German Democratic Republic Mike Dennis,1988 **Politics, Economics, and Society in the Two Germanies, 1945-75** Richard L. Merritt,Kathleen Kelly Rummel,1978 **The Conscription Society** Gregory James Kasza,1995-01-01

The ability to organize millions of people for political purposes is a potent and relatively recent weapon in the struggle for power Political scientists have studied two types of mass organization the political party and the interest group In this book Gregory Kasza examines a third type which he calls the administered mass organization AMOs are mass civilian bodies created by authoritarian regimes to implement public policy Officials use them to organize youths workers women or members of other social sectors into bodies resembling the mass conscript army A network of AMOs produces a conscription society a major force in twentieth century politics in over 45 countries Using comparative history and organization theory Kasza analyzes the politics of the conscription society in both military and single party regimes He discusses the origins of AMOs in Japan the Soviet Union and Fascist Italy and their subsequent spread to China Egypt Nazi Germany Peru Poland and Yugoslavia He focuses on the use of AMOs to curb political opposition to mobilize for war and to shift control over the means of production Kasza shows how in the hands of despotic rulers AMOs have contributed to the extremes of political barbarism characteristic of the twentieth century *Ibss: Political Science: 1988* British Library of Political and Economic Science,1992 This bibliography lists the most important works in political science published in 1988 **Social Transformation and the Family in Post-Communist Germany** E. Kolinsky,1998-04-02 The unification of Germany set in motion one of the most interesting and uncharted developments of our era the transformation of a whole society This book examines key areas of transformation with special reference to the place and future of the family **East European Fault Lines** Janusz Bugajski,2019-04-10 This book provides a comparative analysis of oppositionist trends in the Soviet satellite states of contemporary Eastern Europe It evaluates the extent and objectives of independent social activism in these countries and explores both the causes and effects of public dissent Re-Assessing the Gdr: Papers from a Nottingham Conference J H Reid,1994 How Socialist East Germany's Elite Turned Capitalist Gerhard Schnehen,2021-05-01 When East and West Germany re united the world was amazed but this great moment should have been foreseen East Germany the GDR was not transformed by a counterrevolution from the outside the leadership was always capitalist at heart The author shows how they were undermining the socialist foundations even in the 1950s as soon as Stalin died Gerhard Schnehen leads us through the historic events that led to the formation of the German Democratic Republic GDR He documents what others have left out of the story explaining the underlying causes why the supposedly Communist part of Germany collapsed in 1989 to be completely integrated into the capitalist Federal Republic of Germany The reunited and imperialist Germany today is the dominant force in the European Union and the main ally of US imperialism globalism and neoliberalism With the rise to power of the Khrushchev clique the GDR also changed colors Guided by Khrushchev and his group they introduced economic

reforms leading to the restoration of a type of capitalism in the country where the profit principle was reinstated as the main regulator of social production. This in turn caused numerous and chronic crises in the country which in the West were then happily attributed to socialism or communism as a whole inviting attacks on a system that cannot work. However such commentators completely ignore and do not want to discuss the fact that GDR's socialism was brought down very early in the early sixties by leading officials of the ruling party themselves who introduced a whole series of capitalist reforms in order to modernize socialism and to make it more effective as the Ulbricht reformers put it. These so called reforms are analyzed here at length illustrating how they did away with socialist principles and restored capitalist principles into the economy in a way that made the country prone to the chronic crises typical of capitalism. This then led to a substantial part of the dissatisfied population turning away from socialism the socialist state and the SED ruling party and looking toward West Germany for a better lifestyle. In late 1989 the GDR imploded and within months it was swallowed up by West German banks and corporations.

Cold War Ecology Arvid Nelson, 2008-10-01 East Germany its economy and its society were in decline long before the country's political collapse in the late 1980s. The clues were there in the natural landscape. Arvid

Nelson argues in this groundbreaking book but policy analysts were blind to them Had they noted the record of the leadership s values and goals manifest in the landscape they wouldn t have hailed East Germany as a Marxist Leninist success story Nelson sets East German history within the context of the landscape history of two centuries to underscore how forest and ecosystem change offered a reliable barometer to the health and stability of the political system that governed them Cold War Ecology records how East German leaders indifference to human rights and their disregard for the landscape affected the rural economy forests and population This lesson from history suggests new ways of thinking about the health of ecosystems and landscapes Nelson shows and he proposes assessing the stability of modern political systems based on the environment s system qualities rather than on political leaders goals and beliefs *East Central Europe and the former Soviet Union* Michael Bradshaw, Alison Stenning, 2016-04-15 A comprehensive introduction to the important economic social and political processes and development issues in this increasingly popular area of study Employing a groundbreaking thematic approach the book centres its discussion on the interrelation between contemporary development theories and continuing transition issues in this huge and complex region **The Statesman's Yearbook 2006** B.
