God Scepticism And Modernity:

God, Scepticism and Modernity Kai Nielsen, 1989 Belief in God in our time is irrational for someone who has both a good philosophical and a good scientific education Kai Nielsen dismisses the idea of an anthropomorphic God as untenable and considers non anthropomorphic conceptions to be so problematic as to be incoherent In this provocative and challenging work he delineates his own form of atheism and responds to a series of searching criticisms in its defence *Modern Scepticism*, 1871 *Modern Scepticism* Christian Evidence Society, 1872 **Modern Scepticism** C. Ellicott, 2023-02-19 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost **A portraiture of modern scepticism; or, A caveat against infidelity** John Morison, 1832 The Nature of the Bible, Considered in Relation to Modern Scepticism Charles Wills, 1865 **The Sceptical Mode in Modern Philosophy** R. A. Watson, J.E. Force, 2012-12-06 *Modern Scepticism. A course of lectures delivered at the request of the Christian Evidence Society, with an explanatory paper, by the Right Reverend C. J. Ellicott ... Third edition*, 1871 **Academic Scepticism in the Development of Early Modern Philosophy** Plínio Junqueira Smith, Sébastien Charles, 2016-12-27 This book explores how far some leading philosophers from Montaigne to Hume used Academic Scepticism to build their own brand of scepticism or took it as its main sceptical target The book offers a detailed view of the main modern key figures including Sanches Charron La Mothe Le Vayer Bacon Gassendi Descartes Malebranche Pascal Foucher Huet and Bayle In addition it provides a comprehensive assessment of the role of Academic Scepticism in Early Modern philosophy and a complete survey of the period As a whole the book offers a basis for a new balanced assessment of the role played by scepticism in both its forms Since Richard Popkin's works there has been considerable interest in the role played by Pyrrhonian Scepticism in Early Modern Philosophy Comparatively Academic Scepticism was much neglected by scholars despite some scattered important contributions Furthermore a general assessment of the presence of Academic Scepticism in Early Modern Philosophy is lacking This book fills the void Skepticism in the Modern Age José Raimundo Maia Neto, Gianni Paganini, John Christian Laursen, 2009 Since the publication of the first edition of Richard Popkin's classic *The History of Scepticism* in 1960 skepticism has been increasingly recognized as a major force in the development of early modern philosophy This book provides a review of current scholarship and significant updated research on some of the main thinkers and issues related to the reappraisal of ancient skepticism in the modern age Special attention is given to the nature importance and relation to religion of Montaigne's and Hume's skepticisms to the various skeptical and non skeptical sources of Cartesian doubt to the skeptical and anti skeptical impact of Cartesianism in the seventeenth and eighteenth centuries and to philosophers who dealt with skeptical issues in the development of their own various intellectual interests *After Rorty* G. Elijah Dann, 2010-12-16 **Dictionary of Modern American Philosophers**

John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are represented the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

Walking the Tightrope of Faith, 2023-12-28 This book expands upon the dialogue between the atheist philosopher Kai Nielsen and the Christian philosopher Hendrik Hart in the book Search for Community in A Withering Tradition Collected here for the first time are the responses of several prominent Canadian philosophers to Nielsen's outspoken work in the philosophy of religion including their responses to Hart's criticisms of Nielsen New replies by Hart and Nielsen to these added voices are also included This volume is of interest for students in the philosophy of religion who wish to examine the encounter between religious faith and secular humanism at the close of the twentieth century an increasingly postmodern time in which the appeal to an a historical standard of rationality is no longer sought or even thought possible This book tackles tough topics like the appropriate role of reason in the intellectual criticism and defense of faith the limits of the rational justification of human knowledge the role of pre reflective commitments in human intellectual life the nature of truth and the possibility for peace in a world consisting of a plural and often violent collection of cultural and religious groups

Sceptical Doubt and Disbelief in Modern European Thought Vicente Raga Rosaleny, Plínio Junqueira Smith, 2020-10-19 This volume examines modern scepticism in all main philosophical areas epistemology science metaphysics morals and religion It features sixteen essays that explore its importance for modern thought The contributions present diverse mutually enriching interpretations of key thinkers from Montaigne to Nietzsche The book includes a look both at the relationship between Montaigne and Pascal and at Montaigne's criticism of religious rationalism It turns its attention to an investigation into the links between ancient scepticism and Bacon's Doctrine of the Idols as well as into the ancient problem of the criterion in Cartesian philosophy Next three essays focus on more general topics like modern sceptical disturbances clandestine literature and irreligion Two essays investigate the role of scepticism in Bayle's moral thinking and his theory of religious toleration Hume's sceptical philosophy is the subject of two papers by distinguished scholars In addition many contributors address the presence of scepticism in Kant and in the German Idealism such as the role of Schulze's scepticism in the works of the young Hegel The book closes with a paper on Nietzsche and scepticism and an essay on the role of Popkin

s and Schmitt's works on modern scepticism. This collection continues along a rich fruitful path opened by Richard H Popkin and pursued by many important scholars like Gianni Paganini, John Christian Laursen and Jos Raimundo Maia Neto. It re-establishes that necessary dialogue between researchers of scepticism from all over the Americas which began with Popkin, Oswaldo Porchat and Ezequiel de Olaso long ago. This insightful reflection on modern European scepticism will also serve as an important resource in the history of modern philosophy.

Short collections, or excerpts, from ancient and modern authors, for sceptics in the great truths of natural religion, by a layman Short collections, 1829 **A Portraiture of modern Scepticism; or, a caveat against infidelity, etc** John MORISON (D.D., LL.D.), 1832 *Early Modern Skepticism and the Origins of Toleration* Alan Levine, 1999-04-22

This collection of original essays by the nation's leading political theorists examines the origins of modernity and considers the question of tolerance as a product of early modern religious skepticism. Rather than approaching the problem through a purely historical lens, the authors actively demonstrate the significance of these issues to contemporary debates in political philosophy and public policy. The contributors to *Early Modern Skepticism* raise and address questions of the utmost significance: Is religious faith necessary for ethical behavior? Is skepticism a fruitful ground from which to argue for toleration? This book will be of interest to historians, philosophers, religious scholars and political theorists, anyone concerned about the tensions between private beliefs and public behavior.

The Formation of the Modern Self Felix O Murchadha, 2022-01-13. Charting a genealogy of the modern idea of the self, Felix Murchadha explores the accounts of self-identity expounded by key Early Modern philosophers: Montaigne, Descartes, Pascal, Spinoza, Hume and Kant. The question of the self as we would discuss it today only came to the forefront of philosophical concern with Modernity, beginning with an appeal to the inherited models of the self found in Stoicism, Scepticism, Augustinianism and Pelagianism, before continuing to develop as a subject of philosophical debate. Exploring this trajectory, *The Formation of the Modern Self* pursues a number of themes central to the Early Modern development of selfhood, including amongst others, grace and passion. It examines on the one hand the deep-rooted dependence on the divine and the longing for happiness and salvation, and on the other hand the distancing from the Stoic ideal of *apatheia* as philosophers from Descartes to Spinoza recognised the passions as essential to human agency. Fundamental to the new question of the self was the relation of faith and reason. Uncovering commonalities and differences amongst Early Modern philosophers, Murchadha traces how the voluntarism of Modernity led to the sceptical approach to the self in Montaigne and Hume, and how this sceptical strand in turn culminated in Kant's rational faith. More than a history of the self in philosophy, *The Formation of the Modern Self* inspires a fresh look at self-identity, uncovering not only how our modern idea of selfhood developed, but just how embedded the concept of self is in external considerations, from ethics to reason to religion.

Philosophy and Modern Liberal Arts Education N. Tubbs, 2014-01-08. This book argues for a modern version of liberal arts education, exploring first principles within the divine comedy of educational logic. By reforming the three philosophies of

metaphysics nature and ethics upon which liberal arts education is based Tubbs offers a profound transatlantic philosophical and educational challenge to the subject **Christianity and Modern Scepticism** Arthur Gilbert Girdlestone, 1882
