Daniel Moreton

Germany Between East And West:

Germany Between East and West Frederick H. Hartmann, 1965 *East, West, North, South* Geir Lundestad, 2005-01-26 Fully revised and updated this fifth edition of the history of international politics since 1945 is an ideal introduction for all students seeking an accessible guide to world events in the post war era up to 2004 *East and West Germany* Karl E. Birnbaum, 1973 **Germany and the United States, a "special Relationship?"** Hans Wilhelm Gatzke, 1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic *The Institutional Dynamics of Culture, Volumes I and II* Perri Six, 2018-12-20 These two volumes present the most important recent developments in the institutional theory of culture and demonstrate their practical applications Sometimes called grid group analysis or cultural theory they derive from the work of Durkheim in the 1880s and 1900s and develop the insights of the anthropologist Mary Douglas and her followers from the 1960s on First redefined within social and cultural anthropology the theory's influence is shown in recent years to have permeated all the main disciplines of social science with substantial implications for politics history business work and organizations the environment technology and risk and crime and consumption Today the institutional theory of culture now rivals the rational choice Weberian and postmodern outlooks in influence across the social sciences *East Germany And The Warsaw Alliance* Daniel Moreton, 2019-05-20 This volume examines the role and influence of the GDR in Eastern Europe focusing on the changing nature of the German problem and the impact of East Germany on the pattern of relations within the Warsaw alliance from 1967 to the present After tracing the origins and development of the various issues that make up the contemporary German problem **Trade and Technology: East-West trade and technology transfer** United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs. Subcommittee on International Finance, 1980

Political Science and International Relations Drew Paul, 2018-05-12 Many important questions in the study of international relations are connected with the theory and practice of sovereign statehood which as indicated is the central historical institution of world politics But there are other important issues as well That has led to ongoing debates about the proper scope of international relations At one extreme the scholarly focus is exclusively on states and interstate relations but at other extreme international relations almost everything that has to do with human relations across the world It is important to study these different perspectives if we hope to have balanced and rounded knowledge of International relations This book has been designed to unravel the complexities of political science and international relations in a way that allows student a clear idea of how the theories work and myths that are associated with them **History of the Office of the Secretary of Defense: The formative years, 1947-1950** Alfred Goldberg, Steven L. Rearden, 1984 *The United States*

and Germany in the Era of the Cold War, 1945-1990 Detlef Junker, Philipp Gassert, Wilfried Mausbach, David B. Morris, 2004-05-17 Publisher Description *The Politics of East-West Migration* Solon Ardittis, 2016-07-27 How many people have migrated from central and Eastern Europe since the 1989 revolutions Are fears of mass migration from eastern Europe well founded What are the causes and effects in both the sending and receiving countries of such population movements What are the policy reactions in the East and the West and how is this phenomenon likely to develop and to be regulated over the near future These are some of the key questions addressed in this book by sixteen east and west European experts on international migration *Air University Review*, 1981-09 *U.S. Foreign Policy and the East-West Confrontation* United States. Congress. House. Committee on Foreign Affairs, 1980 **Migration and the Construction of German Identities, 1949-2004** Bethany Erin Hicks, 2023-10-24 Migration in its many forms has often been found at the center of public and private discourse surrounding German nationalism and identity significantly influencing how both states construct conceptions of what it means to be German at any given place and time The attempt at constructing an ethnically homogeneous Third Reich was shattered by the movement of refugees expellees and soldiers in the aftermath of the Second World War and the contracting of foreign nationals as Gastarbeiter in the Federal Republic and Vertragsarbeiter in the German Democratic Republic in the 1960s and 70s diversified the ethnic landscape of both Cold War German states during the latter half of the Cold War Bethany Hicks shows how the regional migration of East Germans into the western federal states both during and after German unification challenged essential Cold War assumptions concerning the ability to integrate two very different German populations **Britain, Ost- and Deutschlandpolitik, and the CSCE (1955-1975)** Luca Ratti, 2008 Based on new and existing archival documentation this book provides a detailed analysis of the British attitude to Bonn's Eastern and inner German policies during the period of détente and the CSCE Each chapter analyses the evolution of British policy on a particular issue area making detailed comparisons of British and West German archival sources and outlining the main aspects of the British view of West Germany's relations with the Soviet bloc states and the German Democratic Republic Drawing upon the archives of the Foreign and Commonwealth Office and of the West German foreign ministry this book sheds new light on some of the more occult aspects of the British attitude to the German question and reveals the problems faced by British decision makers in seeking to maintain Britain's close ties with Bonn while being hardly enthusiastic about the long term prospect of German reunification This volume addresses issues of East West and Anglo German relations the role of NATO and the debate among the Western allies on relations between the two German states during the period of détente *Documents on Germany, 1944-1970* United States. Department of State. Historical Office, 1971 **German Unification and the Jurists of East Germany** Howard J. De Nike, 1997 **Congressional Record** United States. Congress, 1962 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in

1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States
1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 *Technology and
East-West Trade* United States. Congress. Office of Technology Assessment, 1979 *Documents on Germany, 1944-1985*
