George Washington Prophecy Before 911 And Beyond:

The George Washington Prophecy -- Before 9/11 and Beyond Daniel L. Lion, 2003-08-01 Twenty years ago a young David Lion was training to go to the 1984 Winter Olympics in Sarajevo Yugoslavia He was skiing as a peace ambassador in an effort to warn the people of the earth about the dangers of the proliferation of nuclear weapons and their potential to spark World War III During a training run on the grounds of George Washington's property he became witness to a vision of the George Washington prophecy This vision led him to write a paper that outlaid years before its time the Start Treaty and the Star Wars Missile Defense System When the paper is rediscovered in July of 2001 David has a vision of an imminent attack upon the United States which is of the Twin Towers exploding He interprets this as the third and final woe of the George Washington prophecy as recorded in the Library of Congress Based on a true story the now middle aged David Lion claims that he is to advise the President of the United States and Secretaries of State and Defense in order to warn them of this disaster Instead he is sent to a psychiatric ward for a week When he gets out he is in a dragged out state until August 11 2001 when he visits the Old North Church in Boston and sees the bust of General Washington There he realizes that he is right and proceeds to write letters to the men in power of the United States government Inspired by the brave men and women who with their belief in God and country stopped the effects of 9 11 from being more devastating David continues to present Leonardo da Vinci type drawings of a modern space based missile defense system to the elected leaders of the United States As a purveyor of the George Washington prophecy he teaches it to his sons who continue it on to the next generation with the mission of peace through American technical superiority [Resources in Education](#) ,1981 **Prophecy Flash!** ,1997 **The Nation** ,1899 **The Universal Adversary** Mark Neocleous, 2016-02-12 The history of bourgeois modernity is a history of the Enemy This book is a radical exploration of an Enemy that has recently emerged from within security documents released by the US security state the Universal Adversary The Universal Adversary is now central to emergency planning in general and more specifically to security preparations for future attacks But an attack from who or what This book the first to appear on the topic shows how the concept of the Universal Adversary draws on several key figures in the history of ideas said to pose a threat to state power and capital accumulation Within the Universal Adversary there lies the problem not just of the terrorist but more generally of the subversive and what the emergency planning documents refer to as the disgruntled worker This reference reveals the conjoined power of the contemporary mobilisation of security and the defence of capital But it also reveals much more Taking the figure of the disgruntled worker as its starting point the book introduces some of this worker's close cousins figures often regarded not simply as a threat to security and capital but as nothing less than the Enemy of all Mankind the Zombie the Devil and the Pirate In situating these figures of enmity within debates about security and capital the book engages an extraordinary variety of issues that now comprise a contemporary politics of security From crowd control to contagion from the witch hunt to the apocalypse from pigs to
