Rowe, Nick Trakakis, 2017-05-15 William Rowe is one of the leading thinkers in contemporary philosophy of religion Although he is best known for his contributions to the problem of evil he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion He has for example written extensively on the existentialist theologian Paul Tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of God His work in these areas is distinguished by its clarity rigour originality and sensitivity towards the claims of his theistic opponents Indeed Rowe s work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s The present collection brings together for the first time Rowe's most significant contributions to the philosophy of religion This diverse but representative selection of Rowe's writings will provide students professional scholars as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of Paul Tillich the problem of evil divine freedom arguments for the existence of God religious experience life after death and religious pluralism **Pioneers in Education** Paulo Freire, Elizabeth Galligan, Romelia Hurtado de Vivas, 2008 The purpose of this book is to provide an overview of the contributions of one of the world's foremost educators It will also provide an understanding of the importance of Freire's work and how his books works and contributions have influenced the students and educational leaders of today There is an urgent need for a book of this type that contains current reflections and reviews the work of one of the greatest educational philosophers of all time

<u>Divine Impassibility</u> Richard E. Creel,2005-06-21 In this volume Richard Creel sets forth a thesis that offers a third way to approach divine impassibility Defining impassibility as imperviousness to causal influence from external factors Creel sketches a path between Aquinas and Hartshorne by asserting that once this definition is accepted one must still distinguish the various respects in which God is or is not impassible Virtually no one would dispute that the divine nature is impassible God will never cease to be God no matter what happens in creation With respect to the divine knowledge and will however there are conflicting views Creel claims that God s will is impassible because God knows everything that can be accomplished

by divine power Yet unlike Aguinas Creel believes that God has this knowledge in virtue of a plenum of possibilities eternally coexistent with the divine being The absolute is not simply God but rather God plus the plenum Creel suggests that God s knowledge is passible with respect to the contingent future actions of creatures God knows these actions therefore not in their presentiality from all eternity as Aquinas would hold but only as they happen and become actual God's will however remains immediately impassible because the divine will is ordered to possibilities not actualities God never has to wait until after we do something in order to decide his response to it He has eternally decided his response to all that we might do Ultimately God's feelings remain impassible no matter what concrete decisions human beings make because the basic intent of the divine plan for us is always achieved we exercise our freedom to choose for or against God God is impassible with respect to the divine nature divine will and divine feelings but God is passible with respect to the divine knowledge of future Global Governance Enterprises John J. Forrer, 2016-11-03 Global Governance Enterprises focuses on a specific multi sector collaboration the formation of an entity that carries out global governance providing a detailed analysis of the context of their emergence as well as how they are created managed and sustained Forrer considers the growing challenges to successful global governance and the role of multi sector collaborations in overcoming these challenges arguing that such partnerships should be considered successful only when they meet specific conditions that ensure they are doing well and doing good By establishing a coherent framework to define global governance enterprises across a wide span of sectors the book develops a strong theoretical foundation for this type of partnership and provides the reader with an understanding of the practical operational realities of organizing financing and sustaining global governance enterprises It includes a full section of case studies ranging from healthcare to environmental organizations providing practical insight into this form of governance and its function This book should be on the shelf of any professional or student interested in global governance public private partnerships or public management **Christian America?** Christian Smith, 2000-04-13 In recent decades Protestant evangelicalism has become a conspicuous and to many Americans worrisome part of this country s cultural and political landscape But just how unified is the supposed constituency of the Christian Coalition And who exactly are the people the Christian Right claims to represent In the most extensive study of American evangelicals ever conducted Christian Smith explores the beliefs values commitments and goals of the ordinary men and women who make up this often misunderstood religious group The result is a much needed contribution to the discussion of issues surrounding fundamental American freedoms and the basic identity of the United States as a pluralistic nation Based on data from a three year national study including more than 200 in depth interviews of evangelicals around the country Christian America assesses the common stereotype of evangelicals as intolerant right wing religious zealots seeking to impose a Christian moral order through political force What Smith finds instead are people vastly more diverse and ambivalent than this stereotype suggests On issues such as religion in education family values Christian political activism and tolerance of other religions and
