

German Dictatorship

David G. Williamson

German Dictatorship:

Civil Society and Dictatorship in Modern German History Juergen Kocka, 2012-07-03 A consideration of twentieth century German social history and the legacies of the two dictatorships

The German Dictatorship Karl Dietrich Bracher, 1970

There have been many studies of National Socialism published since the defeat of Nazi Germany in 1945 None however has satisfactorily explained why the Weimar Republic failed how Hitler succeeded in taking power and whether National Socialism has been truly defeated or survives in Germany today In his search for the answers to these questions Karl Dietrich Bracher has written what has already been acclaimed as a masterpiece of historical and political analysis the most comprehensive and illuminating study of National Socialism to appear to date amazon com

The Dictators: Hitler's Germany, Stalin's Russia Richard Overy, 2006-01-17 A book of great importance it surpasses all others in breadth and depth Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction at the heart of darkness may be found Hitler Stalin and the systems of domination they forged Their lethal regimes murdered millions and fought a massive deadly war Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people In the first major historical work to analyze the two dictatorships together in depth Richard Overy gives us an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form Overy shows us the human and historical roots of these evils

The German Dictatorship Karl Dietrich Bracher, 1970-12

European Dictatorships 1918-1945 Stephen J. Lee, 2016-02-12 European Dictatorships 1918 1945 surveys the extraordinary circumstances leading to and arising from the transformation of over half of Europe's states to dictatorships between the first and the second world wars From the notorious dictatorships of Mussolini Hitler and Stalin to less well known states and leaders Stephen J Lee scrutinizes the experiences of Russia Germany Italy Spain Portugal and Central and Eastern European states This fourth edition has been fully revised and updated throughout New material for this

edition includes the most recent research on individual dictatorships a new chapter on the experiences of Europe's democracies at the hands of Germany Italy and Russia an expanded chapter on Spain a new section on dictatorships beyond Europe exploring the European and indigenous roots of dictatorships in Latin America Asia and Africa Extensively illustrated with images maps tables and a comparative timeline and supported by a companion website providing further resources for study www.routledge.com/cw/lee **European Dictatorships 1918-1945** is a clear detailed and highly accessible analysis of the tumultuous events of early twentieth century Europe

Selling Hitler Nicholas Jackson O'Shaughnessy, 2021 A new interpretation of the Nazi propaganda machine that argues Hitler not Goebbels was at the center Reveals how Nazis used graffiti and rumor in novel ways

Textual Responses to German Unification Carol Anne Costabile-Heming, Rachel J. Halverson, Kristie A. Foell, 2013-07-05 The unification of the two German states changed the geo political economic social and cultural borders of Germany and Europe This volume in three parts researches how East German and West German authors and directors reacted to these radical changes The basis of this research are fictional autobiographical journalistic and cinematic texts The authors and directors presented in this volume not only comment on the changes which they themselves experienced but also voice their changing attitudes to their own past within the divided Germany

Perpetrators, Accomplices and Victims in Twentieth-Century Politics Anatoly M. Khazanov, Stanley Payne, 2013-09-13 These studies examine the ways in which succeeding democratic regimes have dealt with or have ignored and in several cases sugar coated an authoritarian or totalitarian past from 1943 to the present They treat the relationship with democratization and the different ways in which collective memory is formed and dealt with or ignored and suppressed Previous books have examined only restricted sets of countries such as western or eastern Europe or Latin America The present volume treats a broader range of cases than any preceding account and also a much broader time span investigating diverse historical and cultural contexts and the role of national identity and nationalism studying the aftermath of both fascist and communist regimes in both Europe and Asia in an interdisciplinary framework while the conclusion provides a more complete comparative perspective than will be found in any other work The book will be of interest to historians and political scientists and to those interested in fascism communism legacies of war democratization collective memory and transitional justice This book was previously published as a special issue of *Totalitarian Movements and Political Religions*

Germany since 1789 David G. Williamson, 2015-12-17 This essential text provides a clear and engaging introduction to the history of modern Germany The updated and expanded new edition now takes the story back to 1789 and brings it right up to the present day adopting a controversy led approach throughout Visual evidence maps documents and key event boxes support the text and aid learning

Endurance and War Jasen J. Castillo, 2014-04-09 Scholars and military practitioners alike have long sought to understand why some country's militaries fight hard when facing defeat while others collapse In *Endurance and War* Jasen Castillo presents a new unifying theory cohesion theory to explain why national militaries differ in their staying power His argument

builds on insights from the literatures on group solidarity in general and military effectiveness in particular which argue that the stronger the ties binding together individuals in a group of any kind the higher the degree of cohesion that a group will exhibit when taking collective action including fighting in war Specifically he argues that two types of ties determine the cohesion and therefore the resilience of a nation s armed forces during war the degree of control a regime holds over its citizens and the amount of autonomy the armed forces possess to focus on training for warfighting Understanding why armed forces differ in their cohesion should help U S military planners better assess the military capabilities of potential adversaries like Iran and North Korea For scholars of international politics cohesion theory can help provide insights into how countries create military power and how they win wars

Germany 1919-45 Martin Collier, Philip Pedley, 2000 A study of Germany between 1919 and 1945 for AS and A Level History students It is designed to fulfil the AS and A Level specifications in place from September 2000 The two AS sections deal with narrative and explanation of the topic There are extra notes biography boxes and definitions in the margin and summary boxes to help students assimilate the information The A2 section reflects the different demands of the higher level examination by concentrating on analysis and historians interpretations of the material covered in the AS sections There are practice questions and hints and tips on what makes a good answer

Hitler's War Aims Norman Rich, 1973 Dealing with the military phase of Hitler s expansion Rich tells an absorbing story of Germany s relentless drive in every direction and provides a vivid account of the relations between Hitler and his newly acquired subjects and satellites Hans W Gatzke Political Science Quarterly

The Radical Right in Germany Lee McGowan, 2014-09-25 The Radical Right has represented a major element in German politics and society throughout the history of the united country i e since the 1870s though the understandable concentration on the Third Reich 1933-45 has tended to distort the wider picture This book explores the history of the radical right through the full span of Germany s life as a nation thus putting the Third Reich in its natural context and also emphasising that the attitudes and policies of the radical right did not begin with Hitler s pursuit of power in the 1920s or end with his death in the ruins of Berlin

European Dictatorships Gerhard Besier, Katarzyna Stokłosa, 2014-01-03 How could it happen that continental Europe became a Europe of the Dictatorships in the twentieth century It requires some effort to understand such processes It is insufficient to observe merely the dictatorships and their mechanisms one must also incorporate the seemingly harmless history leading up to that time and above all the transitions that took place The book begins with a description of the historical situation after the First World War Europe s brutalization through colonial wars and inter European conflicts carried out using means of mass extermination led to fractures in civilized cultures What follows in the second section is another state by state organized design of the transition from countries that were fascist and countries that were made fascist into communist states established in accordance with the Soviet model The third part of the book is devoted to the history of the Eastern Bloc states from 1953 to 2013

Material Fantasies Milena Veenis, 2012 This study of East German

fantasies of material abundance across the border both before and after the fall of communism shows the close and intricate relation between ideology and fantasy in upholding social life In 1989 news broadcasts all over the world were dominated for weeks by images of East Germans crossing the Berlin Wall to West Germany The images representing the fall of communism and the democratic will of the people also showed East Germans excitement at finally being able to enter the western consumer paradise But what exactly had they expected to find on the other side of the Wall Why did they shed tears of joy when for the first time in their lives they stepped inside West German shops And why were they prepared to pay more than 10 percent of their average monthly wage for a pineapple Drawing on fifteen months of research in the fast changing post communist East Germany Veenis unravels the perennial truths about the interrelationships of fantasies of material wealth personal fulfillment and social cohesion She argues persuasively that the far fetched socialist and capitalist promises of consumption as the road to ultimate well being the partial realization and partial corruption thereof the implicit social and psychological interests underlying the politicized promises in both countries form the breeding ground for the development of materialist cargo cult like fantasies in which material well being came to be seen as the place of fulfillment and ultimate arrival Publisher's website [Transnational Imaginations of Socialism](#) Teresa Malice, 2022-12-31 Town twinning refers to the postwar phenomenon of administrative exchange between analogous municipalities Cold War related research has mostly interpreted it as an instrument to pursue European integration or to solidify détente from below However municipalities were not only administrative neutral actors but also bearers of political content This is particularly visible in the case of Italian towns located in the Western bloc guided by socialist oriented administrations and their twin counterparts in the German Democratic Republic This volume explores the connections initiated by such towns in the 1960s 1970s focusing on socialist specific conceptions which fueled the policies implemented by red municipalities in managing local economies and social policies but also in maintaining a lively and interconnected transnational microsociability among grassroots activists Despite the increasing ideological divergences between Eastern and Western communists and between Italian democratic communists and the more dogmatic and repressive strictly pro Soviet ones in the GDR communication continued to flourish on the local level The book explores what still linked the two worlds together the bright side of socialism in this case a common symbolism related to the past practical exchanges in the present dimension and a shared future imagination and conception of the town on the basis of a socialist horizon built around welfare and services for citizens and workers

Rethinking History, Dictatorship and War Claus-Christian Szejnmann, 2009-01-01 **Encyclopedia of the Cold War** Ruud van Dijk, William Glenn Gray, Svetlana Savranskaya, Jeremi Suri, Qiang Zhai, 2013-05-13 Between 1945 and 1991 tension between the USA its allies and a group of nations led by the USSR dominated world politics This period was called the Cold War a conflict that stopped short of a full blown war Benefiting from the recent research of newly open archives the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose developed and was resolved This work

examines the military economic diplomatic and political evolution of the conflict as well as its impact on the different regions and cultures of the world Using a unique geopolitical approach that will present Russian perspectives and others the work covers all aspects of the Cold War from communism to nuclear escalation and from UFOs to red diaper babies highlighting its vast ranging and lasting impact on international relations as well as on daily life Although the work will focus on the 1945 1991 period it will explore the roots of the conflict starting with the formation of the Soviet state and its legacy to the present day

East Germany Paul Cooke,Jonathan Grix,2000 A collection of papers first presented at a colloquium for postgraduate students held at the Institute for German Studies University of Birmingham 1998

German Dictatorship Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the power of words has become more evident than ever. They have the ability to inspire, provoke, and ignite change. Such is the essence of the book **German Dictatorship**, a literary masterpiece that delves deep into the significance of words and their effect on our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall effect on readers.
