shocked and terrorized the world with Blitzkrieg its form of mobilized warfare How the Germans rebuilt their army after defeat in World War I circumventing the prohibitions of the treaty at Versailles is one of the major questions in military history Citino shows that German officers of the army of the Weimar Republic the Reichswehr men like General Hans von Seeckt General Wilhelm Groener and Colonel Oswald Lutz initiated and carried out a thorough reform of the army s warfighting doctrine and capability that laid the groundwork for Hitler s seemingly effortless rearmament of Germany Using largely unpublished materials from U S and German archives he grounds his book in a study of key autumn maneuvers of the German army in the thirties His analysis traces the smooth and inexorable development of the Reichswehr into the Wehrmacht quite likely the finest military machine in history

This outline describes the manner by which German Army succeeded in changing and implementing tactical doctrine during war The process is not rigidly sequential it is a dynamic process that requires great intellectual ability and strong character from tacticians who desire to make successful changes In the examination of the German process of tactical change several important personalities emerge Their memories certainly must be used with caution but I have quoted extensively from participants in this paper in part to convey the essential interest in tactics among the participants Their interest in tactics is instructive for not all military leaders possess a continuing interest in tactics

Standing Fast: German Defensive Doctrine on the Russian Front During World War II — Prewar to March 1943 Major Timothy A. Wray,2015-11-06 Includes over 50 maps plans and illustrations In this Research Survey Major Timothy A Wray provides an excellent survey of the intricacies of employing defensive tactics against a powerful opponent Using after action reports unit war diaries and other primary materials Major Wray analyzes the doctrine and tactics that the Germans used on the Eastern Front during World War II At the end of World War I the Germans adopted the elastic defense in depth and continued to use it as their basic doctrine through the end of World War II However because of limitations caused by difficult terrain severe weather manpower and supply shortages Soviet tactics and Hitler s order to stand fast

German commanders were unable to implement the Elastic Defense in its true form Even so innovative and resourceful unit commanders were able to adapt to the harsh realities of combat and improvise defensive methods that saved the German armies from complete annihilation U S Army unit commanders on the future battlefield while battling a motivated and aggressive force will also face hard battlefield conditions Therefore these commanders in applying the AirLand Battle tenets of initiative depth agility and synchronization will have to demonstrate the same type of innovativeness and resourcefulness as the Germans did in Russia To operate on the AirLand Battlefield U S soldiers must depend on sound doctrine and the ability to execute it intelligently All Army officers will benefit from Major Wray s new and vital assessment of how German doctrine was modified by the test of war Handbook on German Military Forces United States.
