God Man And Religion Readings In The Philosophy Of Religion:

God, Man, and Religion Keith E. Yandell, 1973 **God, Man, and Religion** Keith E. Yandell, 1973 Ninian Smart on World Religions: Traditions and the challenges of modernity. I. Individual traditions. Buddhism. 'Mysticism and scripture in Theravāda Buddhism' Ninian Smart, 2009

Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s. His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research. An unending string of publications, many of them accessible to the general public, sustained a reputation that became worldwide. Here for the first time a selection of Ninian Smart's wide-ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century. The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria. He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster.

Theology and the Problem of Evil Kenneth Surin, 2004-10-29

One of the most profound problems that theologians are called on to address is the presence of evil and suffering in the world and how this can be reconciled with the assertion of an omnipotent and morally perfect God. This book begins by showing how the problem of evil has been inextricably bound up with the problematic deity created by the philosophical theism of the Enlightenment and perpetuated ever since, demonstrating how contemporary theodiscists have failed to perceive the historical and cultural determinants which affect their theorizing. Dr Surin argues that thinking on the problem of evil consists of two fundamental perspectives. He labels these the theoretical and the practical approaches and examines the work of a number of theologians who typify each: Alvin Plantinga, Richard Swinburne, the process theologians, and John Hick exemplify the theoretical approach; Dorothee Soelle, Jürgen Moltmann, and P. T. Forsyth exemplify the practical. He uses the views of Dostoevsky's character Ivan Karamazov and the protagonists in Elie Wiesel's writing as a paradigm for evaluating the two approaches and concludes that only the practical approach has the merit of both rooting itself in the realities of human suffering and grounding itself in the fundamental rule of what he calls an adequate grammar of salvation.

namely that God justifies himself by justifying sinners on the cross Finally Dr Surin explores this grammar of the notion of an incarnate salvation with particular reference to the need for a messianic and practical solidarity with those who are afflicted This thought provoking book will serve both as an introduction to those new to the ideas of theodicy and as a stimulating essay for those dissatisfied with conventional studies of theology and the problem of evil *A Pictorial Directory of Ancient and Medieval Places of Baptism* Daniel M. Keeran,2009 *The Specter of the Absurd* Donald A. Crosby,2016-03-22 This book is our century s most comprehensive and wise treatment of nihilism in all of its guises comparing favorably with Rosen Cavell and indeed with Spengler Crosby argues that our culture is genuinely haunted by nihilism expressing itself in the fideism of fundamentalism as well as in the debilitating alienation from all orientation This results from a one sided development of Western culture Unlike most writers on this topic Crosby acknowledges many sources colluding to frame the culture of nihilism including the death of God the objectification of nature the meaninglessness of suffering in a mechanical universe the ephemerality of time in a world where value does not accumulate the arbitrariness of historicized reason the reduction of value to will and the alienation of the Cartesian ego These sources are reviewed in the first two parts of the book with the result that the phenomenon of nihilism becomes understandable In its third and fourth parts Crosby provides a critical analysis of the religious and philosophical forces leading to nihilism by discussing authors from the early modern period through Dostoyevsky Sartre Russell and Derrida He shows that these forces are skewed and impoverished and should not be allowed to determine our situation The comprehensive attention to detail and the multi perspectival interpretation demonstrates as well as asserts the richness of the culture that puts nihilism in its place Part Five finally rephrases the criticism of the sources of nihilism in positive ways Part Four in particular is a tour de force of philosophical argument Its richness of nuance plurality of views examined and adroitness of critical interpretation provide cumulatively a powerful non nihilistic reading of the philosophic tradition The force of the argument derives from its comprehensive cumulative character Crosby distinguishes and relates five areas of nihilism political moral epistemological cosmic and existential Throughout the book he illustrates and examines these as they are expressed in literature and art in daily life and practical affairs and in philosophy The book is richly erudite in its marshalling of consciousness from so many domains *Politics and Transcendent Wisdom* Charles D. Orzech,2010-11 *Politics and Transcendent Wisdom* presents a systematic theoretical framework for understanding the relationship between politics and religion in a variety of contexts This book examines the formation of national protection Buddhism in China and translates the key text of this important movement Showing that Buddhist notions of sovereignty were meant and were taken as more than mere metaphor Orzech examines the profound link between Buddhist notions of transcendence and the deployment of political authority in East Asia To this integration of philosophical tradition and political history is brought a new understanding of Buddhist cosmology The contexts of Buddhism as state religion in fifth and eighth century China are examined in detail through extended consideration of the Transcendent Wisdom

Scripture for Humane Kings Who Wish to Protect Their States the text that was the charter for Buddhist state cults in China Korea and Japan into the twentieth century The text first appeared during the fifth century as Buddhists were struggling to understand how their foreign religion and the foreign rulers of north China might be adapted to Chinese religious and political culture The Scripture for Humane Kings and the rites enjoined by it were one answer to these questions Three centuries later in the context of a fully sinified Buddhism the Tang dynasty Tantric master Pu k ung produced a new version of the text with new rites that served as the centerpiece of his vision of a Chinese Buddhist state modeled on esoteric lines The final section of this volume presents for the first time a full annotated translation of this important East Asian Buddhist text *Almighty God* Gijsbert van den Brink,1993 Peeters 1993 Tagore and his philosophy Paitoon Patyaiying,2005 Rabindranath Tagore 1861 1941 Bengali litterateur **The Georgetown Symposium on Ethics** Rocco Porreco,1984 Held Apr 14 15 1983 Bibliography p 285 293 Catalog of Copyright Entries.
