God, Power, and Evil David Ray Griffin, 2004-01-01 The baffling age old question if there is a good God why is there evil in the world has troubled ordinary people and great thinkers for centuries God Power and Evil illuminates the issues by providing both a critical historical survey of theodicy as presented in the works of major Western philosophers and theologians Plato Aristotle Plotinus Augustine Aquinas Spinoza Luther Calvin Leibniz Barth John Hick James Ross Fackenheim Brunner Berkeley Albert Knudson E S Brighton and others and a brilliant constructive statement of an understanding of theodicy written from the perspective of the process philosophical and theological thought inspired primarily by Alfred North Whitehead and Charles Hartshorne *Divine Power and Evil* Kenneth K. Pak, 2016-04-06 Evil perplexes us all and threatens to undermine the meaningfulness of our existence How can we reconcile the reality of evil with the notion of a God who is perfectly good and powerful Process theodicy whose foremost proponent is David Griffin suggests one answer because every being possesses its own power of self determination in order for God to attain the divine aim of higher goodness for the world God must take the risk of the possibility of evil Divine Power and Evil responds to Griffin s criticisms against traditional theodicy assesses the merits of process theodicy and points out ways in which traditional theism could incorporate a number of Griffin s valuable insights in progressing toward a philosophically and theologically satisfactory theodicy It provides a new and important contribution to a long standing debate within philosophy of religion and theology Evil Revisited David Ray Griffin, 1991-01-01 In this book Griffin responds to critiques of his earlier work God Power and Evil A Process Theodicy and discusses ways in which his position has changed in the intervening years In so doing he examines the problem of evil theodicy and philosophical theology and contrasts traditional theism and process theism with regard to the question of omnipotence *The Making of American Liberal Theology* Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom *Philosophy of Religion* Anne Jordan, Neil Lockyer, Edwin Tate, 2002 In its second edition this text is now fully in line with the new Advanced level specifications and is also suitable for use with the Scottish Higher It provides an accessible and comprehensive look at the study of the Philosophy of Religion The book features self tests and end

Ostler, 2001-10-01 In this first volume Blake T Ostler explores Christian and Mormon notions about God Written for both Mormons and non Mormons interested in the relationship between Mormonism and classical theism his path breaking *Exploring Mormon Thought* The Attributes of God is a critique of classical theism regarding some of the central concepts that have formed the Christian understanding of God He deals with questions of traditional philosophical theology including free will and foreknowledge the nature of God and Christology The approach to these questions is from the analytic philosophical tradition and includes detailed arguments relating to the coherence of Christian belief scripture and practice However he recognizes that religious faith is far more a product of intimacy with the divine than of ultimacy of reason more a product of relationships than of logical necessities He provides an overview of the most influential Christian notions of deity exploring themes and resources within this discourse that might be helpful to Latter day Saint explorations Also highlighted are various perspectives within Mormonism itself including a detailed analysis of Joseph Smith s Lectures on Faith and discussion of the thought of Orson and Parley Pratt B H Roberts and John Widstoe Earlier Mormon thought is demonstrated to have included a concept of God as a being in process He suggests areas in which Mormon approaches to questions about free agency and God s omnipotence might suggest resolutions to some of the difficult issues that have troubled theologians and philosophers for centuries For the first time ever Ostler formulates a systematic Mormon Christology
