God The Center Of Value Value Theory In Theology Of H Richard Niebuhr:

God the Center of Value C. David Grant, 1984 *The Theology of H. Richard Niebuhr* L. A. Hoedemaker, 1970 A revision of the author's thesis entitled Faith in total life Utrecht 1966 **H. Richard Niebuhr** Donald W. Shriver, 2009 Summarizes Niebuhr's faith journey as seen through the lens of his major works *H. Richard Niebuhr* Donald W. Shriver JR., 2009-09-01 Abingdon Pillars of Theology is a series for the college and seminary classroom designed to help students grasp the basic and necessary facts influence and significance of major theologians Written by noted scholars these books will outline the context methodology organizing principles primary contributions and key writings of people who have shaped theology as we know it today Dr Donald Shriver tells us that H Richard Niebuhr wrote about God in a serious yet joyous exploration This book summarizes Niebuhr's faith journey as seen through the lens of his major works While Niebuhr did mean to move his readers to think struggle argue and even pray he expected nothing less from himself It is the hope of the author that by reading this book readers will be better prepared to travel a path of their own *Missional Ecclesiologies in Creative Tension* Joon-Sik Park, 2007 In this masterful study of the critical issues in missional ecclesiology Joon Sik Park reflects on two prominent twentieth century theologians H Richard Niebuhr 1894 1962 and John Howard Yoder 1927 1997 and integrates the insights of their respective traditions Although ecclesiology was a major concern to both Niebuhr and Yoder their views on the nature and calling of the church were distinct Whereas Niebuhr a theologian in the Evangelical and Reformed tradition was concerned with defining the church in relation to a universal community Yoder standing within the Mennonite tradition was interested in representing the church as an alternative community Although Niebuhr was reluctant to distinguish the church sharply from the world Yoder stressed the distinctiveness of the church from the world and considered the Christian faith a decisive difference between believing and unbelieving communities Seeking to construct an integral missional ecclesiology Joon Sik Park carefully engages Niebuhr and Yoder and proposes a critical synthesis of their strengths He holds in creative tension the contradistinctive ecclesiologies of Niebuhr and Yoder by means of Lesslie Newbigin's logic of election providing a way to overcome an impasse between the two theologians **Modern Christian Thought: The twentieth century** James C. Livingston, Francis Schüssler Fiorenza, This widely acclaimed introduction to modern Christian thought formerly published by Prentice Hall provides full scholarly accounts of the major movements and thinkers theologians and philosophers in the Christian tradition since the eighteenth century Enlightenment together with solid historical background and critical assessments This second edition deals with the entire modern period in both Europe and America and is the first to include extensive treatment of modern Catholic thinkers Evangelical thought and Black and Womanist theology **Critical Realism and the Objective Value of Sustainability** Gabriela-Lucia Sabau, 2024-02-29 Critical Realism and the Objective Value of Sustainability contributes to the growing discussion surrounding the concept of sustainability using a critical realist approach within a transdisciplinary theoretical framework to examine how sustainability

objectively occurs in the natural world and in society The book develops an ethical theory of sustainability as an objective value rooted not in humans subjective preferences but in the holistic web of relationships interdependencies and obligations existing among living things on Earth a web believed to have maintained life on Earth over the last 3.7 billion years It proposes three pillars of sustainability ethics contentment for the human existence given to us justice beyond distributive justice and meaningful freedom within ecological and moral limits Using abductive reasoning the book infers that there is an out of this world Sustainer behind the Earth's sustainability acting as a metaphysical source of all being and value It argues that sustainability value accepted as a shared understanding of the common good must guide individual decisions and socio economic development efforts as a matter of deliberate choice as well as be built on the awareness that there are non negotiable pre established conditions for our planet's sustainability This book will be of interest to students and scholars across fields of inquiry including sustainability sustainable development environmental philosophy and ethics philosophy of science and ecological economics and to whoever may wonder why seasons exist and why humans have creative minds

Sandoval, 2006 The Discourse of Wealth and Poverty in the Book of Proverbs includes a discussion of proverbs and metaphor reviews previous studies of wealth and poverty in Proverbs offers in depth analyses of particular passages in Proverbs and suggests a possible social historical setting for the book

The Legacy of H. Richard Niebuhr Helmut Richard Niebuhr, 1991

Scripture and Ethics Jeffrey S. Siker, 1997 Siker brings together the history of biblical interpretation and the study of uses of the Bible in Christian ethics to examine how the Bible has actually been used in Christian theological ethics and in the process profiling eight influential twentieth century theologians

Transforming Faith Joshua Leonard Daniel, 2015-09-09 In the face of apparently rampant individualism there has been a steady call for a return to community and tradition particularly in religious communities and in recent Christian theology and ethics The form of contemporary life upheld by modern ideals like freedom and universalism the story goes turns out to divide people from each other and from the communal sources of our traditionally moral values But the call to community too often confuses individualism with individuality assuming that any appeal to individuality as a value or ideal is a rejection of communal goods rather than a mode of promoting those goods What's necessary now is a recovery of the individual that understands individuality to serve community even in resistance to it In Transforming Faith Joshua Daniel offers a fresh reading of H. Richard Niebuhr's theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community What is theologically at stake in Daniel's reconstructive interpretation is the human's existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity

A Moral Ontology for a Theistic Ethic Frank G. Kirkpatrick, 2017-11-22 This title was first published in 2003 This book develops a moral ontology for a theistic ethic that engages the work of contemporary moral and political philosophers and reaffirms the relevance of a theistic tradition of God's relation to the world reflected in the fundamental

teachings of Judaism Christianity and Islam Drawing on recent thought in the non religious fields of psychology and political and moral philosophy which build around the concept of human flourishing in community Kirkpatrick argues that a theistic ethic need not be the captive of parochial or sectarian theological camps He proposes a common or universal ethic that transcends the fashionable ethnocentric incommensurate differences in morality alleged by many post modern deconstructionists In the wake of ethnic religious strife post September 11th 2001 this book argues for a common morality built on the inclusivity of love community and justice that can transcend sectarian and parochial boundaries **Pragmatic Theology** Victor Anderson,1998-01-01 Argues that while contemporary American philosophies and philosophers of religion are proclaiming the end of theology a neopragmatism has arrived to fill the void in meaning and moral fulfillment to which theology once supplied answers **The ^AWorld Come of Age** Lilian Calles Barger,2018-07-02 A trans American cultural history of ideas of how in the 1960s and 70s the first generation of liberation theologians conceptualize a radical political theology Representing those marginalized by modern politics and religion due to race class or sex status liberationists redefined the theo political space and set the stage for new expressions of religious activism *Fides and Secularity* Emilio Di Somma,2018-11-15 This book wishes to talk about two main topics the Canadian political philosopher Charles Taylor and faith Taylor in his philosophical arguments on religion and secularity has adopted what I call the great prejudice on religion and secularity the two belong to utterly different spheres of human mind and sociality In this prejudice faith is used as a synonym of religion or belief and is understood as something that does not belong to the sphere of secularity My argument contradicts precisely this common belief Is faith more of an anthropological attitude towards reality than a religious one Can we criticize Taylor s philosophy on these grounds To develop my argument I will attempt to develop a dialogue between continental and Anglo American philosophers and theologians in the hope of convincing the readers that we should change radically the way we discuss faith religion and secularism *Sacred Mountains* Andrew R. H. Thompson,2015-12-18 On a misty morning in eastern Kentucky cross bearing Christians gather for a service on a surface mined mountain They pray for the health and renewal of the land and for their communities lamenting the corporate greed of the mining companies On another day in southern West Virginia Andrew Jordon hosts Bible study in a small cabin overlooking a disused 1 400 acre surface mine He believes his efforts to reclaim sites like these represent responsible environmental stewardship In *Sacred Mountains* Andrew R H Thompson highlights scenes such as these in order to propose a Christian ethical analysis of the controversial mining practice that has increasingly divided the nation and has often led to fierce and even violent confrontations Thompson draws from the arguments of H Richard Niebuhr whose work establishes an ideal foundation for understanding Appalachia Thompson provides a thorough introduction to the issues surrounding surface mining including the environmental consequences and the resultant religious debates and highlights the discussions being carried out in the media and by scholarly works He also considers five popular perspectives ecofeminism liberation theology environmental

justice environmental pragmatism and political ecology and offers his own framework and guidelines for moral engagement with the subject Thompson's arguments add to the work of other ethicists and theologians by examining the implications of culture in a variety of social historical and religious contexts A groundbreaking and nuanced study that looks past the traditionally conflicting stereotypes about religion and environmental consciousness in Appalachia Sacred Mountains offers a new approach that unifies all communities regardless of their beliefs **Richard Hooker and Anglican Moral Theology**

A.J. Joyce,2012-02-23 The first major study to examine Richard Hooker's foundational contribution to Anglican moral theology in detail *Consenting to God and Nature* Byron C. Bangert,2006-03-08 This book an exploration in theological ethics is motivated by two central questions First How can we think and speak with integrity about God as One who is active in human affairs and the world How can God make a difference in our world and in our lives Second and no less important What is the character of God's activity in the world and how are we to relate and respond to this activity How does God make a difference in our world and our lives and what are some of the implications for our own actions As the book's title indicates Bangert claims that a proper engagement in theological ethics requires both consenting to God and consenting to nature This means both consenting to the reality that is God the One with whom we ultimately have to do and the acceptance of the natural or physical world as hugely determinative of the limits and possibilities of human life and all existence He argues that this calls for a theocentric naturalistic theological ethics Bangert shows how the work of three major contemporary Protestant thinkers James M Gustafson Sallie McFague and David Ray Griffin may be fruitfully appropriated for the articulation of just such an ethics one that is responsive to the Christian tradition while also sharing the modern commitment's appeal to human experience and reason Each of these three thinkers eschews a priori appeal to the authority of religious tradition as each takes seriously scientific knowledge of our world Each accents ways in which current scientific understandings inform and in some cases are informed by contemporary appropriations of the language and thought of Christian tradition Each is also concerned to relate his or her approach to human valuing life and action A critical appraisal of their work shows that none provides a sufficient basis for an intellectually and religiously adequate theological ethics but that each contributes elements necessary to the articulation of such an ethics within the Protestant Christian tradition as it confronts the religious and intellectual challenges of today's world To See the Kingdom James W. Fowler,2001-03-02
