## **German Trauma Experiences And Reflections 1938 2000:**

**The German Trauma** Gitta Sereny,2000      **The German Trauma** Gitta Sereny,2000 IN 1945 Germany underwent a radical political transformation moving certainty and irreversibility from dictatorship to freedom under a model federal constitution But despite this remarkable public success and the economic revival that accompanied it the experience of war remains current in the imagination of Germans Indeed so total was their defeat so complete was their culpability that Germany's obvious dynamism has coexisted with the always open wound of their history The fact that this wound exists and has been felt so deeply for more than half a century has altered what has usually been thought of as the German character

**Truth, Reconciliation, and Evil** ,2020-10-12 Truth Reconciliation and Evil analyses evil in a variety of forms as an unspeakable crime a discursive or narrative force a political byproduct and an inevitable feature of warfare The collection considers the forms of loss that the workings of evil exact from the large scale horror of genocide to the individual grief of a self destructive homelessness Finally taken together the fourteen essays that comprise this volume affirm that the undoing of evil the moving beyond it through forgiveness and reconciliation needs to occur within the context of community broadly defined wherein individuals and groups can see beyond themselves and recognise in others a shared humanity and common cause Truth Reconciliation and Evil consists of expanded versions of papers presented at the Fourth International Conference on Evil and Wickedness held in Prague in March 2003 The essays represent a variety of disciplinary approaches including those of anthropology linguistics literature philosophy and psychoanalysis      New Theatre Quarterly 66: Volume 17, Part 2 Clive Barker,Simon Trussler,2001-05-10 Provides an international forum where theatrical scholarship and practice can meet

**Ripping England!** Roger Rawlings,2017-12-04 Ripping England investigates a fertile moment for British satire the period between 1947 and 1953 which produced the films Passport to Pimlico Kind Hearts and Coronets and The Lavender Hill Mob as well as the seminal radio program The Goon Show Against the postwar background of fading empire universal rationing and the implementation of a welfare state these satires laid the foundation for a new British cultural identity later fleshed out by the Angry Young Men the Movement poets the Social Realists and those involved in the satire boom of the 1960s which lives on even to this day The peculiarity of these satires and the British identity they shaped is better understood when seen in relief against postwar cinematic cultures of Italy France and the United States Roger Rawlings places postwar British film in the context of contemporaneous European national film movements and contrasts it with Hollywood's comedies and satires of the same period British satires of the late forties and early fifties held up a mirror to a nation that was in the throes of change moving from a colonial empire to an inward turning island culture Ripping England looks at the all too often neglected miracle of postwar British cinema and popular culture      *War Comes to Aachen* Philip W. Blood,2024-09-30 This book narrates the tumultuous era of total war through the fate of Aachen Imperial Germany's seat of power for 600 years site of Charlemagne's coronation as Holy Roman Emperor and a place with greater geopolitical

significance for Adolf Hitler in 1944 than Stalingrad in 1943 This was a stark contrast with the events of the Great War in 1918 the Imperial German Army had abandoned Aachen in a rout like flight In the Nazi period however Aachen became a major symbol of Germany's defiance against the Allies For Hitler his mind warped after surviving the Stauffenberg bomb plot Germany's westernmost city became pivotal in his last ditch defence of the thousand year Reich War Comes to Aachen weaves together the city's story from 1900 tracing its entrenched Catholic orthodoxy its growth as an industrial urban centre the demise of democracy the rise of Nazism the two world wars and the Holocaust The book surveys Churchill's wartime leadership and the destruction of pre war Aachen through the lenses of military history and the anthropology of aerial bombing Philip W Blood's absorbing history concludes with Allied efforts to reshape German society after 1945 and with the use of remembrance as a means of socio political control

**The Trial of Pierre Laval** J. Kenneth Brody, 2017-07-28 In a stunning work combining historical memory legal ambiguity and profound issues of justice J Kenneth Brody provides a picture of France in World War II that continues to haunt the present Architect in 1940 of Marshal Petain's Vichy French regime and its prime minister from April 1942 to August 1944 at war's end Pierre Laval was promptly arrested on charges of treason This book tells the story of his trial Did he betray France or did he serve France under terrible circumstances What was the truth of collaboration This book considers the pretrial proceedings or lack thereof the evidence and the arguments of the prosecution as well as Laval's vigorous defense in the early days of the trial Because of irregularities in the preliminary proceedings Laval's defense counsel declined from the outset to participate in the trial For those reasons and because of the prejudicial conduct of the prosecution on the third day of the trial Pierre Laval also declined to participate further What his defense might have been in a normal pre trial proceeding and in a fair trial are matters of conjecture What remains clear is that political trials are a unique form of law and moral judgment Trials and history share a common goal the truth Trial judgment and appeal are intended to produce finality History on the other hand is never final After its performance in the trial of Pierre Laval the government of France continued its policy of concealment even though the truth could no longer determine the outcome of the trial Slowly by persistence courage and loyalty history's claims to truth were established This book presents the defense that might have been presented and then relates the final judgment its grisly execution only eleven days after the trial opened and its aftermath

**Judging the Past** Geoffrey Scarre, 2023-09-12 This book presents an extended argument for the thesis that people of the present day are not debarred in principle from passing moral judgement on people who lived in former days notwithstanding the inevitable differences in social and cultural circumstances that separate us Some philosophers argue that because we can see things only from our own peculiar historical situation we lack a sufficiently objective vantage point from which to appraise past people and their acts If they are correct then the judgements passed by twenty first century people must inevitably be biased and irrelevant grounded on moral standards that would have seemed alien in that foreign country of the past This book challenges this relativistic position contending that it seriously underestimates our ability to engage imaginatively with people who however much their lifestyles may have differed from our own were our fellow human beings endowed with the same basic instincts aversions desires and aspirations Taking a stand on a naturalistic theory of human beings coupled with a Kantian conception of the equal worth of all human members of the Kingdom of Ends Scarre argues that historical moral judgements can be sensitive to circumstances fitting and fair and untainted by anachronism The discussion ends by examining the implications of this position for the practice of historians and for the ethics of memory and commemoration

*Relief and Rehabilitation for a Post-war World* Samantha K. Knapton, Katherine Rossy, 2023-11-16 One of the world's first truly international humanitarian organisations the United Nations Relief and Rehabilitation Administration UNRRA was championed as a beacon of postwar philanthropy that sought to rehabilitate as well as provide relief This edited volume offers the first comprehensive study of the UNRRA and seeks to identify the key successes limitations and enduring challenges it faced in the postwar period Tracing the rehabilitation of displaced children in the camps of Germany and Austria to mountainous Greek villages without access to food or medical supplies and refugees in postwar China it will assess the immediate impact of UNRRA rehabilitation policy on postwar reconstruction international development and broader humanitarian processes Through these international case studies it will explore the ways in which a fundamental inability to define rehabilitation made it seemingly impossible to meet its objectives As a predecessor to modern specialised agencies such as UNESCO WHO and UNICEF studying the UNRRA is crucial for our understanding of the history of the United Nations the circumstances that shaped its future policies and the foundations of modern humanitarianism

*Postwar Migration Policy and the Displaced of the British Zone in Germany, 1945-1951* Imogen Bayley, 2024-11-08 This book examines the experiences of refugees who populated the Displaced Persons DP camps in the British Zone of Allied occupied Germany after the Second World War With a specific focus on Polish and Jewish communities it explores the interaction between migration policy and the migration strategy of refugees or in other words the relationship between DP policy and individual choices and how these evolved over time The book aims to harmonize often contradictory images of displaced persons in the British Zone of occupation by taking a comparative approach and analysing conflicting identifications and state individual relations Drawing on the records of the International Tracing Service refugee memoirs DP publications distributed in the camps themselves and personal petitions and correspondences the author sheds light on the experiences of displaced persons and illustrates the difficulty of making clear cut distinctions between forced and voluntary

migration Today as in the post war period refugees access to social rights and welfare settlement rights and the possibility of family reunification can all be determined by the same labels that were so fiercely contested after 1945 A dichotomy between so called economic and political migration endures and many claims to asylum are today rejected on the grounds of applicants not being formally recognized as genuine refugees and recipients of aid This book therefore adds to our growing understanding of the plight of refugees and the need to ensure access to justice for all through the ongoing building of an effective accountable and inclusive refugee regime Women in the Holocaust Zoë Waxman,2017-01-26 Despite some pioneering work by scholars historians still find it hard to listen to the voices of women in the Holocaust Learning more about the women who both survived and did not survive the Nazi genocide through the testimony of the women themselves not only increases our understanding of this terrible period in history but makes us rethink our relationship to the gendered nature of knowledge itself Women in the Holocaust is about the ways in which socially and culturally constructed gender roles were placed under extreme pressure yet also about the fact that gender continued to operate as an important arbiter of experience Indeed paradoxically enough the extreme conditions of the Holocaust even of the death camps may have reinforced the importance of gender Whilst Jewish men and women were both sentenced to death gender nevertheless operated as a crucial signifier for survival Pregnant women as well as women accompanied by young children or those deemed incapable of hard labour were sent straight to the gas chambers The very qualities which made them women were manipulated and exploited by the Nazis as a source of dehumanization Moreover women were less likely to survive the camps even if they were not selected for death Gender in the Holocaust therefore became a matter of life and death **Stylistic Approaches to Translation** Jean Boase-Beier,2014-06-03 The concept of style is central to our understanding and construction of texts But how do translators take style into account in reading the source text and in creating a target text This book attempts to bring some coherence to a highly interdisciplinary area of translation studies situating different views and approaches to style within general trends in linguistics and literary criticism and assessing their place in translation studies itself Some of the issues addressed are the link between style and meaning the interpretation of stylistic clues in the text the difference between literary and non literary texts and more practical questions about the recreation of stylistic effects These various trends approaches and issues are brought together in a consideration of the most recent cognitive views of style which see it as essentially a reflection of mind Underlying the book is the notion that knowledge of theory can affect the way we translate Far from being prescriptive theories which describe what we know in a general sense can become part of what an individual translator knows thus opening the way for greater awareness and also greater creativity in the act of translation Throughout the discussion the book considers how insights into the nature and importance of style might affect the actual translation of literary and non literary texts **The Importance of Being Understood** Adam Morton,2005-06-29 The Importance of Being Understood is an innovative and thought provoking exploration of the links between the way we think about each other

s mental states and the fundamentally cooperative nature of everyday life Adam Morton begins with a consideration of folk psychology the tendency to attribute emotions desires beliefs and thoughts to human minds He takes the view that it is precisely this tendency that enables us to understand predict and explain the actions of others which in turn helps us to decide on our own course of action This reflection suggests claims Morton that certain types of cooperative activity are dependent on everyday psychological understanding conversely that we act in such a way as to make our actions easily intelligible to others so that we can benefit from being understood This idea of beneficial circularities is at the core of Morton's investigation of the interdependencies between folk psychology and social behaviour we understand each other because we have learned to make ourselves intelligible Using examples of cooperative activities such as car driving and playing tennis Adam Morton analyses the concepts of belief and simulation the idea of explanation by motive and the causal force of psychological explanation In addition to argument and analysis Morton also includes more speculative explorations of topics such as moral progress and presents a new point of view on how and why cultures differ The Importance of Being Understood forges new links between ethics and the philosophy of mind and will be of interest to anyone in either field as well as developmental psychologists

Nazi Eugenics Melvyn Conroy, 2017-09-19 Conceived as the answer to all of mankind's seemingly insoluble health and social problems and promoted as a substitute for orthodox religious beliefs the pseudoscience of eugenics recruited disciples in many countries during the latter years of the nineteenth and early years of the twentieth centuries Nowhere was this doctrine more enthusiastically endorsed than in Germany where the application of eugenic theory received its most fervent support A program born of what were often contradictory opinions began under Nazi rule with the compulsory sterilization of thousands of Germany's citizens before morphing into the mass murder of the most vulnerable of the state's own population under the guise of so called euthanasia before ultimately escalating into a continent wide policy of extermination of those who did not fit the Nazi eugenic template The progress of this inexorable descent into barbarity was marked by successive stages of development From the practical application of euthanasia through the organization dedicated to it later on called Aktion T4 and the killing centers that this institution spawned to the centrality of Aktion T4 to Aktion Reinhardt and the Holocaust important elements of the historical record can be seen to emerge How did it happen What impact has it had on contemporary society And what of the character and fate of the individuals involved in the gestation and implementation of this murderously inhumane quasi religion These deceptively simple questions require complex and often disturbing answers as shown by Melvyn Conroy in this important work
