Germany As A Civilian Power The Foreign Policy Of The Berlin Republic:

Germany as a Civilian Power? Sebastian Harnisch, Hanns Maull, 2001 Drawing upon a multi disciplinary methodology employing diverse written sources material practices and vivid life histories Faith in the family seeks to assess the impact of the Second Vatican Council on the ordinary believer alongside contemporaneous shifts in British society relating to social mobility the sixties sexual morality and secularisation Chapters examine the changes in the Roman Catholic liturgy and Christology devotion to Mary the rosary and the place of women in the family and church as well as the enduring but shifting popularity of Saints Bernadette and Th r se Appealing to students of modern British gender and cultural history as well as a general readership interested in religious life in Britain in the second half of the twentieth century Faith in the family illustrates that despite unmistakable differences in their cultural accoutrements and interpretations of Catholicism English Catholics continued to identify with and practise the Faith of Our Fathers before and after Vatican II **Germany's Civilian Power Diplomacy** C. Arora, 2006-08-07 This book assesses the diplomatic path of influence taken by German decision makers during the early nineties in pursuit of their cautiously articulated interest in and commitment to the eastward enlargement of NATO *Germany's Foreign Policy of Reconciliation* Lily Gardner Feldman, 2014-07-16 Since World War II Germany has confronted its own history to earn acceptance in the family of nations Lily Gardner Feldman draws on the literature of religion philosophy social psychology law and political science and history to understand Germany s foreign policy with its moral and pragmatic motivations and to develop the concept of international reconciliation Germany s Foreign Policy of Reconciliation traces Germany s path from enmity to amity by focusing on the behavior of individual leaders governments and non governmental actors The book demonstrates that at least in the cases of France Israel Poland and Czechoslovakia the Czech Republic Germany has gone far beyond banishing war with its former enemies it has institutionalized active friendship The German experience is now a model of its own offering lessons for other cases of international reconciliation Gardner Feldman concludes with an initial application of German reconciliation insights to the other principal post World War II pariah as Japan expands its relations with China and South Korea **Foreign Policy in Comparative Perspective** Ryan K. Snarr, 2012-04-25 Widely regarded as the most comprehensive comparative foreign policy text Foreign Policy in Comparative Perspective has been completely updated in this much anticipated second edition Exploring the foreign policies of thirteen nations both major and emerging players and representing all regions of the world chapter authors link the study of international relations to domestic politics while treating each nation according to individual histories and contemporary dilemmas The book s accessible theoretical framework is designed to enable comparative analysis helping students discern patterns to understand why a state acts as it does in foreign affairs **The Future of European Foreign Policy** Erik Jones, Saskia van Genugten, 2013-10-31 The future of European foreign policy is of vital significance to the developing world order The failure of US policy in Iraq has

underscored the need for Europe to play a constructive global role Nevertheless divisions within Europe over the Iraq war and over the future development of the European Union have raised questions about the potential for an effective European foreign policy whether organized through EU institutions or via individual member states This book will consider why Europe should assume global responsibilities how they will be organized institutionally whether they will be adequate to address pressing regional and security concerns and how they will reflect the foreign policy interests of Europe s major powers It is the intention of this book to cover both thematic and country specific issues ranging from Europe s responsibility as a global actor and EU NATO relations to the specific influence of Germany France Italy and the United Kingdom The contributors come from across the European Union and represent a mix of established and rising scholars This book was published as a special issue of the Journal of European Integration German Foreign Policy and the Concept of 'Civilian Power'

Jan-Henrik Petermann, 2011-11 Essay from the year 2006 in the subject Politics International Politics Topic German Foreign Policy London School of Economics Department of International Relations language English abstract The end of the Cold War in 1989/90 did not only prompt a fundamental transformation of the international system as a whole it equally changed the expectations and perceptions of key nation states acting within that system This was as most scholars of International Relations IR agree especially true with regard to reunited Germany In the run up to the negotiations of the Two plus Four Treaty many observers feared that the demise of the East West confrontation might encourage the Federal Republic to completely strip off its post war restraints and use its revamped resources and autonomy more forcefully By the same token some European leaders notably French President Fran ois Mitterrand and British Prime Minister Margaret Thatcher voiced concerns that a resurgence of German power politics seemed far from being just a theoretical possibility Indeed some indications of a renewed German propensity to go it alone emerged even before the legal and political terms of unification had been clarified Chancellor Kohl s 10 Points Plan of November 1989 aroused deep scepticism Even more alarmingly German contributions to armed operations in Bosnia and Kosovo were perceived as incidents of a much more self confident security posture However a vast majority of German politicians was eager to defuse their neighbours suspicions emphasising that they would retain their commitment to a culture of civilian power The country would remain a driving force for deeper and wider European integration as well as multilateralism within the frameworks of the UN NATO and CSCE OSCE Yet despite these efforts to address other states concerns some observers doubted whether Germany would actually be willing and able to stick to its leadership avoidance reflex in the *The Oxford Handbook of German Politics* Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022 Few countries have caused or experienced more calamities in the 20th century than Germany This handbook provides a comprehensive overview of some of the major issues of German domestic politics economics foreign policy and culture by leading experts in their respective fields **Comparative International Politics of**

Democracy Promotion Jonas Wolff, Hans-Joachim Spanger, Hans-Jürgen Puhle, 2013-09-11 Though scholarly attention to

democracy promotion is increasing there is still little comparative and theoretically based work on the protagonists of democracy promotion This book investigates the motives that drive democracy promotion in a comparative and theoretically oriented manner exploring how democracy promoters deal with conflicting objectives and the factors that shape their behaviour It also addresses the more policy oriented debate on the contemporary challenges to democracy promotion focusing on US and German policies towards three kinds of challenges the emergence of radical leftist governments in Bolivia and Ecuador the political rise of Islamist movements in Turkey and Pakistan and the consolidation of semi authoritarian rule in Belarus and Russia In each case North Western democracy promoters have been confronted with serious conflicts of objectives between security economic interests and democracy promotion The analysis and comparison of such situations in which democracy promoters have to deal with competing objectives and make tough decisions provides powerful evidence as to the factors that shape democracy promotion The Comparative International Politics of Democracy Promotion will be of interest to students and scholars of international relations comparative politics democratization studies and foreign policy

NATO, Security and Risk Management M.J. Williams, 2008-10-08 This new volume explores the crisis in transatlantic relations and analyses the role of NATO following the collapse of the Soviet Union The book offers a unified theory of cooperation in the new security paradigm to explain the current state of transatlantic relations and NATO's failure to adequately transform itself into a security institution for the 21st century It argues that a new preoccupation with risk filled the vacuum left by the collapse of the Soviet Union and uses the literature of the Risk Society to analyse the strained politics of the North Atlantic community Using case studies to show how the West has pursued a strategy of risk management and the effect this has had on NATO's politics the book argues that a better understanding of how risk affects Western political cohesion will allow policy makers a way of adapting the structure of NATO to make it more effective as a tool for security Having analysed NATO's recent failings the book offers a theory for the way in which it can become an active risk manager through the replacement of its established structure by smaller ad hoc groupings

Germany and Nuclear Weapons in the 21st Century Ulrich Kühn, 2024-03-12 This book is the first scholarly book to take a comprehensive look at Germany's nuclear weapons policies in the 21st century German foreign and security policy is facing a profound reorientation Great power competition between the United States and both a revanchist Russia and a rising China the return of war and nuclear threats to Europe and the emergence of new technologies all force Germany to adapt German policymakers and scholars increasingly speak of a pivotal *Zeitenwende* an epochal turning point in history How does Germany adapt its nuclear policies to these changing conditions The volume brings together internationally renowned nuclear scholars and policy analysts from Germany and abroad Focussing on German nuclear deterrence arms control and disarmament as well as nonproliferation policies the contributors assess how German leaders have navigated continuity and change domestically and abroad The volume concludes that Germany remains bound by dependence on the United States

and its own conservatism Within these parameters German leaders have adapted slowly to change and continue to balance seemingly contradictory deterrence and disarmament goals This book will be of much interest to students of nuclear proliferation security studies German politics and International Relations as well as policymakers Germany After the 2013 Elections Gabriele D'Ottavio, Thomas Saalfeld, 2016-03-03 The German election of 2013 has important ramifications for the whole of Europe Germany After the 2013 Elections Breaking the Mould of Post Unification Politics provides a comprehensive analysis of this election and its wider implications for post unification German politics International specialists on German and EU politics examine the domestic and international context of the election and reflect on its possible consequences In the first part of the volume a number of contributors analyse the policy environment in which the election took place while the second part deals with voters parties and leaders strategies in the run up to and the aftermath of the 2013 election **The Post-Cold War International System** Ewan Harrison, 2004-07-31 The end of the Cold War has opened up a real world laboratory in which to test and refine general theories of international relations Using the frameworks provided by structural realism institutionalism and liberalism The Post Cold War International System examines how major powers responded to the collapse of the Soviet Union and developed their foreign policies over the period of post Cold War transition The book argues that the democratic peace has begun to generate powerful socialisation effects due to the emergence of a critical mass of liberal democratic states since the end of the Cold War The trend this has produced is similar to a pattern that classical realists have interpreted as bandwagoning within a unipolar power structure Case studies of Germany China and Japan identified as key states with the potential to challenge US dominance provide evidence to support the assessment of international change The author concludes by exploring the implications of September 11th for the analysis developed This important volume argues that the end of the Cold War was a major historical turning point in the development of world politics with fundamental implications for the basic way in which the dynamics of the international system are conceptualised *Shaping Europe* Ulrich Krotz, Joachim Schild, 2013 France and Germany have played a pivotal role in European politics and integration Shaping Europe systematically investigates the interrelated reality of Franco German bilateralism and multilateral European integration from the Elysée Treaty into the Twenty first Century
