The Oxford Handbook of African American Theology Katie G. Cannon, Anthony B. Pinn, 2014-07-01. Named an Honor Book for Nonfiction by the Black Caucus of the American Library Association. African American theology has a long and important history. With modern roots in the civil rights movements of the 1960s, African American theology has gone beyond issues of justice and social transformation to participate in broader dialogues of theological inquiry. The Oxford Handbook of African American Theology brings together leading scholars in the field to offer a critical and comprehensive analysis of this theological tradition in its many forms and contexts. Using an interdisciplinary approach, this Oxford Handbook examines the nature, structures and functions of African American Theology. The volume surveys the field by highlighting its sources, doctrines, internal debates, current challenges and future prospects in order to present key topics related to the wider palette of Black Religion in a sustained scholarly format. This formative collection presents current scholarship on African American Theology and scripture, eschatology, Christology, womanist theology, sexuality, ontology, the global economy and much more. The contributors represent a diverse set of faith perspectives adding to the layered discourses within the volume. Featured are descriptions of over 40 major utopian communities, both religious and secular. Entries are organized in terms of their histories, belief systems, leadership, economics, daily life and the reactions they drew from mainstream society.

Today black owned barber shops play a central role in African American public life The intimacy of commercial grooming encourages both confidentiality and camaraderie which make the barber shop an important gathering place for African American men to talk freely But for many years preceding and even after the Civil War black barbers endured a measure of social stigma for perpetuating inequality though the profession offered economic mobility to black entrepreneurs black barbers were obliged by custom to serve an exclusively white clientele Quincy T Mills traces the lineage from these nineteenth century barbers to the bustling enterprises of today demonstrating that the livelihood offered by the service economy was crucial to the development of a black commercial sphere and the barber shop as a democratic social space Cutting Along the Color Line chronicles the cultural history of black barber shops as businesses and civic institutions Through several generations of barbers Mills examines the transition from slavery to freedom in the nineteenth century the early twentieth century expansion of black consumerism and the challenges of professionalization licensing laws and competition from white barbers He finds that the profession played a significant though complicated role in twentieth century racial politics while the services of shaving and grooming were instrumental in the creation of socially acceptable black masculinity barbering permitted the financial independence to maintain public spaces that fostered civil rights politics This sweeping engaging history of an iconic cultural establishment shows that black entrepreneurship was intimately linked to the struggle for equality *The New Black Gods* Edward E. suspicious of evangelicals over the course of the twentieth century Liberal evangelicals walked a difficult path facing increasing polarization in twentieth century American public life both conservative evangelicals and secular reformers insisted that religion and science were necessarily at odds and that evangelical Christianity was incompatible with cultural diversity Liberal evangelicals rejected these simple dichotomies but nonetheless found it increasingly difficult to defend their middle way Drawing on history anthropology and religious studies Bowman paints a complex portrait of these understudied Christians at work at worship and engaged in advocacy in the public square
