Multinational companies transfer managerial practices such as quality management globally Studies from different perspectives have examined cultural institutional and organizational challenges in practice transfer however little is known about the micro processes of intercultural transfer especially in complex cultural settings as Brazil Integrating the recontextualization perspective and Scandinavian institutionalist transfer as translation approach this book explores micro processes of transfer from German MNC to Brazilian subsidiaries from a multiple cultures perspective Findings show the complementary nature of micro processes of translation and recontextualization embedding them into a process model of four stages Preparation translation recontextualization and institutionalization Intercultural transfer can be
