Dewey, 2023-09-18 In German Philosophy and Politics John Dewey explores the intricate relationship between philosophy and politics in Germany Delving into the works of influential German philosophers such as Kant Hegel and Nietzsche Dewey provides a comprehensive analysis of how their philosophical ideas have shaped political thought and action in Germany Through his clear and concise writing style Dewey dissects complex philosophical concepts making them accessible to readers with varying levels of expertise in both philosophy and politics This book is a must read for anyone interested in understanding the intellectual underpinnings of German political thought and its impact on historical events Dewey's commentary on the evolution of German political philosophy offers valuable insights into the broader context of European intellectual history making this book a valuable resource for academics and enthusiasts alike *Fascism* Mark

Neocleous, 1997 This clear accessible overview treats the subject of fascism thematically and provides a conclusion that brings the discussion up to date Mark Neocleous situates fascism between the social and political contradictions of modernity and capitalism In many ways a reaction to the principal political project of the Enlightenment fascism focuses on three central concepts war nature and nation in order to crush violently movements of ideologies of social emancipation such as Marxism and liberalism The destruction of reason that fascism represents shatters Enlightenment universalism and transforms the desire for social liberation into an aggressive nationalism with devastating effects on human life

The Bergsonian Mind Mark Sinclair, Yaron Wolf, 2021-12-30 Henri Bergson 1859-1941 is widely regarded as one of the most original and important philosophers of the twentieth century His work explored a rich panoply of subjects including time memory free will and humour and we owe the popular term *lan vital* to a fundamental insight of Bergson's His books provoked responses from some of the leading thinkers and philosophers of his time including Albert Einstein William James and Bertrand Russell and he is acknowledged as a fundamental influence on Marcel Proust The Bergsonian Mind is an outstanding wide ranging volume covering the major aspects of Bergson's thought from his early influences to his continued relevance and legacy Thirty six chapters by an international team of leading Bergson scholars are divided into five clear parts Sources and Scene Mind and World Ethics and Politics Reception Bergson and Contemporary Thought In these sections fundamental topics are examined including time freedom and determinism memory perception evolutionary theory pragmatism and art Bergson's impact beyond philosophy is also explored in chapters on Bergson and spiritualism physics biology cinema and post colonial thought An indispensable resource for anyone in Philosophy studying and researching Bergson's work The Bergsonian Mind will also interest those in related disciplines such as Literature Religion Sociology and French Studies *German Ideology* Louis Dumont, 1994 In Dumont's words the Frenchman sees himself as being a man by nature and a Frenchman by accident while the German feels he is a German in the first place and a man through his being a German Furthermore while individualism in the French fashion stresses equality and centers in the sociopolitical domain in Germany it focuses on the uniqueness the irreplaceability of the individual subject and the duty to cultivate it by self education *Bildung* Religion, Reason, and Culture in the Age of Goethe Elisabeth Krimmer, Patricia Anne Simpson, 2013 Investigates how culture in the Age of Goethe shaped and was shaped by a sustained and multifaceted debate about the place of religion in politics philosophy and culture The eighteenth century is usually considered to be a time of increasing secularization in which the primacy of theology was replaced by the authority of reason yet this lofty intellectual endeavor played itself out in a social and political reality that was heavily impacted by religious customs and institutions This duality is visible in the literature and culture of late eighteenth and early nineteenth century Germany On the one hand authors such as Goethe Schiller and Kleist are known for their distance from traditional Christianity On the other hand many canonical

texts from the late eighteenth and early nineteenth centuries from Goethe's *Faust* to Schiller's *Die Jungfrau von Orleans* to Kleist's *Michael Kohlhaas* are not only filled with references to the Bible but invoke religious frameworks. Religion, Reason, and Culture in the Age of Goethe investigates how culture in the Age of Goethe shaped and was shaped by a sustained and multifaceted debate about the place of religion and religious difference in politics, philosophy, and culture, enriching our understanding of the relationship between religion and culture during this foundational period in German history.

Germans and Jews George L. Mosse, 2023-05-23. Originally published in 1970, *Germans and Jews* brings together George L. Mosse's thoughts on a critical time in German history when thinkers on both the left and the right shared a common goal. In the late nineteenth and early twentieth centuries, intellectuals across the political spectrum aimed to solve the problems of contemporary society by creating a force that would eliminate both state Marxism and bourgeois society, a third force beyond communism and capitalism. This pervasive turn in ideology had profound effects on German history. In Mosse's reading, left-wing political efforts became increasingly unrelated to reality, while the right finally discovered in fascism the force it had been seeking. This innovative perspective has implications for understanding not only the rise of fascism and Nazism in Germany but also the rise and fall of the New Left in the United States and Europe, which was occurring at the time of Mosse's writing. A new critical introduction by Sarah Wobick Segev, research associate at the University of Hamburg, places Mosse's work in its historical and intellectual contexts and draws lessons for students and scholars today.

The German Enlightenment and the Rise of Historicism Peter H. Reill, 2024-07-26. *The German Enlightenment and the Rise of Historicism* traces the thought of a large and neglected group of German thinkers and their encounter with the ideas and ideal of the Enlightenment from 1740 to 1790. Concentrating on the nature of their historical consciousness, Peter Hanns Reill addresses two basic issues in the interpretation of the Enlightenment: to what degree can one speak of the unity of the Enlightenment, and to what extent can the Enlightenment be characterized as modern. Reill attempts to revise the traditional interpretation of the Enlightenment as an age insensitive to the postulates of modern historical thought and to dissolve the alleged opposition of the Enlightenment to later intellectual developments such as Idealism. He argues that German Enlightened thinkers generated the general presuppositions upon which modern historical thought is founded. Asserting that the Enlightenment was not a unitary movement, Reill shows how each phase of it had unique elements and made contributions to Enlightenment thought as a whole. Exploring the forms of thought, the mental climate, and the different intellectual milieus in which the German thinkers operated, Reill demonstrates that they were confronted by two opposing intellectual traditions: German Pietism and rationalism. In attempting to reconcile both without submerging one into the other, these Enlightenment thinkers turned to

historical speculation and learning They discussed the relation between religious and rationalistic assumptions the transformation of the concepts of religion and law the interaction between aesthetic and historical thought the creation of a theory of understanding to support the new idea of history the use of causation in historical analysis and the rediscovery of the Middle Ages Reill reveals how they anticipated the work of more famous thinkers of the nineteenth century and establishes the conceptual similarities between thinkers generally thought to be more different than alike This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975

Encounters with Islam in German Literature and Culture James R. Hodkinson, Jeffrey Morrison, 2009 German language writings about Islam not only reveal much about Islamic culture but also about the European home culture Islam has been a rich topic in German language literature since the middle ages and the writings about it not only reveal much about Islamic culture but also about the European home culture Many of the early essays in this chronologically arranged volume uncover fresh evidence of how German writers used images of Islam as other to define their individual subject positions as well as to define the German nation and the Christian religion The perspectives of many contemporary writers are however far removed from such a polar opposition of cultures Their experience of the German Islamic encounter is complicated by a crucial factor many of them emerge from Muslim migrant communities such as the German Turkish community The culturally hybrid origins of these writers and their expression of experiences and ideologies that cross boundaries of East and West Christendom and Islam strongly affect the findings of the essays as the volume moves toward the present The texts discussed include travelogues and other firsthand encounters with Islam reports for colonial authorities aesthetic treatises on Islamic art literary essayistic and theological writing on Islamic religious practice the incorporation of characters situations and settings from the Islamic world into fiction or drama and fictional and autobiographical writing by Muslims in German Contributors Cyril Edwards Silke Falkner James Hodkinson Timothy R Jackson Margaret Littler Rachel MagShamr in Frauke Matthes Yomb May Jeffrey Morrison Kate Roy Monika Shafi Edwin Wieringa W Daniel Wilson Karin E Yesilada James Hodkinson is Assistant Professor of German at Warwick University Jeffrey Morrison is Senior Lecturer at the National University of Ireland Maynooth
