden Gate Bridge each year yet how many know why it s painted that stunning shade of international orange Or that ancient Mayan and Art Deco buildings influenced the design Current bridge architect Donald MacDonald answers these questions and others in a friendly informative look at the bridge's engineering and seventy year history.
