Secularisation in Australian Education since 1910 Clarissa Carden, 2021-11-08 The phrase free compulsory and secular is central to Australia s understanding of its own education system Yet the extent to which education in Australia or anywhere else for that matter can be described as secular is never clear or settled This work examines the history of education in Australia from 1910 through to the present through an interdisciplinary survey of key scholarship and a series of six original case studies It seeks to uncover the extent to which the education system has undergone a process of secularisation and argues that the very meaning of the term secular is always contingent and changeable Australia and the Great War Michael JK Walsh, Andrekos Varnava, 2016-01-01 Australia and the Great War explores both the immediate and long term consequences of the war on this complex relationship looking in particular at identity history gender propaganda economics and nationalism This multidisciplinary collection of essays unveils the creation and subsequent mis use of histories and mythologies while considering the necessity and nature of both remembering and forgetting war The Patriarchs R.J.
