Caldwell, 2004-03-16 What Muscovites get in a soup kitchen run by the Christian Church of Moscow is something far more subtle and complex if no less necessary and nourishing than the food that feeds their hunger In *Not by Bread Alone* the first full length ethnographic study of poverty and social welfare in the postsocialist world Melissa L Caldwell focuses on the

everyday operations and civil transactions at CCM soup kitchens to reveal the new realities the enduring features and the intriguing subtext of social support in Russia today In an international food aid community Caldwell explores how Muscovites employ a number of improvisational tactics to satisfy their material needs She shows how the relationships that develop among members of this community elderly Muscovite recipients Russian aid workers African student volunteers and North American and European donors and volunteers provide forms of social support that are highly valued and ultimately far more important than material resources In *Not by Bread Alone* we see how the soup kitchens become sites of social stability and refuge for all who interact there not just those with limited financial means and how Muscovites articulate definitions of hunger and poverty that depend far more on the extent of one's social contacts than on material factors By rethinking the ways in which relationships between social and economic practices are theorized by identifying social relations and social status as Russia's true economic currency this book challenges prevailing ideas about the role of the state the nature of poverty and welfare the feasibility of Western style reforms and the primacy of social connections in the daily lives of ordinary people in post Soviet Russia

Sensenig, 2016-03-02 What happens when North American Mennonite Christians arrive in Islamic Somalia The answer according to Peter Sensenig is that something new emerges a peace clan From the first schools and medical work in the 1950s up to the educational partnerships of the present day Somalis and Mennonites formed a surprising friendship that defied conventional labels *Peace Clan* is the story of two deeply traditional communities as they encounter change How can Somalis apply the profound peacemaking resources of their culture and faith in a society fragmented by violence And how can modernizing Mennonites make sense of their peace convictions in the context of civil war and military intervention In struggling with these questions over the course of six decades Somalis and Mennonites held a mirror up to one another The author shows how the common quest to transform enmity brings out the best in both communities and suggests what a fruitful partnership might look like in the present challenges Students academics and lay readers alike will find on these pages a compelling invitation to join the peace clan

Democratic Dream in Congo-Brazzaville Rufin Batota-Mpeho, 2014-05-05 Multiparty democracy that swept across Africa in the early 1990s created a momentum similar to that of the 1960s Lumumba Kasongo 1998 The Sovereign National Conference of Brazzaville in 1991 marked the end of successive and unsuccessful monolithic powers that led the Congo to political disarray and economic disintegration since the 1960s and the beginning of a new era that of multiparty democracy The democratic dream came true Marxist Leninism marred with dictatorship and military coups was defeated The Congolese people started to enjoy freedom of speech and vote that was confiscated since 1963 No sooner did the Congo start savouring the flavour of democracy than its path was strewn with obstacles The move from political culture to economic performance ethno regional identities the French foreign policy the role of militias and the institutional design contributed to its failure The 1997 civil war left the democratic dream in shambles and paved the way for a multiparty autocracy **Human Rights**

and World Trade Ana Gonzalez-Pelaez, 2004-08-02 A new and incisive analysis of the political viability of human rights with an in depth investigation of its largest violation world hunger Gonzalez Pelaez develops John Vincent's theory of basic human rights within the context of the international political economy and demonstrates how the right to food has become an international norm enshrined within international law She then assesses the international normative and practical dimensions of hunger in connection with international trade and poverty Using the society of states as the framework of analysis she explores the potential that the current system has to correct its own anomalies and examines the measures that can move the hunger agenda forward in order to break through its current stagnation *The New Famines* Stephen Devereux, 2006-11-22 The recent occurrences of famine in Ethiopia and Southern Africa have propelled this key issue back into the public arena for the first time since 1984 as once again it becomes a priority not only for lesser developed countries

but also for the international community Exploring the paradox that is the persistence of famine in the contemporary world this book looks at the way the nature of famine is changing in the face of globalization and shifting geo political forces The book challenges perceived wisdom about the causes of famine and analyzes the worst cases of recent years including close analysis of food scarcity in North Korea Ethiopia Sudan and Malawi and less well known cases in Madagascar Iraq and Bosnia With fresh conceptual frameworks and analytical tools major theoretical constructs which have previously been applied to analyze famines such as the democracy ends famine argument Sen s entitlement approach and the complex political emergency framework are confronted This volume assembles an international team of contributors including Marcus Noland Alex de Waal and Dan Maxwell an impressive roster which helps make this book an important resource for those in the fields of development studies and political economics
