thoughts about God As their correspondence grows Zachary leads Thomas through an informal and highly readable comparison of Naturalism the belief that there is no God and that ultimate reality is physical reality and Theism the idea that there is an almighty perfectly good God In engaging letters that break down complex philosophical arguments into easily digestible bits the two friends delve into such weighty topics as the reliability of religious experience various arguments for God s existence such as the cosmological design and moral arguments the question of free will and the problem of evil A piece at a time they build an argument that shows that Theism on balance provides a better explanation of the world and human life than does Naturalism Here then is a highly accessible account of the major arguments for and against the existence of God capturing some of the best new insights of modern philosophy in a marvelously clear and engaging format
