Georg Lukacs Theory Culture And Politics:

Georg Lukács Judith Marcus, Zoltán Tarr, 1989-01-01 The Hungarian social philosopher and literary critic Georg Lukcs 1885 1971 is one of the seminal intellectual figures of the twentieth century With the possible exception of Leon Trotsky he is also widely recognized as the outstanding Marxist thinker aside from Marx himself Yet as Lewis Coser has observed Lukcs has remained the most enigmatic figure of the modern communist movement Why were his theories so important to modern political and social thought How did he come to have such influence on so many distinguished Western Intellectuals and for such a long time And why despite this did so many of his writings infuriate contemporary readers and critics The centenary of Lukcs birth was celebrated in 1985 with symposia in a number of countries on several continents Hundreds of Lukcs scholars and students attended along with others who were interested in his time and his ideas as well as the man and his work In the process new understanding of some of his most controversial concepts ideas and theses emerged Newly discovered information and writings as well as previously unknown preoccupations in his seventy year intellectual career were shared This volume brings together some of the best and most original of the essays of participants in New York Paris Budapest and Mexico City Some of the contributions in this volume are sharply critical of Lukcs others are clearly admiring A great many take an objective but severe look at diverse aspects of his work Together they constitute a close examination of the life work of the man Thomas Mann once called The most important literary critic of today Jean Paul Sartre hailed as a significant modern philosopher and Irving Howe declared a major force in European intellectual life Collectively this volume shows why Georg Lukcs remains one of the remarkable intellectual figures of the twentieth century whose work is of enduring significance for us today Judith Marcus is on the faculty of Kenyon College She is the author of Thomas Mann and Lukcs Zoltán Tarr was visiting Fulbright Scholar to Budapest Hungary and has taught sociology and history at the City College of CUNY New School for Social Research and Rutgers University He is author of The Frankfurt School The Critical Theories of Max Horkheimer and Theodor W Adorno *Lukács Reads Goethe* Nicholas Vazsonyi, 1997 Long recognized as one of the foremost literary critics of the twentieth century the Hungarian born Georg Lukacs 1885 1971 shocked many by turning to Marxism in 1918 Using his formidable knowledge of European cultural history he revitalized Marxist theory with his book *History and Class Consciousness* 1923 and continued to write extensively about literature The ultimate question posed by this book is how Lukacs in the 1930s was able to write enthusiastically about Goethe citing him as an ideal exponent of humanism while simultaneously accepting and even condoning Stalinism **Georg Lukacs Reconsidered** Michael Thompson, 2011-04-07 An international team of contributors explore contemporary insights into the work of Georg Lukacs in political theory aesthetics ethics and social and cultural theory **Carl Schmitt's Critique of Liberalism** John P. McCormick, 1997 This is the first in depth critical appraisal in English of the political legal and cultural writings of Carl Schmitt perhaps this century's most brilliant critic of liberalism It offers an assessment of this most sophisticated of fascist

theorists without attempting either to apologise for or demonise him Schmitt's Weimar writings confront the role of technology as it finds expression through the principles and practices of liberalism Contemporary political conditions such as disaffection with liberalism and the rise of extremist political organizations have rendered Schmitt's work both relevant and insightful John McCormick examines why technology becomes a rallying cry for both right and left wing intellectuals at times when liberalism appears anachronistic and shows the continuities between Weimar's ideological debates and those of our own age *The Vitality of Critical Theory* Harry F. Dahms, 2011-05-19 States that the critical theory of the Frankfurt School is as important today if not more so as it was at its inception during the 1930s This title looks at the distinguishing features of this tradition and how it is critical yet also complementary of other approaches in the social sciences especially in sociology

Lukácsian film theory and cinema Ian Aitken, 2018-02-28 Lukácsian film theory and cinema explores Georg Lukács' writings on film The Hungarian Marxist critic Georg Lukács is primarily known as a literary theorist but he also wrote extensively on the cinema These writings have remained little known in the English speaking world because the great majority of them have never actually been translated into English until now Aitken has gathered together the most important essays and the translations appear here often for the first time This book thus makes a decisive contribution to understandings of Lukács within the field of film studies and in doing so also challenges many existing preconceptions concerning his theoretical position For example whilst Lukács' literary theory is well known for its repudiation of naturalism in his writings on film Lukács appears to advance a theory and practice of film that can best be described as naturalist Lukácsian film theory and cinema is divided into two parts In part one Lukács' writings on film are explored and placed within relevant historical and intellectual contexts whilst part two consists of the essays themselves This book will be of considerable interest to scholars and students working within the fields of film studies literary studies intellectual history media and cultural studies It is also intended to be the final volume in a trilogy of works on cinematic realism which includes the author's earlier *European film theory and cinema* 2001 and *Realist film theory and cinema* 2006 *The Politics of the Soul* John

Dickson, 2022-12-16 This book takes the form of intellectual histories of eight major representative figures of the twentieth century who inherited and responded to the spiritual problematic left by Nietzsche With each figure offering very different ethical and spiritual positions all shed light on what we mean when we talk confusedly around the topics of politics and religion With portraits of Max Weber Georg Lukács T S Eliot W H Auden Sigmund Freud Carl Jung George Orwell and Hannah Arendt the author explores the latent content of their worldview the moral or immoral intention of their intellectual project In each of the case studies the aim is to move toward an understanding of their ultimate values to get at their particular picture of the soul as well as the implications of this vision for religion and politics As such *The Politics of the Soul* will appeal to scholars of sociology and social theory religion philosophy political theory and cultural studies **Political Reason in the Age of Ideology** Daniel Mahoney, 2017-07-05 A little over one hundred years after his birth and not quite

twenty five years since his death interest in the French political philosopher and sociologist Raymond Aron 1905 1983 continues to grow Aron is now widely recognized as one of the most significant intellectual figures of the postwar period whose wide ranging reflections played a key part in preserving liberal democracy in Europe and abroad His sober analyses of modern society his trenchant critique of ideological politics and every form of totalitarianism and his philosophical reflections on politics and history have given powerful support to democratic liberalism throughout the western world Aron s work combines passion and observation disinterested reflection and love of liberty in a way that is an imitable model for humane and balanced political reflection In this stimulating collection of essays inspired by the centennial of Aron s birth a distinguished group of North American and European scholars including Pierre Manent Stanley Hoffmann Irving Louis Horowitz Liah Greenfeld Claude Lefort and Aurelian Craiutu examine four key aspects of Aron s thought and work his educative legacy his reflections on other philosophers and intellectuals his distinctive approach to international relations and the unique character of his own political reflection The result is a masterful engagement with Aron s intellectual legacy and a thoughtful coming to terms with the political and intellectual substance of the twentieth century Lukács: Praxis and the Absolute Daniel Andrés López, 2019-10-14 Georg Lukács s philosophy of praxis penned between 1918 and 1928 remains a revolutionary and apocryphal presence within Marxism His History and Class Consciousness has inspired a century of rapture and reprobation perhaps as Gillian Rose suggested because of its invitation to hermeneutic anarchy In Lukács Praxis and the Absolute Daniel Andr s L pez radicalises Lukács s famous return to Hegel by reassembling his 1920s philosophy as a conceptual historical totality This speculative reading defends Lukács while proposing an unprecedented immanent critique While Lukács s concept of praxis approaches the shape of Hegel s Absolute it tragically fails to bear its weight However as L pez argues Lukács s failure was productive it raises crucial political methodological and philosophical questions for Marxism offering to redeem a lost century **Georg Lukács's Political Aesthetics and Domination Partisanship** Victor Zitta, 1991 Toward a Critical Theory of Nature Carl Cassegård, 2021-01-28 Challenging the normalization of a capitalist reality in which environmental destruction and catastrophe have become second nature Towards a Critical Theory of Nature offers a bold new theoretical understanding of the current crisis via the work of the Frankfurt School Focusing on key notions of dialectics natural history and materialism a critical theory of nature is outlined in favor of a more traditional Marxist theory of nature albeit one which still builds on core Marxist concepts to confirm humanity s central place in manufacturing environmental misery Pre eminent thinkers of the Frankfurt school including Georg Lukács Ernst Bloch Theodor Adorno and Alfred Schmidt are highlighted for their potential to diagnose the interpenetration of capitalism and nature in a way that neither absolutizes nor obliterates the boundary between the social and natural Further theoretical claims and practical consequences of a critical theory of nature challenge other contemporary theoretical approaches like eco Marxism social constructivism and new materialism to situate it as the only approach with genuinely radical potential The possibility of

utopian idealism for understanding and responding to the current climate crisis is carefully measured against the dangers of false hope in setting out realistic goals for change Environmental change in turn is seen through the prism of recent cultural currents and movements situating the power of a critical theory of nature in relation to understandings of the Anthropocene concepts of apocalypse and postapocalypse This book culminates in a powerful tool for an anti capitalist critique of society's painfully extractive relationship to a deceptively abstracted natural world

Configurations of the Real in Chinese Literary and Aesthetic Modernity Peter Button, 2009 Tracing the formation of the modern concept of literature in 20th century China this book examines the emergence of the Chinese socialist realist novel in relation to the literary and philosophical currents globalized in the wake of capitalist modernity Provided by publisher

Exile and Social Thought Lee Congdon, 2014-07-14 Embroiled in the political events surrounding World War I and the failed Hungarian revolutions of 1918-19 a number of intellectuals fled Hungary for Germany and Austria where they essentially created Weimar culture Among them were Georg Lukács whose *History and Class Consciousness* recast Marxism and challenged even those who repudiated its politics Bela Balázs who pioneered film theory and collaborated with film makers G.W. Pabst Leni Riefenstahl and Alexander Korda László Moholy-Nagy who codirected the Bauhaus during its heyday in the mid 1920s and Karl Mannheim whose *Ideology and Utopia* was the most widely discussed work of noncommunist social theory during the Weimar years In this collective portrait combining intellectual history with biographical detail Lee Congdon describes how Hungarian thinkers each in a different way passionately advocated the need for community in a Europe torn by war and revolution Whether communist avant-gardist or Catholic convert each thinker is examined within the vast tapestry of his works his cultural and intellectual milieu and his experience as an exile Despite the ideological differences of these men Congdon reveals how their personal destinies and social goals often merged Since many were assimilated Jews he argues that their thinking on society was inextricably intertwined with their youthful sensitivity to anti-Semitism in Hungary and with the isolating limitations of their lives in Germany and Austria Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while

presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Decentering European Intellectual Space, 2018-05-15 Decentering European Intellectual Space challenges the conventional view of intellectual history as a debate over the interpretation of a limited number of texts produced by a small group of prominent scholars writers and intellectuals from the cultural centers of Europe Addressing the question What is European intellectual space this collection of essays seeks to demonstrate how this space is shaped ordered and communicated between Europe s fluctuating cores and peripheries Focusing on the asymmetrical relations between large and small centers and peripheries cores and margins in scholarly and other forms of interaction and within Europe as well as globally the volume brings forth a variety of trajectories and strategies developed by intellectuals outside the culturally dominant centers Contributors are David Cottington Narve Fuls s Tommaso Giordani Marja Jalava Zs fia L rand ukasz Miko ajewski Diana Mishkova Stefan Nyg rd Emilia Palonen Manolis Patiniotis Johanna Rainio Niemi Tore Rem Jos Mar a Rosales and Johan Strang

Society and Medicine RenÃ©e Claire Fox, Carla M. Messikomer, Judith Pound Swazey, Allen Glicksman, 2003 The essays in this volume pay tribute to the achievements of Rene C Fox in the fields of medicine and sociology Many of the contributors are Fox s colleagues and former students from medicine sociology nursing and bioethics The title Society and Medicine reflects the leitmotif in Fox s work her studies of and teaching about the nature of medicine and medical research the training and work of their practitioners the interrelationships between medicine and the societies and cultures of which it is a part and above all the moral and spiritual dimensions of the healing arts

Realist film theory and cinema Ian Aitken, 2019-01-04 Realist film theory and cinema embraces studies of cinematic realism and 19th century tradition the realist film theories of Luk cs Grierson Bazin and Kracauer and the relationship of realist film theory to the general field of film theory and philosophy This is the first book to attempt a rigorous and systematic application of realist film theory to the analysis of particular films The book suggests new ways forward for a new series of studies in cinematic realism and for a new form of film theory based on realism It stresses the importance of the question of realism both in film studies and in contemporary life Aitken s work will be of interest to scholars and advanced students of film studies literary studies media studies cultural studies and philosophy

Concepts of Cabralism Reiland Rabaka, 2014-07-16 By examining Amilcar Cabral s theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory Concepts of Cabralism Amilcar Cabral and Africana Critical Theory simultaneously reintroduces chronicles and analyzes several of the core characteristics of the Africana tradition of critical theory Reiland Rabaka s primary preoccupation is with Cabral s theoretical and political legacies that is to say with the ways in which he constructed deconstructed and reconstructed theory and the aims objectives and concrete outcomes of his theoretical applications and discursive practices The book begins with the Negritude Movement and specifically the work of L opold

Senghor Aim C saire and Jean Paul Sartre Next it shifts the focus to Frantz Fanon s discourse on radical disalienation and revolutionary decolonization Finally it offers an extended engagement of Cabral s critical theory and contributions to the Africana tradition of critical theory Ultimately Concepts of Cabralism chronicles and critiques revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism African nationalism and Pan Africanism but also contemporary efforts to create a new anti racist anti sexist anti capitalist anti colonialist and anti imperialist critical theory of contemporary society what has come to be called Africana critical theory
